

Commission Implementing Decision (EU) 2015/474 of 18 March 2015 amending Implementing Decision 2013/92/EU on the supervision, plant health checks and measures to be taken on wood packaging material actually in use in the transport of specified commodities originating in China (notified under document C(2015) 1684)

COMMISSION IMPLEMENTING DECISION (EU) 2015/474

of 18 March 2015

amending Implementing Decision 2013/92/EU on the supervision, plant health checks and measures to be taken on wood packaging material actually in use in the transport of specified commodities originating in China

*(notified under document C(2015) 1684)*

THE EUROPEAN COMMISSION,

Having regard to the Treaty on the Functioning of the European Union,

Having regard to Council Directive 2000/29/EC of 8 May 2000 on protective measures against the introduction into the Community of organisms harmful to plants or plant products and against their spread within the Community<sup>(1)</sup>, and in particular the fourth sentence of Article 16(3) thereof,

Whereas:

- (1) Commission Implementing Decision 2013/92/EU<sup>(2)</sup> provides for the supervision, plant health checks and measures to be taken on wood packaging material actually in use in the transport of specified commodities originating in China.
- (2) Application of Implementing Decision 2013/92/EU has shown that the wood packaging material used in the transport of certain commodities originating in China continues to present a phytosanitary risk to the Union. Therefore that Decision should continue to apply until 31 March 2017.
- (3) Plant health checks by Member States have shown that wood packaging material used in the transport of commodities of slate, glazed ceramics and flat-rolled products of iron or non-alloy steel was also contaminated by harmful organisms, in particular *Anoplophora glabripennis* (Motschulsky). Implementing Decision 2013/92/EU should therefore also cover those commodities.
- (4) Commission Implementing Directive 2014/78/EU<sup>(3)</sup> deleted point (8) of Section I of Part A of Annex IV to Directive 2000/29/EC. Therefore references to that point (8) in Articles 3 and 4 of Implementing Decision 2013/92/EU should be deleted.
- (5) Experience shows that a plant health check at a minimum frequency of 15 % is adequate, taking account of the phytosanitary risk of each commodity covered by this Decision, and the need to ensure a more proportionate allocation of resources for the effective and efficient checking of all commodities in an equal manner. Therefore, for certain commodities the frequency of plant health checks should be reduced from 90 % to 15 %.

*Changes to legislation: Commission Implementing Decision (EU) 2015/474 is up to date with all changes known to be in force on or before 19 September 2023. There are changes that may be brought into force at a future date. Changes that have been made appear in the content and are referenced with annotations. (See end of Document for details) View outstanding changes*

- (6) Experience shows that, in order to provide further detail on the interceptions recorded on wood packaging material to the Chinese national plant protection organisation, it is necessary that Member States report the information necessary to identify the sources of unreliable marking and the reasons why a mark is considered incorrect.
- (7) In order to allow consistency as regards the plant health checks carried out in the period from 1 October 2014 to 31 March 2015 and the notification thereof, it is appropriate to provide for a transitional arrangement for that period.
- (8) The measures provided for in this Decision are in accordance with the opinion of the Standing Committee on Plants, Animals, Food and Feed,

HAS ADOPTED THIS DECISION:

#### *Article 1*

Implementing Decision 2013/92/EU is amended as follows:

1. The first paragraph of Article 3 is replaced by the following:

The wood packaging material of consignments of the specified commodities shall be subject to the plant health checks provided for in Article 13a(1)(b)(iii) of Directive 2000/29/EC at the minimum frequencies set out in Annex I to this Decision to confirm that the wood packaging material meets the requirements laid down in point (2) of Section I of Part A of Annex IV to Directive 2000/29/EC.

2. Article 4 is replaced by the following:

#### *Article 4*

##### **Measures in case of non-compliance**

Where the plant health checks referred to in Article 3 show that point (2) of Section I of Part A of Annex IV to Directive 2000/29/EC is not complied with or that the wood packaging material is contaminated by harmful organisms listed in Part A of Annex I to that Directive, the Member State concerned shall immediately subject the non-compliant wood packaging material to one of the measures provided for in Article 13c(7) of that Directive.

3. Article 5 is replaced by the following:

#### *Article 5*

##### **Reporting**

Without prejudice to Commission Directive 94/3/EC<sup>(4)</sup>, Member States shall notify the number and the results of the plant health checks carried out in accordance with Articles 2 and 3 of this Decision to the Commission using the reporting template in Annex II by 31 July 2016 for the period from 1 April 2015 to 31 March 2016 and by 31 July 2017 for the period from 1 April 2016 to 31 March 2017.

4. The second paragraph of Article 7 is replaced by the following:

Articles 1 to 4 shall apply until 31 March 2017.
