This Decision lays down animal health control measures in relation to African swine fever in the Member States or areas thereof as set out in the Annex (the Member States concerned), and in all Member States as regards movements of feral pigs and information obligations.

▼ B

It shall apply without prejudice to the plans for the eradication of African swine fever from feral pig populations in the Member State concerned, approved by the Commission in accordance with Article 16 of Directive 2002/60/EC.

Article 2

Prohibition on the dispatch of live pigs, porcine semen, ova and embryo, pig meat, pig meat preparations, pig meat products and any other products containing pig meat as well as consignments of animal by-products from porcine animals from certain areas listed in the Annex

The Member States concerned shall prohibit:

- (a) the dispatch of live pigs from the areas listed in Parts II, III and IV of the Annex;
- (b) the dispatch of consignments of porcine semen, ova and embryos from the areas listed in Parts III and IV of the Annex;
- (c) the dispatch of consignments of pig meat, pig meat preparations, pig meat products and any other products containing such meat from the areas listed in Parts III and IV of the Annex;
- (d) the dispatch of consignments of animal by-products from porcine animals from the areas listed in Parts III and IV of the Annex.

Article 3

Derogation from the prohibition on the dispatch of live pigs from the areas listed in Part II of the Annex

▼ M10

By way of derogation from the prohibition provided for in point (a) of Article 2, the Member States concerned may authorise the dispatch of live pigs from a holding located in the areas listed in Part II of the Annex to other areas in the territory of the same Member State or to areas listed in Part II or III of the Annex of another Member State provided that:

▼ M25

1. the pigs have been resident for a period of at least 30 days, or since birth, on the holding and no live pigs have been introduced from the areas listed in Parts II, III and IV of the Annex during a period of at least 30 days prior to the date of the movement into:
 - (a) that holding; or
 - (b) the production unit where the pigs to be dispatched under this Article are kept; the production unit may only be defined by the competent authority provided that the official veterinarian confirms that the structure, size and distance between the production units and the operations carried out there are such that the production units provide completely separate facilities for housing, keeping and feeding, so that the virus cannot spread from one production unit to another, and

▼ B

2. the pigs have been subjected to laboratory testing for African swine fever carried out with negative results on samples taken in accordance with the sampling procedures as laid down in the plan for the eradication of African swine fever referred to in the second paragraph of Article 1 of this Decision within a period of 15 days prior to the date of the movement and a clinical examination for African swine fever has been carried out by an official veterinarian in accordance with the checking and sampling procedures laid down in Part A of Chapter IV of the Annex to Commission Decision 2003/422/EC ⁽¹⁾ on the date of dispatch, or
3. the pigs come from a holding:
 - (a) that has been subjected at least twice a year, with an interval of at least 4 months, to inspections by the competent veterinary authority, which:
 - (i) followed the guidelines and procedures laid down in Chapter IV of the Annex to Decision 2003/422/EC;
 - (ii) included a clinical examination and sampling in which the pigs over the age of 60 days have been subjected to the laboratory testing in accordance with the checking and sampling procedures laid down in Part A of Chapter IV of the Annex to Decision 2003/422/EC;
 - (iii) checked the effective application of the measures provided for in the second indent and in the fourth to seventh indents of Article 15(2)(b) of Directive 2002/60/EC;
 - (b) that implements bio-security requirements for African swine fever as established by the competent authority,

▼ M10

4. for live pigs dispatched to areas listed in Part II or III of the Annex of another Member State, the following additional requirements shall apply:

⁽¹⁾ Commission Decision 2003/422/EC of 26 May 2003 approving an African swine fever diagnostic manual (OJ L 143, 11.6.2003, p. 35).

▼ M10

- (a) the pigs comply with any other appropriate animal health guarantees based on a positive outcome of a risk assessment of measures against the spread of African swine fever required by the competent authority of the Member State of the place of origin and approved by the competent authority of the Member State of the place of transit and the competent authority of the Member State of destination, prior to the movement of such animals;
- (b) the Member State of origin immediately informs the Commission and the other Member States of the animal health guarantees and the approval by the competent authorities referred to in point (a);
- (c) a channelling procedure in accordance with Article 16a is set up, under the control of the competent authorities of the Member States of origin, transit and destination, in order to ensure that the animals, moved in accordance with the additional requirements provided for in point (a) are transported in a safe manner and are not subsequently moved to another Member State.
- (d) For live pigs that comply with the additional requirements of point 4 of this Article, the following additional wording shall be added to the corresponding health certificate for swine referred to in Article 5(1) of Directive 64/432/EEC:

‘Pigs in compliance with Article 3 of Commission Implementing Decision 2014/709/EU.’

*Article 3a***Derogation from the prohibition on the dispatch of live pigs from the areas listed in Part III of the Annex**

By way of derogation from the prohibition provided for in point (a) of Article 2, the Member States concerned may authorise the dispatch of live pigs from the areas listed in Part III of the Annex to other areas listed in Parts II in the territory of the same Member State or to areas listed in Part II or III of the Annex of another Member State, provided that:

1. the pigs are from a holding with an appropriate level of biosecurity approved by the competent authority, the holding is under the supervision of the competent authority, and the pigs comply with the requirements laid down in point 1 of Article 3 and in either point 2 or point 3 of Article 3;
2. the pigs are located in the centre of an area of at least three km radius in which all animals in the holdings comply with the requirements laid down in point 1 of Article 3 and in either point 2 or point 3 of Article 3;
3. the competent authority of the holding of dispatch must inform in due time the competent authority of the holding of destination of the intention to send the pigs and the competent authority of the holding of destination must notify the competent authority of the holding of dispatch of the arrival of the pigs;

▼ **M10**

4. the transport of the pigs within and through areas outside of the areas listed in Part III of the Annex must be carried out along predefined transport routes and the vehicles used for transporting the pigs must be cleaned, if necessary disinfected and disinfected as soon as possible after unloading;
5. for live pigs dispatched to areas listed in Part II or III of the Annex of another Member State, the following additional requirements shall apply:
 - (a) the pigs comply with any other appropriate animal health guarantees based on a positive outcome of a risk assessment of measures against the spread of African swine fever required by the competent authority of the Member State of origin and approved by the competent authority of the Member State of the place of transit and the competent authority of the Member State of destination, prior to the movement of such animals;
 - (b) the Member State of the place of origin immediately informs the Commission and the other Member States of the animal health guarantees and the approval by the competent authorities referred to in the point (a) and authorises a list of holdings that comply with animal health guarantees;
 - (c) a channelling procedure in accordance with Article 16a is set up, under the control of the competent authorities of the Member States of origin, transit and destination, in order to ensure that the animals, moved in accordance with the additional requirements provided for in point (a), are transported in a safe manner and are not subsequently moved to another Member State;
 - (d) for the live pigs that comply with all conditions of this Article, the following additional wording shall be added to the corresponding health certificate for swine referred to in Article 5(1) of Directive 64/432/EEC:

‘Pigs in compliance with Article 3a of Commission Implementing Decision 2014/709/EU.’

Derogation from the prohibition on the dispatch of live pigs from the areas listed in Part II of the Annex for the purpose of immediate slaughter

By way of derogation from the prohibition provided for in point (a) of Article 2, the Member States concerned may authorise the dispatch of live pigs for the purpose of **immediate** slaughter from a holding located in the areas listed in Part II of the Annex (the holding of dispatch) to other areas in the territory of the same Member State provided that:

- (a) prior to dispatch, the pigs have been resident on the holding of dispatch for a period of at least 30 days or since birth;
- (b) the pigs comply with the requirements laid down in either point 2 or 3 of Article 3;
- (c) all the pigs in the holding of dispatch originate only from a single, separate breeding holding located in the areas listed in either Part I or II of the Annex in the territory of the same Member State (the breeding holding);

▼ M29

- (d) the competent authority has granted prior authorisation for the movement of the pigs from the breeding holding to the holding of dispatch, based on a risk assessment related to the risk mitigation measures in place in both the breeding holding and the holding of dispatch;
- (e) both the holding of dispatch and the breeding holding have a common biosecurity plan approved in advance by the competent authority;
- (f) the competent authority checks regularly, and at least once every 3 months, the implementation of the common biosecurity plan referred to in point (e);
- (g) the consignment of pigs is transported for immediate slaughter directly, without stopping or unloading, to a slaughterhouse approved in accordance with Article 12 and specifically designated by the competent authority for that purpose;
- (h) the competent authority has been notified in advance of the intention to send the consignment of live pigs to the slaughterhouse for immediate slaughter;
- (i) the transport of the consignment of live pigs to the slaughterhouse within and through areas located outside of the areas listed in Part II of the Annex is carried out along transport routes specified in advance and the vehicles used for such transportation are cleaned, disinfected and, if necessary, disinfected as soon as possible after unloading;
- (j) each truck and any other vehicles that are used for the transport of the consignment of live pigs has been individually registered with the competent authority for that purpose;
- (k) the competent authority is systematically informed of any dispatch and arrival of consignments of live pigs from the breeding holding to the holding of dispatch;
- (l) surveillance in both the holding of dispatch and the breeding holding is reinforced by the application to all pigs older than 4 months of the procedures set out in point 4 of Part A of Chapter IV of the Annex to Decision 2003/422/EC.
