a Council Directive 2002/99/EC of 16 December 2002 laying down the animal health rules governing the production, processing, distribution and introduction of products of animal origin for human consumption (OJ L 18, 23.1.2003, p. 11).

b Council Directive 92/118/EEC of 17 December 1992 laying down animal health and public health requirements governing trade in and imports into the Community of products not subject to the said requirements laid down in specific Community rules referred to in Annex A (I) to Directive 89/662/EEC and, as regards pathogens, to Directive 90/425/EEC (OJ L 62, 15.3.1993, p.49).

Special conditions

- (1) Animal products intended for human consumption which are traded between the Member States of the European Union and Switzerland shall be moved only under the same conditions as animal products intended for human consumption which are traded between the Member States of the European Union, also as regards animal protection at the time of slaughter. Where necessary, these products are accompanied by the health certificates required for trade between the Member States of the European Union or defined in this Annex and available in the TRACES system.
- (2) Switzerland will draw up a list of its establishments approved in accordance with Article 31 (registration/approval of establishments) of Regulation (EC) No 882/2004.

- (3) For its imports, Switzerland shall apply the same provisions as those applicable at Union level.
- (4) The competent authorities of Switzerland may not make use of the exemption from the Trichinella examination as provided for in Article 3(2) of Regulation (EC) No 2075/2005. Where this exemption is used, the competent authorities of Switzerland undertake to notify the Commission by written procedure of the list of regions where the risk of Trichinella in domestic swine is officially recognised as negligible. The Member States of the European Union shall have three months from receipt of the notification to send written comments to the Commission. If the Commission or a Member State of the European Union raises no objections, the region is recognised as a region presenting a negligible Trichinella risk, and domestic swine coming from that region shall be exempted from examination for Trichinella at the time of slaughter. The provisions of Article 3(3) of Regulation (EC) No 2075/2005 shall apply *mutatis mutandis*.
- (5) The detection methods described in Chapters I and II of Annex I to Regulation (EC) No 2075/2005 shall be used in Switzerland for the Trichinella examinations. However, no use shall be made of the trichinoscopic examination described in Chapter III of Annex I to Regulation (EC) No 2075/2005.
- (6) The competent authorities of Switzerland may derogate from the Trichinella examination of carcasses and meat of domestic swine kept for fattening and slaughter in low-capacity slaughter establishments.

This provision shall apply until 31 December 2016.

Pursuant to the provisions of Article 8(3) of the DFI Ordinance of 23 November 2005 on hygiene during the slaughter of livestock (OHyAb; RS 817.190.1) and Article 9(8) of the DFI Ordinance of 23 November 2005 on foodstuffs of animal origin (RS 817.022.108), these carcasses and meat of domestic swine kept for fattening and slaughter as well as meat preparations, meat products and derived processed products thereof shall be marked with a special health stamp in accordance with the model specified in the last subparagraph of Annex 9 to the DFI Ordinance of 23 November 2005 on hygiene during the slaughter of livestock. These products may not be traded with the Member States of the European Union, in accordance with the provisions of Article 9a of the DFI Ordinance on foodstuffs of animal origin of 23 November 2005.

- (7) Carcasses and meat of domestic swine kept for slaughter which are traded between the Member States of the European Union and Switzerland from:
 - holdings recognised as free from Trichinella by the competent authorities of the Member States of the European Union;
 - regions where the risk of Trichinella in domestic swine is officially recognised as negligible;

and for which the Trichinella examination has not been carried out pursuant to the provisions of Article 3 of Regulation (EC) No 2075/2005, shall move only under the same conditions as those traded between the Member States of the European Union.

- (8) Pursuant to the provisions of Article 2 of the Ordinance on hygiene (RS 817.024.1), the competent authorities of Switzerland may in particular cases allow exceptions to Articles 8, 10 and 14 of the Ordinance on hygiene:
 - (a) to meet the needs of establishments located in mountainous regions, pursuant to the Federal Law of 6 October 2006 on regional policy (RS 901.0) and the ordinance of 28 November on regional policy (RS 901.021).

Changes to legislation: There are currently no known outstanding effects for the Council Decision (EU) 2015/2367, ANNEX VI. (See end of Document for details)

The competent authorities of Switzerland undertake to notify the Commission by written procedure of such adjustments. This notification shall:

- provide a detailed description of the provisions for which the competent authorities of Switzerland consider that an adjustment is necessary, and indicates the nature of the adjustment in question;
- describe the foodstuffs and establishments concerned;
- explain the grounds for the adjustment (including, where appropriate, the provision of a summary of the risk analysis carried out and indicating any measure needed to ensure that the adjustment does not compromise the objectives of the Ordinance on hygiene (OHyg; RS 817.024.1);
- give any other relevant information.

The Commission and the Member States of the European Union shall have three months from the receipt of the notification to submit their written observations. If necessary, the Joint Veterinary Committee will be convened.

- (b) for the production of foods with traditional characteristics.

The competent authorities of Switzerland undertake to notify the Commission by written procedure of such adjustments at the latest twelve months after the individual or general derogations have been granted. Each notification shall:

- provide a short description of the requirements that have been adapted;
- describe the foodstuffs and establishments concerned, and
- give any other relevant information.

- (9) The Commission shall inform Switzerland of the derogations and adjustments applied in the Member States of the European Union under Article 13 of Regulation (EC) No 852/2004, Article 10 of Regulation (EC) No 853/2004, Article 13 of Regulation (EC) No 854/2003 and Article 7 of Regulation (EC) No 2074/2005.

- (10) Under Article 179d of the Ordinance on epizootic diseases and Article 4 of the Ordinance on foodstuffs of animal origin, Switzerland has introduced a policy of removing SRMs from the animal and human food chains. The list of SRMs removed from bovine animals comprises in particular the spinal column of animals aged over 30 months, and the tonsils, intestines from the duodenum to the rectum, and mesentery of animals of all ages.

- (11) The EU reference laboratories for residues of veterinary medicines and contaminants in food of animal origin are as follows:
