# Council Directive of 30 July 1964 concerning co-ordinated annual surveys of investment in industry (64/475/EEC)

# COUNCIL DIRECTIVE

# of 30 July 1964

# concerning co-ordinated annual surveys of investment in industry

# (64/475/EEC)

# THE COUNCIL OF THE EUROPEAN ECONOMIC COMMUNITY,

Having regard to the Treaty establishing the European Economic Community, and in particular Article 213 thereof;

Having regard to the draft submitted by the Commission;

Whereas in order to carry out the tasks entrusted to it under the Treaty the Commission must have at its disposal annual statistics on the trend of investment in the industries of the Community;

Whereas in the industrial survey for 1962 comparable basic data on the essential characteristics of industry were collected for the first time; whereas such a census cannot be carried out frequently; whereas annual statistics concerning certain basic matters cannot however be dispensed with for the intervening years; whereas, in this respect, investment is of such importance that the statistical offices of most Member States have been collecting data of that kind for several years;

Whereas, however, it is indispensable that such annual statistics be put at the disposal of the Commission by all Member States in co-ordinated form, as regards concept and method, so that comparable results for the six Member States may be obtained following a similar breakdown by industrial sector;

HAS ADOPTED THIS DIRECTIVE:

#### Article 1

The Member States, in technical co-operation with the Commission, shall take all necessary steps to carry out co-ordinated annual surveys on investment in industry and to ensure that the first survey, for the year 1964, is carried out in 1965 [<sup>F1</sup>and, in the case of new Member States, all appropriate arrangements shall be made to ensure that the first survey, covering the year of their accession, is carried out in the year following that of accession.]

#### **Textual Amendments**

**F1** Substituted by Act concerning the conditions of accession of the Kingdom of Spain and the Portuguese Republic and the adjustments to the Treaties.

#### Article 2

For the purposes of this Directive, an industry shall be defined by reference to the 'Nomenclature of Industries in the European Communities' (NICE).<sup>(1)</sup> In the case of small undertakings the survey may be carried out by random sampling.

#### Article 3

The figures to be recorded shall be those in respect of annual investment expenditure (including plant constructed by the undertakings themselves), broken down as follows:

- (a) Machinery, plant, vehicles;
- (b) Construction of buildings;
- (c) Purchase of existing buildings and of land.

Investments of a social nature shall, where possible, be recorded globally in a separate return.

# Article 4

Subject to any national legislation on the secrecy of statistics, the results of the surveys, broken down by industrial sector, shall be forwarded to the Commission.

#### Article 5

This Directive is addressed to the Member States.

#### ANNEX

#### NOMENCLATURE OF INDUSTRIES IN THE EUROPEAN COMMUNITIES - NICE

BRANCHES, MAJOR GROUPS, GROUPS, SUBGROUPS AND SUBDIVISIONS

1. MININO	G AND QUARRY	ING			
11			Mining and preparation of solid fuels		
	111		Mining and preparation of coal		
		111.1	Mining and preparation of coal (coal mines proper, washing and grading)		
		111.2	Manufacture of manufactured coal fuels		
		111.3	Manufacture of coal coke (mines' coking plants and independent coking plants)		
		111.4	Manufacture of coal semi-coke		
	112		Mining and preparation of lignite		
		112.1	Mining and preparation of old lignite (lignite of Provence)		
		112.2	Mining and preparation of recent lignite (lignite other than lignite of Provence)		
12			Mining of metalliferous ores		
	121		Mining of iron ore		
	122		Mining of non-ferrous metalliferous ores		
		122.1	Mining of non-ferrous metalliferous ores		
		122.2	Activities connected with the mining of non-ferrous metalliferous ores (milling, fritting, concentration, etc.)		
13	130		Extraction of petroleum and natural gas		
		130.1	Extraction of petroleum		
a The manuf	acture of panels agglome	rated with mineral binders	is classified under Group 335.		
b The insulat construction		ferrous metals and lined w	ith proofed material) are classified under electrical		
c For France	and Belgium in particula	r.			
d Not carried	Not carried out by railway companies.				

