

Commission Implementing Decision (EU) 2016/2002 of 8 November 2016 amending Annex E to Council Directive 91/68/EEC, Annex III to Commission Decision 2010/470/EU and Annex II to Commission Decision 2010/472/EU concerning trade in and imports into the Union of ovine and caprine animals and semen of animals of the ovine and caprine species in relation to the rules for the prevention, control and eradication of certain transmissible spongiform encephalopathies (notified under document C(2016) 7026) (Text with EEA relevance)

COMMISSION IMPLEMENTING DECISION (EU) 2016/2002

of 8 November 2016

amending Annex E to Council Directive 91/68/EEC, Annex III to Commission Decision 2010/470/EU and Annex II to Commission Decision 2010/472/EU concerning trade in and imports into the Union of ovine and caprine animals and semen of animals of the ovine and caprine species in relation to the rules for the prevention, control and eradication of certain transmissible spongiform encephalopathies

(notified under document C(2016) 7026)

(Text with EEA relevance)

THE EUROPEAN COMMISSION,

Having regard to the Treaty on the Functioning of the European Union,

Having regard to Council Directive 91/68/EEC of 28 January 1991 on animal health conditions governing intra-Community trade in ovine and caprine animals⁽¹⁾, and in particular Article 14(2) thereof,

Having regard to Council Directive 92/65/EEC of 13 July 1992 laying down animal health requirements governing trade in and imports into the Community of animals, semen, ova and embryos not subject to animal health requirements laid down in specific Community rules referred to in Annex A(I) to Directive 90/425/EEC⁽²⁾, and in particular the fourth indent of Article 11(2), Article 17(2)(b), the first indent of Article 18(1) and the introductory phrase and point (b) of Article 19 thereof,

Whereas:

- (1) Directive 91/68/EEC lays down the animal health conditions governing intra-Union trade in ovine and caprine animals. It provides, inter alia, that ovine and caprine animals must be accompanied during transportation to their destination by a health certificate conforming to Model I, II or III set out in Annex E thereto.
- (2) Regulation (EC) No 999/2001 of the European Parliament and of the Council⁽³⁾ lays down rules for the prevention, control and eradication of transmissible spongiform encephalopathies (TSEs) in bovine, ovine and caprine animals. Annex VII to that Regulation sets out the measures for the control and eradication of TSEs. In addition,

Changes to legislation: There are currently no known outstanding effects for the Commission Implementing Decision (EU) 2016/2002. (See end of Document for details)

Chapter A of Annex VIII to that Regulation lays down, inter alia, the conditions for intra-Union trade in live animals.

- (3) Regulation (EC) No 999/2001 was recently amended by Commission Regulation (EU) 2016/1396⁽⁴⁾. Those amendments provide, inter alia, for an exemption from the conditions set out in point 4.1 of Section A of Chapter A of Annex VIII to Regulation (EC) No 999/2001, which are aimed at preventing the spread of classical scrapie in farmed animals kept on holdings, for ovine and caprine animals moved exclusively between approved bodies, institutes or centres as defined in Article 2(1)(c) of Directive 92/65/EEC.
- (4) Regulation (EU) 2016/1396 also introduces specific conditions for intra-Union trade in ovine and caprine animals of rare breeds which do not comply with the requirements of point 4.1 of Section A of Chapter A of Annex VIII to Regulation (EC) No 999/2001. Those specific conditions were introduced to maintain a possibility for regular exchange of such animals between Member States in order to avoid inbreeding and to preserve the genetic diversity in rare breed populations.
- (5) The health certificates conforming to Models II and III set out in Annex E to Directive 91/68/EEC should therefore be amended in order to reflect the requirements relating to intra-Union trade in ovine and caprine animals of rare breeds or of those moved between approved bodies, institutes or centres laid down in Regulation (EC) No 999/2001, as amended by Regulation (EU) 2016/1396.
- (6) In addition, some Member States notified the Commission of problems related to additional administrative work caused by the obligation to provide in point I.31 of health certificates conforming to Models I, II and III set out in Annex E to Directive 91/68/EEC details such as breed and quantity of animals forming the consignment. To reduce administrative burden for the official veterinarians, it is appropriate to remove from point I.31 of those model health certificates information on the breed, as such information is not necessary in relation to the health status of the animals in the consignment, and on the quantity of those animals, as such information is already stated in point I.20 and an official identification number of each individual animal must be provided in point I.31.
- (7) Furthermore, in order to state more precisely the conditions for individual identification of the animals in points II.5 and II.6 of the health certificates conforming to Models II and III in Annex E to Directive 91/68/EEC, it is necessary to introduce in those points a reference to Council Regulation (EC) No 21/2004⁽⁵⁾.
- (8) Directive 91/68/EEC should therefore be amended accordingly.
- (9) Directive 92/65/EEC lays down conditions applicable to trade in and imports into the Union, inter alia, of semen of animals of the ovine and caprine species.
- (10) Annex III to Commission Decision 2010/470/EU⁽⁶⁾ lays down model health certificates for trade within the Union in consignments of semen of animals of the ovine and caprine species. Part A of that Annex sets out the model health certificate for semen collected after 31 August 2010 and dispatched from an approved semen collection centre of origin of the semen.

