

Commission Implementing Decision (EU) 2015/911 of 11 June 2015 amending Annex II to Decision 2007/777/EC as regards the entry for Canada in the list of third countries or parts thereof from which the introduction of meat products and treated stomachs, bladders and intestines into the Union is authorised in relation to highly pathogenic avian influenza (notified under document C(2015) 3790) (Text with EEA relevance)

COMMISSION IMPLEMENTING DECISION (EU) 2015/911

of 11 June 2015

amending Annex II to Decision 2007/777/EC as regards the entry for Canada in the list of third countries or parts thereof from which the introduction of meat products and treated stomachs, bladders and intestines into the Union is authorised in relation to highly pathogenic avian influenza

*(notified under document C(2015) 3790)*

(Text with EEA relevance)

THE EUROPEAN COMMISSION,

Having regard to the Treaty on the Functioning of the European Union,

Having regard to Council Directive 2002/99/EC of 16 December 2002 laying down the animal health rules governing the production, processing, distribution and introduction of products of animal origin for human consumption<sup>(1)</sup> and in particular the introductory phrase of Article 8, the first subparagraph of point 1 of Article 8, point 4 of Article 8 and Article 9(4)(c) thereof,

Whereas:

- (1) Commission Decision 2007/777/EC<sup>(2)</sup> lays down animal and public health rules for imports into the Union and the transit and storage in the Union of consignments of meat products and treated stomachs, bladders and intestines ('the commodities').
- (2) Part 1 of Annex II to Decision 2007/777/EC describes the areas of third countries for which the introduction into the Union of the commodities is restricted for animal health reasons and for which regionalisation is applied. Part 2 of that Annex sets out a list of third countries or parts thereof from which the introduction into the Union of the commodities is authorised, provided that the commodities have undergone the relevant treatment, as set out in Part 4 of that Annex.
- (3) Canada is listed in Part 2 of Annex II to Decision 2007/777/EC as a third country from which imports into and transit through the Union of commodities obtained from poultry, farmed feathered game and wild game birds are authorised from the whole territory or certain parts of its territory. The regionalisation of Canada was recognised by Decision 2007/777/EC as amended by Commission Implementing Decision (EU) 2015/204<sup>(3)</sup> following outbreaks of HPAI in poultry in the Province of British Columbia in Canada. Decision 2007/777/EC provides that commodities from the affected area

---

*Changes to legislation: Commission Implementing Decision (EU) 2015/911, Introductory Text is up to date with all changes known to be in force on or before 21 March 2024. There are changes that may be brought into force at a future date. Changes that have been made appear in the content and are referenced with annotations. (See end of Document for details)*

---

may be authorised for introduction into the Union after being subjected to treatment ‘D’ as set out in Part 4 of Annex II to Decision 2007/777/EC (‘treatment D’).

- (4) Canada confirmed a new outbreak of HPAI in poultry in the Province of Ontario during April 2015. The veterinary authorities of Canada immediately suspended issuing veterinary certificates for consignments of the concerned commodities intended for introduction to the Union from the entire territory of Canada due to this new outbreak. Canada has also implemented a stamping-out policy in order to control HPAI and limit its spread.
- (5) An Agreement between the Union and Canada<sup>(4)</sup> provides for a swift mutual recognition of regionalisation measures in the event of outbreaks of disease in the Union or in Canada (‘the Agreement’).
- (6) Based on the new outbreak of HPAI in Canada in the Province of Ontario, commodities obtained from poultry, farmed feathered game and wild game birds from those parts of that Province that the veterinary authorities of Canada have placed under restrictions should undergo at least ‘treatment D’ in order to prevent the introduction of the HPAI virus into the Union.
- (7) In relation to HPAI outbreaks in British Columbia regionalisation of the Canadian territory was also recognised by Commission Regulation (EC) No 798/2008<sup>(5)</sup>, as amended by Commission Implementing Regulations (EU) 2015/198<sup>(6)</sup> and (EU) 2015/908<sup>(7)</sup> for imports of certain poultry commodities falling within the scope of that Regulation.
- (8) For reasons of consistency, the description of the territories in Part 1 of Annex II to Decision 2007/777/EC should refer to the regionalisation as described in column 3 of the table in Part 1 of Annex I to Regulation (EC) No 798/2008 subject to the dates referred to in columns 6A and 6B of that table.
- (9) Part 1 of Annex II to Decision 2007/777/EC should therefore be amended.
- (10) The measures provided for in this Decision are in accordance with the opinion of the Standing Committee on Plants, Animals, Food and Feed,

HAS ADOPTED THIS DECISION:

---

**Changes to legislation:** Commission Implementing Decision (EU) 2015/911, Introductory Text is up to date with all changes known to be in force on or before 21 March 2024.
