

Commission Implementing Decision (EU) 2018/2023 of 17 December 2018 on amending Implementing Decision (EU) 2017/1984 determining, pursuant to Regulation (EU) No 517/2014 of the European Parliament and of the Council on fluorinated greenhouse gases, reference values as regards reference values for the period from 30 March 2019 to 31 December 2020 for producers or importers established within the United Kingdom, which have lawfully placed on the market hydrofluorocarbons from 1 January 2015, as reported under that Regulation (notified under document C(2018) 8801) (Only the English text is authentic)

COMMISSION IMPLEMENTING DECISION (EU) 2018/2023
of 17 December 2018

on amending Implementing Decision (EU) 2017/1984 determining, pursuant to Regulation (EU) No 517/2014 of the European Parliament and of the Council on fluorinated greenhouse gases, reference values as regards reference values for the period from 30 March 2019 to 31 December 2020 for producers or importers established within the United Kingdom, which have lawfully placed on the market hydrofluorocarbons from 1 January 2015, as reported under that Regulation

(notified under document C(2018) 8801)

(Only the English text is authentic)

THE EUROPEAN COMMISSION,

Having regard to the Treaty on the Functioning of the European Union,

Having regard to Regulation (EU) No 517/2014 of the European Parliament and of the Council of 16 April 2014 on fluorinated greenhouse gases and repealing Regulation (EC) No 842/2006⁽¹⁾, and in particular Article 16(3) thereof,

Whereas:

- (1) In accordance with Regulation (EU) No 517/2014, the placing on the Union market of at least 100 tonnes of CO₂ equivalent of hydrofluorocarbons ('HFCs') per year by producers or importers is subject to quantitative limits in order to ensure their gradual reduction.
- (2) Pursuant to Article 16 of Regulation (EU) No 517/2014 the quantitative limits – quotas — are calculated based on reference values determined by the Commission on the basis of the annual average of the quantities of HFCs the producers or importers have reported under Article 19 of Regulation (EU) No 517/2014 to have lawfully placed on the market from 1 January 2015 and onwards, while excluding quantities of HFCs for the uses referred to in Article 15(2) of Regulation (EU) No 517/2014 during the same period, on the basis of available data, in accordance with Annex V to that Regulation.
- (3) In accordance with Article 16(5) of Regulation (EU) No 517/2014 HFC quotas are allocated to producers or importers as listed in the Annex to Commission Implementing Decision (EU) 2017/1984⁽²⁾ which are established within the Union or to importers from

Changes to legislation: There are outstanding changes not yet made to Commission Implementing Decision (EU) 2018/2023. Any changes that have already been made to the legislation appear in the content and are referenced with annotations. (See end of Document for details) [View outstanding changes](#)

third countries having mandated an only representative established within the Union as listed in the Annex to Implementing Decision (EU) 2017/1984.

- (4) In light of the notification under Article 50 on the Treaty on European Union by the United Kingdom and with a view to ensuring that the reference values and quotas for producers and importers established within the United Kingdom reflect the lawful placing on the market of HFCs in the Union of 27 Member States after the withdrawal of the United Kingdom, the reference values for these companies should be re-calculated for 2019 for the period following the withdrawal on 30 March 2019.
- (5) For the period from 1 January to 29 March 2019 the reference values determined in Implementing Decision (EU) 2017/1984 should remain valid and applicable. For the determination of the quota for producers and importers established within the United Kingdom the reference values for the period up to and including 29 March and the period thereafter will be weighted by the number of days the United Kingdom is a Member State of the Union in 2019.
- (6) For companies established within the United Kingdom the newly re-calculated reference values as determined in this Decision are based on additional verified data submitted by these companies to the Commission and complementing the reporting already made pursuant to Article 19 of Regulation (EU) No 517/2014 by differentiating between HFCs placed on the market within the United Kingdom and in the Union of 27 Member States. For companies that have not submitted additional data it should be assumed that all HFCs were placed on the market within the United Kingdom and no reference value should be determined.
- (7) The re-calculated reference values are established for the case that Union law ceases to apply to and in the United Kingdom on 30 March 2019.
- (8) The measures provided for in this Decision are in accordance with the opinion of the Committee established by Article 24 of Regulation (EU) No 517/2014.

HAS ADOPTED THIS DECISION:

Article 1

For the undertakings to which this Decision is addressed and from the date of which the Union law ceases to apply to and in the United Kingdom, the respective reference value in the Annex to Implementing Decision (EU) 2017/1984 is replaced by the reference value set out in the Annex to this Decision or the undertaking is removed from the Annex as specified in the Annex to this Decision.

Article 2

This Decision is addressed to the following undertakings:
