COUNCIL DIRECTIVE
of 2 April 1979
on the marketing of compound feedingstuffs
(79/373/EEC)

THE COUNCIL OF THE EUROPEAN COMMUNITIES,

Having regard to the Treaty establishing the European Economic Community, and in particular Articles 43 and 100 thereof,

Having regard to the proposal from the Commission ⁽¹⁾,

Having regard to the opinion of the European Parliament ⁽²⁾,

Having regard to the opinion of the Economic and Social Committee ⁽³⁾,

Whereas livestock production occupies a very important position in the agriculture of the European Economic Community; whereas satisfactory results depend to a large extent on the use of suitable, good quality feedingstuffs;

Whereas rules governing feedingstuffs are important to an increase in agricultural productivity, in view of the important role played by compound feedingstuffs in this respect;

Whereas, when rules are being laid down for the marketing of compound feedingstuffs, care should be taken to ensure that such feedingstuffs have a favourable effect on livestock production; whereas feedingstuffs must therefore always be wholesome, unadulterated and of merchantable quality; whereas they must neither represent a danger to animal or human health nor be marketed in a manner liable to mislead;

Whereas it is necessary to provide the user with accurate and meaningful information on the compound feedingstuffs at his disposal; whereas, therefore, at least the levels of analytical constituents having a direct effect on the quality of the feedingstuffs should be declared;

Whereas, pending the adoption of further provisions, it is necessary, given the existing practices in certain Member States, to provide temporarily for national administrations to require a fuller declaration of the composition of feedingstuffs, with regard to both analytical constituents and feed materials; whereas such declarations may be required only as provided for in this Directive;

96/24/EC

Whereas, moreover, all producers of feedingstuffs should be able to show on their labelling certain information useful to the purchaser; whereas Member States also retain the right to authorize producers to provide further information;

⁽¹⁾ OJ No C 34, 14. 4. 1971, p. 8.

⁽²⁾ OJ No C 10, 5. 2. 1972, p. 35.

⁽³⁾ OJ No C 4, 20. 1. 1972, p. 3.

Whereas, pending the adoption of Community provisions, Member States may, if their regulations contain these limitations when this Directive is adopted, continue to require that compound feedingstuffs marketed on their territories be manufactured from certain feed materials or be free of certain feed materials;

96/24/EC

96/24/EC

Whereas, for as long as Community methods have not been established, Member States will not be able to require or allow energy values to be indicated unless this is required or permitted in their territories when this Directive is adopted;

Whereas, in order to give adequate protection to purchasers, compound feedingstuffs should normally be marketed in sealed packages or containers; whereas it appears necessary, however, to allow for exceptions to this rule in certain special circumstances to be defined by the Community;

Whereas Member States must ensure that compound feedingstuffs satisfying the provisions of this Directive are not subject within the Community to any marketing restrictions in connection with their marking or packaging;

Whereas Member States must make suitable control arrangements to ensure compliance during marketing with the provisions laid down for compound feedingstuffs;

Whereas, in order to facilitate the implementation of the measures envisaged and, in particular, to amend and supplement them where necessary, provision should be made for a procedure establishing close cooperation between Member States and the Commission within the Standing Committee for Feedingstuffs set up by Decision 70/372/EEC ⁽¹⁾;

Whereas this Directive contains a number of national derogations; whereas it is therefore necessary to include provision for certain of them to be reviewed within a specified period,

HAS ADOPTED THIS DIRECTIVE:

⁽¹⁾ OJ No L 170, 3. 8. 1970, p. 1.