- (11) Annex II to Commission Decision 2010/472/EU⁽⁷⁾ lays down, inter alia, model health certificates for the imports into the Union of consignments of semen of animals of the ovine and caprine species. Section A of Part 2 of that Annex sets out the model health certificate for semen dispatched from an approved semen collection centre of origin of the semen.
- (12) Point 4.2 of Section A of Chapter A of Annex VIII to Regulation (EC) No 999/2001 sets out the scrapie-related conditions to be fulfilled for intra-Union trade in semen of ovine and caprine animals. Chapter H of Annex IX to Regulation (EC) No 999/2001 sets out the scrapie-related conditions to be fulfilled for imports of semen of ovine and caprine animals.
- (13) Regulation (EU) 2016/1396 introduces specific conditions for semen collection centres amongst the conditions for a holding to be recognised as having a negligible risk or a controlled risk of classical scrapie in points 1.2 and 1.3 of Section A of Chapter A of Annex VIII to Regulation (EC) No 999/2001, given that the risk of spreading scrapie via male ovine and caprine animals kept at semen collection centres approved and supervised in accordance with the conditions set out in Annex D to Directive 92/65/EEC is limited. A reference to those specific conditions is also introduced in the conditions for trade in and import of semen of ovine and caprine animals set out in Annexes VIII and IX to Regulation (EC) No 999/2001 respectively.
- (14) The model health certificate for intra-Union trade in consignments of semen of animals of the ovine and caprine species set out in Part A of Annex III to Decision 2010/470/EU and the model health certificate for imports into the Union of consignments of semen of animals of the ovine and caprine species set out in Section A of Part 2 of Annex II to Decision 2010/472/EU should therefore be amended in order to reflect the requirements relating to semen collection centres laid down in Regulation (EC) No 999/2001, as amended by Regulation (EU) 2016/1396.
- (15) In addition, Chapter H of Annex IX to Regulation (EC) No 999/2001, as amended by Regulation (EU) 2016/1396, provides that meat-and-bone meal should be understood as defined in the Terrestrial Animal Health Code of the World Organisation for Animal Health (OIE)⁽⁸⁾, rather than in point 27 of Annex I to Commission Regulation (EC) No 142/2011⁽⁹⁾.
- (16) Therefore, point II.4.10.4 of the model health certificate for imports into the Union of consignments of semen of animals of the ovine and caprine species set out in Section A of Part 2 of Annex II to Decision 2010/472/EU should be amended according to the amended provisions of Chapter H of Annex IX to Regulation (EC) No 999/2001.
- (17) Decisions 2010/470/EU and 2010/472/EU should therefore be amended accordingly.
- (18) Regulation (EU) 2016/1396 provides that the amendments made to Annex IX to Regulation (EC) No 999/2001 and related to imports of certain commodities are to apply from 1 July 2017. In addition, to avoid any disruption of imports into the Union of consignments of semen of ovine and caprine animals, the use of certificates issued in accordance with Decision 2010/472/EU as applicable prior to the amendments being

Changes to legislation: There are currently no known outstanding effects for the
Commission Implementing Decision (EU) 2016/2002. (See end of Document for details)

introduced by this Decision should be authorised during a transitional period subject to certain conditions.

- (19) The measures provided for in this Decision are in accordance with the opinion of the Standing Committee on Plants, Animals, Food and Feed,

HAS ADOPTED THIS DECISION:

Article 1

Annex E to Directive 91/68/EEC is amended in accordance with Annex I to this Decision.

Article 2

Annex III to Decision 2010/470/EU is amended in accordance with Annex II to this Decision.

Article 3

Annex II to Decision 2010/472/EU is amended in accordance with Annex III to this Decision.

Article 4

Article 3 of this Decision shall apply from 1 July 2017.

For a transitional period until 31 December 2017, consignments of semen of ovine and caprine animals, accompanied by a health certificate issued in accordance with the model set out in Section A of Part 2 of Annex II to Decision 2010/472/EU, as applicable before the amendments made by this Decision, shall be authorised for importation into the Union provided that the certificate was issued no later than 30 November 2017.

Article 5

This Decision is addressed to the Member States.

Done at Brussels, 8 November 2016.