		130.2	Extraction and refining of natural gas.
		130.3	Extraction of bituminous shale
		130.4	Prospection for petroleum and natural gas
4	140		Mining or quarrying of building materials and fireclays
		140.1	Slate quarries
		140.2	Stone quarries (limestone, marble, sandstone for milling, sandstone, lava, hard stone, granite, basalt, porphyry, etc.)
		140.3	Extraction of chalk and limestone additives
		140.4	Extraction or dredging of sands, pebbles and gravels
		140.5	Extraction of marl or stones for the manufacture of lime and cement
		140.6	Extraction of gypsum
		140.7	Extraction of clay, brick clay and kaolin
9	190		Mining or quarrying of other minerals and of peat
		190.1	Salt marshes
		190.2	Mines and salt mines
		.21	Rock salt mines
		.22	Salt works
		190.3	Mining of potassium salt
		190.4	Mining of sulphur and pyrite
		190.5	Mining of asphalt and bitumen
		190.6	Mining of natural limestone phosphate
		190.7	Quarrying of dolomite, pumice stone and pozzolana
The manu	facture of panels agglome	rated with mineral binders	s classified under Group 335.
The insula construction		ferrous metals and lined w	th proofed material) are classified under electrical
For France	e and Belgium in particula	r.	

		190.8	Mining or quarrying of miscellaneous mineral products
		.81	Mining of talc and steatite; preparation of talc
		.82	Mining of asbestos
		.83	Mining of fossil silica and kieselguhr; preparation of bricks and proofings of these materials
		.84	Mining or quarrying of feldspar, quartz and pegmatite
		.85	Mining or quarrying of fluorspar
		.86	Mining or barium and strontium or
		.87	Mining or quarrying of other mineral products: gemstones, mica, graphite, alum, magnesia, etc.
		190.9	Peat
2 and 3. MA	NUFACTURING	G INDUSTRIES	
20 A	200		Industries producing animal and vegetable fats and oils
			Melting houses for animal fats (land animals) are classified under 201.5 and chemical processing—other than hydrogenation—oxidisation, vacuum treatment, hydrolysis, etc. of animal and vegetable fats under the chemical industry
		200.1	Production of fats from marine animals
		200.2	Production of olive oil
		200.3	Crushing (pressing and extraction) of oil-bearing seeds
		200.4	Refining, hydrogenation and other similar processing of animal and vegetable fats
		200.5	Production of margarine and simila food fats
20 B			<b>Food manufacturing industries</b> (excluding the beverage industry)
a The manufact	ure of panels agglomera	ated with mineral binders	is classified under Group 335.
<b>b</b> The insulating construction.	g tubes (mainly in non-f	errous metals and lined w	ith proofed material) are classified under electrical

**c** For France and Belgium in particular.

		201		Slaughtering preparation and preserving of meat
				Communal slaughterhouses which are lent or rented by local authorities to the trade and private industries for the purpose of slaughtering, and non-processing butcheries or pork butcheries (sale of meat), are classified elsewhere and not in NICE
		201.1		Slaughterhouses (except communal slaughterhouses)
			201.2	Processing of meat, except poultry
				Production of salt meats, sausages and dried hams, cooked pork butchers' meat and canned pork butchers' meat and other meat
			201.3	Processing butcheries and pork butcheries
			201.4	Slaughtering, preparation and canning of poultry
			201.5	Melting houses for animal fats (land animals)
		202		Milk and milk products industry
			202.1	Production of milk for human consumption; butter and cheese factories
			.11	Production of milk for human consumption
			.12	Butter manufacturing
			.13	Cheese manufacturing
			202.2	Manufacture of canned milk
			.21	Manufacture of milk concentrates
			.22	Manufacture of powdered milk
		203		Canning and preserving of fruit and vegetables
a	The manufacture of	of panels agglomerated w	vith mineral binders is	classified under Group 335.
b	The insulating tub construction.	es (mainly in non-ferrous	s metals and lined with	h proofed material) are classified under electrical
c	For France and Be	lgium in particular.		

		203.1	Quick freezing of vegetables and fruits
		203.2	Production of vegetable or fruit preserves in vinegar, brine or oil
		203.3	Production of vegetable and fruit juices
		203.4	Production of pulps not in airtight containers
		203.5	Production of other vegetable or fruit preserves
		.51	Production of vegetable preserves
		.52	Production of fruit preserves
		.53	Production of dried vegetables
		.54	Production of jams, marmalades and jellies
	204		Canning and preserving of fish and other sea foods
	205		Grain mill products manufacture
		205.1	Milling/meal manufacturing
		205.2	Husking and grading of grain and seeds
	206		Manufacture of bakery products, cakes, rusks and biscuits
			Breadshops are classified elsewher and not in the NICE
		206.1	Making of bakery products, cakes, rusks and biscuits Industrial manufacture of bakery products (delivering to breadshops and other bodies)
			Other manufacture of bakery products, rusks, cakes and biscuits
		206.2	Baking of cakes and pastries
		206.3	Making of rusks
		206.4	Biscuitworks
	207		Sugar industry
The manufac	ture of papels agglomer	ated with mineral hinders	is classified under Group 335.

**c** For France and Belgium in particular.

-	For France and Belgium in particular. Not carried out by railway companies.					
c	construction.	ılar				
b	The insulating tubes (mainly in no		ith proofed material) are classified under electrical			
1	The manufacture of panels agglon	nerated with mineral binders	*			
		211.1	Distillation of crude ethyl alcohol for fermentation of agricultural products			
	211		Production of ethyl alcohol for fermentation, production of yeast and spirits			
21			Beverage industry			
		.74	Manufacture of food products not elsewhere specified			
		.73	Manufacture of dessert dishes			
		.72	Manufacture of dietetic foods			
		.71	Manufacture of broths and soups			
		209.7	Manufacture of other food product			
		209.6	Manufacture of water ice			
		209.5	Manufacture of animal foods			
		209.4.	Manufacture of condiments			
		209.3	Manufacture of coffee substitutes; manufacture of chicory			
		209.2	Processing of coffee and tea			
		209.1	Manufacture of macaroni, spaghett and similar products			
	209		Manufacture of miscellaneous food products			
		208.3	Manufacture of ice cream			
		208.2	Manufacture of sugar confectioner			
		208.1	Manufacture of cocoa and chocolate			
	208		Manufacture of cocoa, chocolate and sugar confectionery			
		207.3	Refining of sugar and manufacture of sugar candy			
		207.2	Manufacture and refining of sugar			
		207.1	Manufacture of sugar			

		211.2	Manufacture of yeast for breadmaking (with or without allied production of alcohol)
		211.3	Rectification and dilution of ethyl alcohols; production of spirits (including aperitifs with a base other than wine)
	212		Manufacture of wine and other unmalted alcoholic beverages
		212.1	Wine-making; storing and handling of wines
		212.2	Preparation of special wines; champagne, sparkling wines, wine- based aperitifs, etc.
		212.3	Cider making and manufacture of wines from fruit
	213		Brewing and malting
THE MAN	NUFACTURE OF	MALT EXTRAC	T IS CLASSIFIED UNDER 209.74
		213.1	Brewing
		213.2	Malting
	214		Production of health beverages and spa waters
		214.1	Bottling, and any preparation required, of natural spa waters
		214.2	Soft drinks and carbonated water industries
22	220		Tobacco manufactures
22 23	220		Tobacco manufactures           Manufacture of textiles
	220 232		
		232.1	Manufacture of textiles           Manufacture and processing of
		232.1 232.2	Manufacture of textiles           Manufacture and processing of textile materials on wool machinery
			Manufacture of textiles         Manufacture and processing of textile materials on wool machinery         Stripping
		232.2	Manufacture of textiles         Manufacture and processing of textile materials on wool machinery         Stripping         Preparation of woollen fibres         Washing, carding, carbonising of

**b** The insulating tubes (mainly in non-ferrous metals and lined with proofed material) are classified under electrical construction.

**c** For France and Belgium in particular.

			.31	Spinning of combed wool
			.32	Spinning of carded wool
			.33	Spinning of hair, angora hair, fine and coarse hair
			232.4	Twisting and winding of wool
			232.5	Weaving of wool (except carpet weaving)
			.51	Mechanical weaving of woollen blankets
			.52	Other processing of wool yarn into fabric Mechanical weaving of wool fabrics for clothing and furnishing mechanical weaving of woollen velvet and plush not elsewhere specified, except carpets; hand- weaving of wool; preparation for weaving of wool
			232.6	Spinning—weaving of wool
			.61	Spinning—weaving; combed cycle
				Spinning—weaving; carded cycle
		233		Manufacturing and processing of textile materials on cotton machinery
			233.3	Cotton spinning
			.31	Three- or four-cylinder spinning non-integrated in weaving
			.32	Spinning on spinning or schlaucop card non-integrated in weaving
			233.4	Twisting and making of sewing thread
			233.5	Cotton weaving (except carpet weaving)
			233.6	Spinning—weaving of cotton
		234		Manufacturing and processing of textile materials on silk machinery
			234.2	Production of silk fibres
Т	The manufacture of	f panels agglomerated v	with mineral binders is o	lassified under Group 335.
	The insulating tubes construction.	s (mainly in non-ferrou	s metals and lined with	proofed material) are classified under electrical
	For France and Bel	gium in particular		

