

Commission Implementing Decision (EU) 2015/2301 of 8 December 2015 amending Decision 93/195/EEC as regards animal health and veterinary certification conditions for the re-entry of registered horses for racing, competition and cultural events after temporary export to Mexico and the United States of America, and amending Annex I to Decision 2004/211/EC as regards the entry for Mexico in the list of third countries and parts thereof from which imports into the Union of live equidae and semen, ova and embryos of the equine species are authorised (notified under document C(2015) 8556) (Text with EEA relevance)

COMMISSION IMPLEMENTING DECISION (EU) 2015/2301

of 8 December 2015

amending Decision 93/195/EEC as regards animal health and veterinary certification conditions for the re-entry of registered horses for racing, competition and cultural events after temporary export to Mexico and the United States of America, and amending Annex I to Decision 2004/211/EC as regards the entry for Mexico in the list of third countries and parts thereof from which imports into the Union of live equidae and semen, ova and embryos of the equine species are authorised

(notified under document C(2015) 8556)

(Text with EEA relevance)

THE EUROPEAN COMMISSION,

Having regard to the Treaty on the Functioning of the European Union,

Having regard to Council Directive 92/65/EEC of 13 July 1992 laying down animal health requirements governing trade in and imports into the Community of animals, semen, ova and embryos not subject to animal health requirements laid down in specific Community rules referred to in Annex A(I) to Directive 90/425/EEC⁽¹⁾, and in particular Article 17(3)(a) thereof,

Having regard to Council Directive 2009/156/EC of 30 November 2009 on animal health conditions governing the movement and importation from third countries of equidae⁽²⁾, and in particular Article 12(1) and (4), and the introductory phrase and points (a) and (b) of Article 19 thereof,

Whereas:

- (1) Directive 2009/156/EC lays down animal health conditions for the importation into the Union of live equidae. In accordance with Article 13(1)(b) of that Directive, one of the conditions for the authorisation of imports of equidae into the Union is that the third country has been free from Venezuelan equine encephalomyelitis for a period of 2 years.
- (2) Commission Decision 93/195/EEC⁽³⁾ provides models of health certificates for the re-entry of registered horses after temporary export to participate in racing, competition and cultural events. The model health certificate in Annex II to that Decision provides, amongst other things, that a registered horse temporarily exported for a period of not

Changes to legislation: Commission Implementing Decision (EU) 2015/2301 is up to date with all changes known to be in force on or before 16 August 2023. There are changes that may be brought into force at a future date. Changes that have been made appear in the content and are referenced with annotations. (See end of Document for details) View outstanding changes

more than 30 days must, since its exit from the Union, only have been in the third country from where it is certified for re-entry in the Union or in a third country assigned to the same sanitary group as indicated in Annex I to that Decision.

- (3) Commission Decision 2004/211/EC⁽⁴⁾ establishes a list of third countries, or parts thereof where regionalisation applies, from which Member States are to authorise the importation of live equidae and semen, ova and embryos thereof and indicates the other conditions applicable to such imports in Annex I thereto ('the list'). Mexico is included in the list and assigned to sanitary group 'D', while the United States is assigned in the list to sanitary group 'C'.
- (4) The list also specifies that the temporary admission of registered horses, the re-entry after temporary export of registered horses for racing, competition and cultural events, imports of registered equidae and equidae for breeding and production, and imports of semen, ova and embryos of the equine species from Mexico are currently not authorised, while such movements of registered horses are authorised from the United States.
- (5) Commission Implementing Decision 2014/86/EU⁽⁵⁾ was adopted in anticipation of the Théâtre équestre Zingaro cultural event in Mexico-City in 2014. Implementing Decision 2014/86/EU amended Article 1 of Decision 93/195/EEC in order to authorise the re-entry into the Union of registered horses, after temporary export for the purpose of taking part in that event, provided that the registered horses complied with the requirements laid down in a health certificate drawn up in accordance with the model health certificate set out in Annex X to that Decision. Implementing Decision 2014/86/EU also amended Decision 93/195/EEC in order to add a new Annex X setting out that model health certificate.
- (6) In addition, Implementing Decision 2014/86/EU amended Decision 2004/211/EC so that the list permits the re-entry of registered horses for racing, competition and cultural events after temporary export, from the Metropolitan area of Mexico-City until 15 April 2014.
- (7) The equestrian events of the LG Global Champions Tour will take place under the auspices of the Fédération Equestre Internationale in Miami, in the United States from 7 to 9 April 2016, and in the Metropolitan area of Mexico-City, Mexico, from 15 to 17 April 2016.
- (8) Both mentioned events of the LG Global Champions Tour in the United States and in the Metropolitan area of Mexico-City will take place under official veterinary supervision. Given the high degree of that supervision it is possible to lay down specific animal health and veterinary certification conditions for the re-entry of those horses after their temporary export for a period of not more than 30 days to participate in the equestrian events of the LG Global Champions Tour in Miami and subsequently in Mexico-City.
- (9) Decision 93/195/EEC should be amended in order to authorise the re-entry into the Union until 30 April 2016 of registered horses for racing, competition and cultural events after temporary export for the purpose of taking part in the LG Global Champion Tour in Miami and in Mexico-City, and to provide for a model health certificate to cover

Changes to legislation: Commission Implementing Decision (EU) 2015/2301 is up to date with all changes known to be in force on or before 16 August 2023. such registered horses. At the same time, the obsolete provisions of Decision 93/195/EEC, as amended by Implementing Decision 2014/86/EU, should be deleted.

- (10) Decision 93/195/EEC should therefore be amended accordingly.
- (11) As the Metropolitan area of Mexico-city is a region of high altitude with a reduced risk of vector born transmission of vesicular stomatitis or certain subtypes of Venezuelan equine encephalitis, the re-entry of registered horses for racing, competition and cultural events after temporary export for a period of less than 30 days to the Metropolitan area of Mexico-City, a region in which Venezuelan equine encephalomyelitis has not been reported for more than 2 years, should be authorised. The entry for Mexico in the list should therefore be amended in order to permit the re-entry into the Union of registered horses for racing, competition and cultural events after temporary export, from the Metropolitan area of Mexico-city from 30 March 2016 to 30 April 2016.
- (12) The entry for that third country in the list in Annex I to Decision 2004/211/EC should therefore be amended.
- (13) Decision 2004/211/EC should therefore be amended accordingly.
- (14) The measures provided for in this Decision are in accordance with the opinion of the Standing Committee on Plants, Animals, Food and Feed,

HAS ADOPTED THIS DECISION:

Article 1

Decision 93/195/EEC is amended as follows:

- (1) in Article 1, the last indent is replaced by the following:
 - have taken part in the equestrian events of the LG Global Champions Tour in Miami, United States and Mexico-City, Mexico, and meet the requirements laid down in a health certificate drawn up in accordance with the model health certificate set out in Annex X to this Decision and provided that such re-entry takes place no later than 30 April 2016.;
- (2) Annex X is replaced by the text in Annex I to this Decision.

Article 2

Annex I to Decision 2004/211/EC is amended in accordance with Annex II to this Decision.

Article 3

This Decision is addressed to the Member States.

Done at Brussels, 8 December 2015.

For the Commission

Vytenis ANDRIUKAITIS

Member of the Commission

- (e) it comes from the territory or, in the case of official regionalisation according to Union legislation, from a part of a third country in which:
 - (i) Venezuelan equine encephalomyelitis has not occurred during the last 2 years;
 - (ii) dourine has not occurred during the last 6 months;
 - (iii) glanders has not occurred during the last 6 months;
- (f) it does not come from the territory or from a part of the territory of a third country considered, in accordance with Union legislation, as infected with African horse sickness;
- (g) it does not come from a holding which was subject to a prohibition order for animal health reasons nor had contact with equidae from a holding which was subject to a prohibition order for animal health reasons which laid down the following conditions:
 - (i) if not all animals of species susceptible to one or more of the diseases referred to hereinafter were removed from the holding, the prohibition lasted for:
 - 6 months in the case of equine encephalomyelitis, beginning on the date on which the equidae suffering from the disease were slaughtered or removed from the premises,
 - a period required to carry out two Coggins tests 3 months apart giving negative results on samples taken from the animals remaining after infected animals have been slaughtered, in the case of equine infectious anaemia,
 - 1 month from the last recorded case, in the case of rabies,
 - 15 days from the last recorded case, in the case of anthrax;
 - (ii) if all the animals of species susceptible to the disease have been slaughtered or removed from the holding, the period of prohibition shall be 30 days, or 15 days in the case of anthrax, beginning on the day on which the premises were cleaned and disinfected following the destruction or removal of the animals;
- (h) it comes from a holding which:
 - (i) either was not subject to a prohibition order for vesicular stomatitis and the animal had no contact with equidae from a holding which was subject to such a prohibition order during the past 6 months ⁽³⁾; or
 - (ii) was free of vesicular stomatitis during the 30 days prior to dispatch and on which the animal was protected from vector insects during the 30 days prior to dispatch and where it underwent one of the following health tests carried out on a blood sample taken not earlier than 21 days after the commencement of the vector protection period:
 - a virus neutralisation test giving a negative result at a serum dilution of 1 in 12 ⁽³⁾,
 - a serological test carried out and giving a negative result in accordance with point B(2) of Chapter 2.1.19 of the Manual for Diagnostic Tests and Vaccines for Terrestrial Animals of the World Organisation for Animal Health (OIE) ⁽³⁾;
- (i) to the best of my knowledge, it has not been in contact with equidae suffering from an infectious or contagious disease in the 15 days prior to this Declaration.

IV. Residence and quarantine information:

- (a) The horse entered the territory of Mexico on ⁽⁴⁾.
- (b) The horse arrived in Mexico from a Member State of the European Union or from the United States of America.
- (c) As far as can be ascertained, the horse has not been continuously outside the European Union for 30 days or more, including the date of scheduled return in accordance with this certificate, and has not been outside Mexico or the United States of America since exit from the European Union.
