THE EUROPEAN COMMISSION,

Having regard to the Treaty on the Functioning of the European Union,

Having regard to the Treaty establishing the European Atomic Energy Community,

Having regard to Council Regulation (EEC, Euratom) No 1553/89 of 29 May 1989 on the definitive uniform arrangements for the collection of own resources accruing from value added tax <sup>(1)</sup>, and in particular the second indent of Article 6(3) thereof,

After consulting the Advisory Committee on Own Resources,

Whereas:

- (1) Under Article 379(2) of Council Directive 2006/112/EC <sup>(2)</sup>, Finland may, in accordance with the conditions applying in that Member State on the date of its accession, continue to exempt the supply of services by authors, artists and performers, listed in point 2 of Part B of Annex X, and the transactions listed in points 9 and 10 of Part B of Annex X to that Directive, for as long as the same exemptions are applied in any of the Member States which were members of the Community on 31 December 1994. In accordance with that Article, those transactions are to be taken into account for the determination of the value added tax (VAT) own resources base.
- (2) By Commission Decision 96/566/Euratom, EC <sup>(3)</sup>, Finland was authorised to, inter alia, use approximate estimates to calculate the VAT own resources base in respect of transactions now referred to in points 2, 9 and 10 of Part B of Annex X to Directive 2006/112/EC regarding certain services supplied by authors, artists, performers, certain supplies of land and the transport of passengers.
- (3) In its letter of 26 April 2018, Finland requested an authorisation from the Commission to use fixed percentages of the intermediate base for the calculation of the VAT own resources base for transactions referred to in points 2, 9 and 10 of Part B of Annex X to Directive 2006/112/EC regarding the supply of services by the liberal professions, the supply of new buildings or the lands on which they stand, the supply of building land and the transport of passengers. Finland has shown that the percentages applied to the intermediate base have been stable for the years 2014 to 2016 (points 2 and 10) and 2012 to 2016 (point 9). Authorisation to use fixed percentages would further reduce the administrative burden in calculating the VAT own resources base for such transactions. Finland should therefore be authorised to calculate the VAT own resources base using fixed percentages regarding the supply of services by the liberal professions, the supply of new buildings or the lands on which they stand, the supply of building land and the transport of passengers.
- (4) For reasons of transparency and legal certainty, it is appropriate to limit the applicability of the authorisation in time.
- (5) Decision 96/566/Euratom, EC should therefore be amended accordingly,

<sup>(1)</sup> OJ L 155, 7.6.1989, p. 9.

<sup>(2)</sup> Council Directive 2006/112/EC of 28 November 2006 on the common system of value added tax (OJ L 347, 11.12.2006, p. 1).

<sup>(3)</sup> Commission Decision 96/566/Euratom, EC of 11 September 1996 authorising Finland not to take into account certain categories of transactions and to use certain approximate estimates for the calculation of the VAT own resources base (OJ L 247, 28.9.1996, p. 43).