For the Commission

Vytenis ANDRIUKAITIS

Member of the Commission

ANNEX I

Annex E to Directive 91/68/EEC is replaced by the following:

European Union		91/68 EII Ovine/Caprine for fattening	
II.	Health information	II.a. Certificate reference number	II.b. Local reference number
Part II: Certification		I, the undersigned official veterinarian, hereby certify, that the animals described above meet the following requirements:	
	(¹) either	II.1.	The animals were born and have been reared since birth on Union territory.]
	(¹) or	II.1.	The animals were imported from a third country in accordance with Commission Regulation (EU) No 206/2010 at least 30 days prior to loading.]
		II.2.	The animals:
		II.2.1.	have been inspected today (within 24 hours prior to loading) and show no clinical sign of disease;
		II.2.2.	are not animals which are to be destroyed under a scheme to eradicate a contagious or infectious disease;
		II.2.3.	come from a holding which has been free from any official prohibition on health grounds, for the last 42 days in the case of brucellosis, for the last 30 days in the case of rabies, for the last 15 days in the case of anthrax, and, have not been in contact with animals from holdings which did not comply with these conditions;
		II.2.4.	do not come from a holding and have not been in contact with animals from holdings in a protection zone which has been set up under Union legislation and from which animals are prohibited from leaving;
		II.2.5.	are not the subject of animal health measures pursuant to Union legislation on foot-and-mouth disease and have not been vaccinated against foot-and-mouth disease.
		II.3.	Based on the written declaration made by the keeper or an examination of the holding register and movement documents kept in accordance with Council Regulation (EC) No 21/2004, in particular in Sections B and C of the Annex to that Regulation, the animals have remained on a single holding of origin for a period of at least the last 30 days, or on the holding of origin since birth where the animals are less than 30 days old, and no animal of the ovine and caprine species has been introduced into the holding of origin during the last 21 days and no biungulate animal imported from a third country has been introduced into the holding of origin during the last 30 days, unless those animals were introduced in accordance with Article 4a(1) of Council Directive 91/68/EEC.
	(¹)	II.4.	The animals comply with the additional guarantees provided for in Articles 7 or 8 of Directive 91/68/EEC and laid down for the Member State of destination or part of its territory (insert Member State or part of its territory) in Commission Decision .../.../... (insert number).]
		II.5.	The animals comply with at least one of the following conditions and therefore qualify for admission to an ovine or caprine holding which is officially brucellosis-free (<i>B. melitensis</i>):
	(¹) either		[the holding of origin is situated in a Member State or part of its territory (insert name of Member State or part of its territory) which is recognised as being officially brucellosis-free in accordance with Commission Decision .../.../... (insert number).]
	(¹) or		[they come from an officially brucellosis-free (<i>B. melitensis</i>) holding.]
	(¹) or		[they come from a brucellosis-free (<i>B. melitensis</i>) holding, and
	(i)	are identified individually in accordance with Council Regulation (EC) No 21/2004,	
	(ii)	have never been vaccinated against brucellosis or have not been vaccinated against brucellosis in the last two years or the animals are females over two years old which were vaccinated against brucellosis before the age of seven months,	
	(iii)	were isolated under official supervision on the holding of origin and, during such isolation, underwent, with negative results, two tests for brucellosis in accordance with Annex C to Directive 91/68/EEC, separated by an interval of at least six weeks.]