			Maceration, scouring, washing of waste; combing of silk waste (schappe); cardage of noil silk (bourrette)
		234.3	Spinning of silk and schappe
		.31	Unwinding of cocoons (silk spinning)
		.32	Spinning of chappe, noil silk and discontinuous man-made fibres on chappe
		234.4	Operations on silk yarn and man- made fibres, except finishing
		.41	Throwing of silk and continuous man-made fibre yarn
		.42	Manufacture of sewing thread (including man-made fibres)
		234.5	Silk weaving (except carpet weaving)
			Preparing and threading of cards, preparation for weaving (dressing, winding, twisting, welt winding); weaving of. silk fabrics (including man-made fibres)
	235		Manufacturing and processing of textile materials on flax and hemp machinery
		235.1	Retting and scutching of flax and hemp fibres
		235.3	Spinning of flax, hemp or ramie
		.31	Spinning of flax, hemp for weaving and for sewing thread; spinning of ramie. Wet or dry spinning of flax or flaxton and hemp or hemp tow for weaving and making of thread; spinning of other pure and mixed fibres on flax and hemp machines, except spinning of flax for cords
		.32	Dry spinning of hemp and hemp tow for cords
The manufactu		rated with mineral binders	

construction.

**c** For France and Belgium in particular.

		235.4	Manufacture of sewing thread from flax, hemp and ramie; simple yarn, twists, cabled or plaited
		235.5	Weaving of flax, hemp and ramie
			Preparation for the weaving of fabric, dressing, preparing and reading of cards; weighing of fabric with or without complementary activities (dyeing, dressing, production of ready-made clothing, etc.); weaving of heavy fabrics (tarpaulins, sails, awnings, blinds, tents and camping equipment) with or without complementary activities (dyeing, dressing, making-up, etc.)
		235.6	Spinning-weaving of flax and hemp
	236		Other textile fibre industries (jute, hard fibres, etc.), cordage
		236.3	Spinning of jute, hard fibres, etc.
		.31	Jute spinning (non-integrated)
		.32	Hard fibre spinning (non- integrated)
		236.4	Cordage, rope and twine, of all materials
		.41	Cordage, rope and twine without integrated spinning
		.42	Cordage, rope and twine with integrated spinning
		236.5	Weaving of jute, hard fibres, etc.
		.51	Weaving of jute (including integrated making up of jute bags)
		.52	Weaving of coco and other hard fibres
		236.6	Spinning-weaving of jute, hard fibres, etc.
		.61	Spinning-weaving of jute
		.62	Spinning-weaving of coir and other hard fibres
a The manufac	ture of panels agglome	rated with mineral hinders	is classified under Group 335.

**b** The insulating tubes (mainly in non-ferrous metals and lined with proofed material) are classified under electrical construction.

**c** For France and Belgium in particular.

		237		Manufacture of knitted and crocheted goods
				Only those establishments in which knitwear is manufactured from yarn are considered 'knitting mills'. The making of articles which does not involve the manufacture of knitted or crocheted fabric is classified under manufacture of wearing apparel (Group 243)
			237.1	Manufacture of stockings, understockings, sockettes, socks, half-socks, ankle socks and similar articles
			237.2	Manufacture of other knitted or crocheted articles
			.21	Manufacture of non-elastic and non-rubberised knitted or crocheted fabrics for sale
			.22	Manufacture of berets and other knitted headgear
			.23	Manufacture of knitted and crocheted articles not elsewhere specified (gloves, layettes, underclothes, outer garments, knitted swim suits)
		238		Textile finishing
			238.1	Bleaching and dyeing
			238.2	Printing
		239		Other textile industries
			239.1	Manufacture of carpets, except carpets of hard fibres and coir
			239.2	Manufacture of linoleum, paper felts and oilcloth
			239.3	Manufacture of felt
			.31	Manufacture of woven felt
			.32	Manufacture of knitted felt
a	The manufacture	of panels agglomerated	with mineral binders is c	lassified under Group 335.
b	The insulating tul construction.	bes (mainly in non-ferror	us metals and lined with	proofed material) are classified under electrical
c	For France and B	elgium in particular.		
d	Not carried out by railway companies.			

		239.4	Manufacture of ribbons, straps, laces, plaits, passementerie and piping of textile material
		239.5	Manufacture of elastic textiles
		239.6	Manufacture of tulle, lace and similar articles
		239.7	Manufacture of miscellaneous textiles
		.71	Ravelling
		.72	Manufacture of nets
		.73	Manufacture of cotton wool
		.74	Manufacture of textiles not elsewhere specified (bleaching of linters, manufacture of non- woven fabrics, tarpaulins, sails, flags, tents and bags not preceded by weaving, of machine embroidery and scouring cloth)
24			Manufacture of footwear and other wearing apparel and bedding
	241		Machine manufacture of footwear (except from rubber or wood)
		241.1	Manufacture of footwear (except articles coming under 241.2 and 241.3)
		241.2	Manufacture of slippers
		241.3	Manufacture of other special footwear (in particular gymnastic and ballet shoes, galoshes, rope shoes etc.)
		241.4	Manufacture of parts of shoes and accessories
	242		Manufacture by hand and repair of footwear
		242.1	Manufacture by hand; manufacture of orthopaedic shoes; boot making
		242.2	Shoe repair
The manufacture	e of panels agglomer	rated with mineral binders	is classified under Group 335.
The insulating tu construction.	ibes (mainly in non-	ferrous metals and lined w	ith proofed material) are classified under electrical

**c** For France and Belgium in particular.

	243		Manufacture of wearing apparel (except furs)	
		243.1	Production of outer garments for women, girls and infants	
		243.2	Production of outer garments for men and boys	
		243.3	Production of special outer garments	
		.31	Production of working clothes and uniforms	
		.32	Production of rainwear, sewn or in sealed plastic	
		.33	Production of leather and similar clothing	
		.34	Production of outer clothing not elsewhere specified (vestments and theatrical costumes)	
		243.4	Production of shirts and underwea	
		.41	Production of corsets, girdles and brassieres	
		.42	Production of other items of underwear for women and children	
		.43	Production of men's shirts	
		243.5	Making to measure of clothing and underwear	
		.51	Making to measure of clothing for women and children	
		.52	Making to measure of clothing for men	
		.53	Making to measure of underwear, corsets, girdles and shirts	
		243.6	Hatmaking	
		.61	Manufacture of hats and headgear for women; millinery	
		.62	Manufacture of hats and headgear for men	
The manufa	cture of panels agglome	rated with mineral binders	is classified under Group 335.	
The insulati construction	The insulating tubes (mainly in non-ferrous metals and lined with proofed material) are classified under electrical construction			
	For France and Belgium in particular.			

		243.7	Manufacture of clothing accessories	
			Manufacture of umbrellas, sunshades, ties, scarves, silk squares, braces, belts and gloves of fabric, buttons, flowers, fashion feathers, shoulder pads and other articles for the interior of garments, etc.	
		243.8	Manufacture of household linen (except weaving)	
		243.9	Other activities connected with the manufacture of wearing apparel	
			Darning, mending, quilting, openwork and pleating	
	244		Manufacture of mattresses and bedding	
		244.1	Preparation of kapok, horsehair and other fillings	
		244.2	Manufacture of all types of mattresses, quilts, eiderdowns, bed spreads and similar articles	
		244.3	Manufacturing of made-up textile articles for furnishing (blinds, curtains, etc.)	
	245		Skin and fur industries	
		245.1	Dressing and lustering of skins	
		245.2	Cutting and processing of rabbit skins for hatmaking and spinning	
		245.3	Making up of furs; manufacture of skin by-products (scraps and waste of skins, paws, heads, tails, etc.)	
		.31	Wholesale making up of furs (manufacture of fur coats, wearing apparel, carpets, rugs, etc. for sale to retailers, furriers, fashion stores, etc.)	
		.32	Making up of fashion furs and bespoke garments (manufacture of	
The man	ufacture of panels agglomer	ated with mineral binders	is classified under Group 335.	
	The insulating tubes (mainly in non-ferrous metals and lined with proofed material) are classified under electrical construction.			
For Fran	ce and Belgium in particular	ī		

