

Commission Implementing Decision (EU) 2016/1372 of 10 August 2016 amending the Annex to Implementing Decision 2014/709/EU concerning animal health control measures relating to African swine fever in certain Member States, as regards the entries for Latvia and Poland (notified under document C(2016) 5319) (Text with EEA relevance)

COMMISSION IMPLEMENTING DECISION (EU) 2016/1372

of 10 August 2016

amending the Annex to Implementing Decision 2014/709/EU concerning animal health control measures relating to African swine fever in certain Member States, as regards the entries for Latvia and Poland

(notified under document C(2016) 5319)

(Text with EEA relevance)

THE EUROPEAN COMMISSION,

Having regard to the Treaty on the Functioning of the European Union,

Having regard to Council Directive 89/662/EEC of 11 December 1989 concerning veterinary checks in intra-Community trade with a view to the completion of the internal market⁽¹⁾, and in particular Article 9(4) thereof,

Having regard to Council Directive 90/425/EEC of 26 June 1990 concerning veterinary and zootechnical checks applicable in intra-Community trade in certain live animals and products with a view to the completion of the internal market⁽²⁾, and in particular Article 10(4) thereof,

Having regard to Council Directive 2002/99/EC of 16 December 2002 laying down the animal health rules governing the production, processing, distribution and introduction of products of animal origin for human consumption⁽³⁾, and in particular Article 4(3) thereof,

Whereas:

- (1) Commission Implementing Decision 2014/709/EU⁽⁴⁾ lays down animal health control measures in relation to African swine fever in certain Member States. The Annex to that Implementing Decision demarcates and lists certain areas of those Member States in Parts I, II, III and IV thereof differentiated by the level of risk based on the epidemiological situation. That list includes certain areas of Latvia and Poland.
- (2) In August 2016, cases of African swine fever in feral pig populations occurred in the area of Tukums in Latvia. This area is listed in Part I of the Annex to Implementing Decision 2014/709/EU and it is in close proximity to the unrestricted areas of Latvia. In August 2016, an outbreak of African swine fever in domestic pigs occurred in Gulbenes in Latvia in part II of the Annex thereto. The occurrence of this second outbreak constitutes an increase in the level of risk that needs to be taken into account. Accordingly, certain areas of Latvia listed in Part I should now be listed in Part II, certain

Status: Point in time view as at 10/08/2016.

Changes to legislation: There are currently no known outstanding effects for the Commission Implementing Decision (EU) 2016/1372. (See end of Document for details)

new areas of Latvia should be included in the list in Part I and certain areas of Latvia listed in Part II should be included in the list in Part III of the Annex to Implementing Decision 2014/709/EU.

- (3) In August 2016, one outbreak of African swine fever in domestic pigs occurred in Wysokomazowiecki in Poland in an area currently listed in Part I of the Annex to Implementing Decision 2014/709/EU. The occurrence of this outbreak, together with the absence of viral circulation of this disease in the feral pig populations in proximity of the outbreak constitute an increase in the level of risk that needs to be taken into account. In August 2016, another outbreak of African swine fever in domestic pigs occurred in Siemiatycki in Poland in close proximity to the border with Belarus. The occurrence of this second outbreak, together with unknown situation in this neighbouring third country, constitutes an increase in the level of risk that needs to be taken into account. Accordingly, certain areas of Poland listed in Part I should now be listed in Part III and certain new areas of Poland should be included in the list in Part I of the Annex to Implementing Decision 2014/709/EU.
- (4) The evolution of the current epidemiological situation of African swine fever in the affected feral pig populations in the Union should be taken into account in the assessment of the animal health risk posed by to that situation as regards that disease in Latvia and Poland. In order to focus the animal health control measures provided for in Implementing Decision 2014/709/ EU and to prevent the further spread of African swine fever, as well as to prevent any unnecessary disturbance to trade within the Union and to avoid unjustified barriers to trade by third countries, the Union list of areas subject to the animal health control measures set out in the Annex to that Implementing Decision should be amended to take into account the changes in the current epidemiological situation as regards that disease in Latvia and Poland.
- (5) The Annex to Implementing Decision 2014/709/EU should therefore be amended accordingly.
- (6) The measures provided for in this Decision are in accordance with the opinion of the Standing Committee on Plants, Animals, Food and Feed,

HAS ADOPTED THIS DECISION:

Article 1

The Annex to Implementing Decision 2014/709/EU is replaced by the text set out in the Annex to this Decision.

Article 2

This Decision is addressed to the Member States.

Status: Point in time view as at 10/08/2016.

Changes to legislation: There are currently no known outstanding effects for the
Commission Implementing Decision (EU) 2016/1372. (See end of Document for details)

Done at Brussels, 10 August 2016.