European Union

91/68 EII Ovine/Caprine for fattening

II.	Health information	II.a. Certificate reference number	II.b. Local reference number
II.6.	The animals comply with at least one of the following conditions and therefore qualify for admission to an ovine or caprine holding which is brucellosis-free (<i>B. melitensis</i>):		
	(1) <i>either</i> [they come from an officially brucellosis-free (<i>B. melitensis</i>) holding.]		
	(1) <i>and/or</i> [they come from a brucellosis-free (<i>B. melitensis</i>) holding.]		
	(1) <i>and/or</i> [until the qualifying date under eradication plans approved pursuant to Council Decision 90/242/EEC, they originate from a holding other than officially brucellosis-free or brucellosis-free and comply with the following conditions:		
	(i) are identified individually in accordance with Council Regulation (EC) No 21/2004,		
	(ii) originate from a holding in which all the animals of species susceptible to brucellosis (<i>B. melitensis</i>) have been free of clinical symptoms or any other symptoms of brucellosis for at least the last 12 months; and		
	(1) <i>either</i> [have not been vaccinated against brucellosis (<i>B. melitensis</i>) in the last two years, and were isolated under veterinary supervision on the holding of origin and, during such isolation, underwent, with negative results, two tests for brucellosis in accordance with Annex C to Directive 91/68/EEC, separated by an interval of at least six weeks.]]		
	(1) <i>or</i> [were vaccinated with Rev. 1 vaccine before the age of seven months, but not later than 15 days before their introduction into the holding of destination.]]		
(1) [II.7.	The animals are intended for a Member State or zone of a Member State listed in point 2.3 of Section A of Chapter A of Annex VIII to Regulation (EC) No 999/2001 of the European Parliament and of the Council as having a negligible risk status for classical scrapie, or for a Member State listed in point 3.2 of that Section as having an approved national scrapie control programme, and		
	(1) <i>either</i> [come from a holding situated in a Member State or zone of a Member State listed in point 2.3 of Section A of Chapter A of Annex VIII to Regulation (EC) No 999/2001 as having a negligible risk status for classical scrapie.]]		
	(1) <i>and/or</i> [come from a holding recognised as having a negligible risk of classical scrapie in accordance with point 1.2 of Section A of Chapter A of Annex VIII to Regulation (EC) No 999/2001 and listed as such by the competent authority of the Member State in accordance with point 1.1 of that Section.]]		
	(1) <i>and/or</i> [come from a holding not subject to the measures laid down in points 3 and 4 of Chapter B of Annex VII to Regulation (EC) No 999/2001 and the animals are of the ovine species of the ARR/ARR prion protein genotype.]]		
	(1) <i>and/or</i> [come from and are destined for an approved body, institute or centre as defined in Article 2(1)(c) of Directive 92/65/EEC]]		
	(1) <i>or</i> [comply with the conditions set out in point 4.1(d) of Section A of Chapter A of Annex VIII to Regulation (EC) No 999/2001.]]		
II.8.1.	The animals were transported using means of transport and containment which had, before-hand, been cleansed and disinfected using an officially approved disinfectant, and in such a way as to provide effective protection of the animals' health status.		
II.8.2.	Based on the official documentation accompanying the animals, the consignment covered by this health certificate is due to start the journey on (insert date) (2).		
II.8.3.	At the time of inspection the animals covered by this health certificate were fit to be transported on the intended journey in accordance with the provisions of Council Regulation (EC) No 1/2005 (3).

European Union		Ovine and caprine semen — Part A	
II.	Health information	II.a. Certificate reference No	II.b.
Part II: Certification	I, the undersigned official veterinarian, hereby certify that:		
		II.1. The semen described above:	
		II.1.1. was collected, processed and stored in a semen collection centre ⁽²⁾ approved and supervised by the competent authority in accordance with Chapter I(I)(1) and Chapter I(II)(1) of Annex D to Directive 92/65/EEC;	
		II.1.2. comes from donor animals which meet the requirements of Chapter II(II) of Annex D to Directive 92/65/EEC;	
		II.1.3. was collected, processed, stored and transported under conditions which comply with the requirements of Chapters II(II) and III(I) of Annex D to Directive 92/65/EEC;	
	⁽¹⁾ either	II.1.4. was collected from animals which have been kept continuously since birth on a holding or holdings recognised as having a negligible or controlled risk of classical scrapie according to point 1 of Section A of Chapter A of Annex VIII to Regulation (EC) No 999/2001, except during the period when they were kept at a semen collection centre that complied during that period with the conditions set out in the four indents of point 1.3(c)(iv) of that Section;]	
	⁽¹⁾ or	II.1.4. was collected from animals which have been kept continuously for the last three years before the collection on a holding or holdings which has/have complied for the last three years before the collection with the requirements laid down in points 1.3(a) to (f) of Section A of Chapter A of Annex VIII to Regulation (EC) No 999/2001, except during the period when they were kept at a semen collection centre that complied during that period with the conditions set out in the four indents of point 1.3(c)(iv) of that Section;]	
	⁽¹⁾ or	II.1.4. was collected from animals which have been kept continuously since birth in a Member State or zone of a Member State listed in point 2.3 of Section A of Chapter A of Annex VIII to Regulation (EC) No 999/2001 as having a negligible risk status for classical scrapie;]	
	⁽¹⁾ or	II.1.4. was collected from ovine animals of the ARR/ARR prion protein genotype;]	
		II.1.5. was sent to the place of loading in a sealed container in accordance with point 1.4 of Chapter III(I) of Annex D to Directive 92/65/EEC and bearing the number detailed in Box I.23.	
⁽¹⁾ either	II.2. No antibiotics or no mixture of antibiotics were added to the semen.]		
⁽¹⁾ or	II.2. The following antibiotic or combination of antibiotics was added to produce a concentration in the final diluted semen of not less than ⁽³⁾ : ]		
Notes			
Part I:			
Box I.12:	<i>Place of origin</i> shall correspond to the semen collection centre of origin of the semen.		
Box I.13:	<i>Place of destination</i> shall correspond to the semen collection or storage centre or to the holding of semen destination.		
Box I.23:	Identification of container and seal number shall be indicated.		
Box I.31:	<i>Donor identity</i> shall correspond to the official identification of the animal.		
	<i>Date of collection</i> shall be indicated in the following format: dd/mm/yyyy.		
	<i>Approval number of the centre</i> shall correspond to the approval number of the semen centre indicated in Box I.12 where the semen was collected.