			fur coats, wearing apparel etc. sold directly to private clients).		
25			Wood and cork industry (except manufacture of furniture)		
	251		Sawing and industrial preparation of wood		
		251.1	Sawmills		
		251.2	Planing mills		
		251.3	Drying and seasoning of wood		
	252		Manufacture of semi-finished wood products		
		252.1	Manufacture of veneers and plywoods		
		.11	Manufacture of veneers		
		.12	Manufacture of plywoods		
		252.2	Manufacture of fibre panels and chip boards		
		.21	Manufacture of hard or porous fibre panels		
		.22	Manufacture of chip boards; manufacture of board, of wood flax or other materials agglomerated with non-mineral binders <sup>a</sup>		
		252.3	Manufacture of improved woods		
		252.4	Manufacture of wood treated against fungus, insects or fire Treatment of railway sleepers and line posts; treatment under pressure; soaking, pulverising, whitewashing, etc.		
	253		Series production of wooden building components including flooring		
		253.1	Manufacture, or manufacture and installation, of items of structural woodwork		
a The man	ufacture of panels agglomera	ated with mineral binders	is classified under Group 335.		
b The insul construct		errous metals and lined w	ith proofed material) are classified under electrical		
c For Fran	For France and Belgium in particular.				
d Not carri	ed out by railway companies	3.			

			253.2	Manufacture, or manufacture and installation, of manufactured joinery articles for buildings
				Manufacture of doors, windows, French windows, facade panels, sliding doors, partitions, shutters, roller blinds, staircases, built-in kitchen furniture, etc.
			253.3	Manufacture, or manufacture and laying, of flooring
		254		Manufacture of wooden containers
			254.1	Manufacture of cases, containers and pallets
				The manufacture of cases, crates, cylinders and containers in sawn, cut or flattened wood, veneered or layered, in fibre or chip board panels, or including sections in cut, flattened, veneered or layered wood, or sections in fibre or chip board. Manufacture of cases and containers in reinforced wood. Manufacture of sections of cases and containers, pallet cases, pallets and accessories.
			254.2	Manufacture of wood and cooperage
				Manufacture of cooperage stock, staves, watertight vats for liquids, and other cooperage articles
		255		Manufacture of other wooden products (except furniture)
			255.1	Manufacture of miscellaneous wooden products
				Manufacture of moulding and gilded, decorated or plastered rods; picture and mirror frames; round, turned and shafted sticks; wooden tools and-parts of tools, wood for brooms, brushes and paint; brushes; articles for shoes and shoe-
a	The manufacture of	f panels agglomerated v	with mineral binders is	classified under Group 335.

c	For France and Belgium in particular.			

			trees; household utensils; wooden equipment for the textile industry and other wooden products		
		255.2	Manufacture of sawdust		
		255.3	Manufacture of wood wool or fibres		
		255.4	Clogmaking		
	259		Manufacture of straw, cork, basketware, wickerwork and rattan products; brush-making		
		259.1	Manufacture of cork products		
			Manufacture of stoppers of natural cork or agglomerates (corks, washers, etc).; miscellaneous articles in natural cork (floats, sheets, soles, etc.); cork agglomerates for insulation (panels, casings, etc.) and miscellaneous articles in cork agglomerates		
		259.2	Manufacture of rattan and wickerwork articles, except rattan furniture		
			Manufacture of canework for chairs; articles made of reeds or wood chips wicker-work; wickerwork articles in willow or other plaited materials; other plaited articles		
		259.3	Manufacture of rattan furniture		
		259.4	Manufacture of brushes, brooms and paint brushes		
			Manufacture of besoms and other brooms; coarse and fine brushes, tooth brushes and industrial brushes; shaving brushes; artists' and other paint brushes		
26	260		Manufacture of wooden furniture		
		260.1	Manufacture of household furniture		
			Manufacture of bedroom and dining-room suites, kitchen		
a The manufa	cture of panels agglome	rated with mineral binders	is classified under Group 335.		
	The insulating tubes (mainly in non-ferrous metals and lined with proofed material) are classified under electrical construction.

b	The insulating tub construction.	es (mainly in non-fe	rrous metals and lined w	ith proofed material) are classified under electrical
a				is classified under Group 335.
			.13	Manufacture of pulps of annual vegetable and other miscellaneous materials, e.g. chemical straw pulps
			.12	Manufacture of other chemical wood pulps
			.11	Manufacture of pulps for use in connection with textiles
			271.1	Manufacture of chemical pulps
		271		Manufacture of pulp, paper and paperboard
27				Paper industry and manufacture of paper products
			260.7	Manufacture of coffins
			260.6	Activities connected with the furnishing industry; finishing, varnishing, upholstering, and gilding of furniture
				Manufacture of furniture not elsewhere specified and manufacture without any special characteristics
			260.5	Manufacture of miscellaneous furniture
			260.4	Manufacture of upholstered seats and other furniture
				Manufacture of seats made entirely of wood and of curved wood; cane or straw seats and wood seats to be upholstered
			260.3	Manufacture of unupholstered seats
				Manufacture of office and school furniture, and other furniture for industry and public institutions
			260.2	Manufacture of office and school furniture
				furniture and shelving, sectional furniture, adaptable and other furniture, decorative partitions

			271.2	Manufacture of mechanical, semi-chemical and straw pulps (whether or not connected with the manufacture of paper and paperboard)
			.21	Manufacture of mechanical and semi-chemical pulps
			.22	Manufacture of mechanical and semi-chemical pulp connected with the manufacture of paper and paperboard
			.23	Manufacture of macerated straw pulps, whether or not connected with the manufacture of paper and paperboard
			271.3	Manufacture of paper and paperboard not elsewhere specified
			.31	Manufacture of printing and writing paper
			.32	Manufacture of kraft paper and paperboard, wrapping paper
			.33	Manufacture of thin and miscellaneous paper

		402.4	Building of inland waterway and maritime engineering structures	
		402.5	Highway construction (including airport and runway construction)	
		402.6	Specialist activities in other fields of civil engineering (including installation of road-signs and signals and seamarks, installation of mains and pipelines for gas, water and oil, and installation of electric power transmission and telecommunication lines)	
	403		Installation work	
		403.1	General installation	
The manufacture of	f panels agglomerated	with mineral binders is	classified under Group 335.	
The insulating tube construction.	es (mainly in non-ferro	us metals and lined with	h proofed material) are classified under electrical	
For France and Be	lgium in particular.	For France and Belgium in particular.		

			circulativ
		511.1	Generation for the grid of thermal electricity
			Subgroups 511.1 to 511.3 cover the distribution of electric power when combined with generation
	511		<i>Generation and distribution of electricity</i>
51			Electricity, gas and steam
50	500		Combined generation and distribution of various types of power and water
5. ELECT	RICITY, GAS AN	D WATER	
		404.6	Miscellaneous finishing work (including installation of stoves and fireplaces, etc.)
		404.5	Application of facings and coverings for floors and walls (fixing of tiles, other floor coverings and adhesive finishings)
		404.4	Painting and. glazing, wallpapering
		404.3	Woodwork, with particular reference to installation of wooden fittings (including laying of wooder floors)
		404.2	Plastering
		404.1	General decorating and finishing
	404		Decorating and finishing
		403.6	Installation of aerials, lightning conductors, telephones, etc.
		403.5	Installation of electricity
		403.4	Heat, sound and vibration insulation
		403.3	Heating and ventilation installation (installation of central-heating, air- conditioning and ventilation plant)
		403.2	Services (gas, water and sanitary equipment installation)

		511.2	Generation of hydraulic electricity
		511.3	Generation of nuclear electricity
		511.4	Distribution of electric power
		511.5	Independent generation of electricity by individual power stations in the mining industry
		511.6	Independent generation of electricity by individual power stations in the iron and steel industry
		511.7	Independent generation of electricity by individual power stations in the chemical industry
		511.8	Independent generation of electricity by individual power stations for one or more other branches of industry
	512		Manufacture and distribution of gas
			Subgroup 512.1 covers the distribution of gas when combined with production
		512.1	Gas works
		512.2	Distribution of gaseous fuels
		513	Production and distribution of steam and compressed air; heat production plants
52	520		Water supply
a The manu	ufacture of panels agglome	rated with mineral binders	is classified under Group 335.
	The insulating tubes (mainly in non-ferrous metals and lined with proofed material) are classified under electrical construction.		
c For Franc	ce and Belgium in particula	r	
d Not carrie	Not carried out by railway companies.