<i>Article 1</i>	79/373/EEC
1. This Directive shall apply to compound feedingstuffs marketed within the Community.	
2. This Directive shall apply without prejudice to the provisions on:	
(a) <u>feed materials</u> ;	96/24/EC
(b) additives used in feedingstuffs;	
(c) undesirable substances and products in animal nutrition;	86/354/EC
(d) the fixing of maximum permitted levels for pesticide residues on or in products intended for human or animal consumption;	79/373/EEC
(e) the organization of markets in agricultural products.	
(f) certain products used in animal nutrition.	86/354/EC
(g) the approximation of the laws of the Member States relating to the making up, by mass or by volume, of certain prepackaged products.	90/44/EEC
(h) feedingstuffs for particular nutritional purposes	93/74/EEC

<i>Article 2</i>	79/373/EEC
For the purposes of this Directive, the following definitions shall apply:	
(a) Feedingstuffs: products of vegetable or animal origin in their natural state, fresh or preserved, and products derived from the industrial processing thereof, and organic or inorganic substances, used singly or in mixtures, whether or not containing additives, for oral animal feeding.	86/354/EEC
(b) compound feedingstuffs: mixtures of feed materials, whether or not containing additives, for oral animal feeding in the form of complete or complementary feedingstuffs;	96/24/EC
(c) daily ration: the average total quantity of feedingstuffs, calculated on a moisture content of 12 %, required daily by an animal of a given species, age category and yield, to satisfy all its needs;	79/373/EEC
(d) complete feedingstuffs: mixtures of feedingstuffs which, by reason of their composition, are sufficient for a daily ration;	

<p>(e) complementary feedingstuffs: mixtures of feedingstuffs which have a high content of certain substances but which, by reason of their composition, are sufficient for a daily ration only if used in combination with other feedingstuffs;</p> <p>(f) mineral feedingstuffs: complementary feedingstuffs composed mainly of minerals and containing at least 40 % crude ash;</p> <p>(g) molassed feedingstuffs: complementary feeding stuffs prepared from molasses and containing at least 14 % total sugar expressed as sucrose;</p> <p>(h) animals: animals belonging to species normally kept and nourished or consumed by man;</p> <p>(i) pet animals: animals belonging to species normally nourished and kept, but not consumed, by man, except animals bred for fur.</p>	79/373/EEC
<p>(j) Milk replacer feeds: compound feedingstuffs administered in dry form or after dilution in a given quantity of liquid for feeding young animals as a supplement to, or substitute for, post-colostral milk or for feeding calves intended for slaughter.</p>	86/354/EEC
<p>(k) feed materials: various products of vegetable or animal origin, in their natural state, fresh or preserved, and products derived from the industrial processing thereof, and organic or inorganic substances, whether or not containing additives, which are intended for use in oral animal feeding, either directly as such or after processing, in the preparation of compound feedingstuffs or as carriers of premixtures;</p>	96/24/EC
<p>1. (SIC! (I)) the minimum storage life of a compound feedingstuff: that the date until which, under proper storage conditions, that feedingstuff retains its specific properties.</p>	90/44/EEC
<p style="text-align: center;"><i>Article 3</i></p> <p>Member States shall prescribe that compound feedingstuffs may be marketed only if they are wholesome, unadulterated and of merchantable quality. They shall also prescribe that compound feedingstuffs may not represent a danger to animal or human health and may not be presented or marketed in a manner liable to mislead.</p>	79/373/EEC

Article 4

79/373/EEC

1. Member States shall prescribe that compound feedingstuffs may be marketed only in sealed packages or containers. They shall also prescribe that the packages or containers be sealed in such a way that, when the package is opened, the seal is damaged and cannot be re-used.
2. Exceptions to the principle of paragraph 1 to be authorized at Community level shall be listed in accordance with the procedure laid down in Article 13, provided that the identity and quality of the compound feedingstuffs concerned are ensured.

Article 5

90/44/EEC

1. Member States shall prescribe that compound feedingstuffs may not be marketed unless the particulars listed below, which shall be clearly visible, legible and indelible and for which the manufacturer, packer, importer, seller or distributor established within the Community shall be held responsible, are shown, in a space provided for that purpose, on the packaging, on the container or on a label attached thereto:

- (a) the description “complete feedingstuff”, “complementary feedingstuff”, “mineral feedingstuff”, “molassed feedingstuff”, “complete milk replacer feed” or “complementary milk replacer feed”, as appropriate;
- (b) the species or category of animal for which the compound feedingstuff is intended;
- (c) directions for the proper use of the feedingstuff indicating the purpose for which the feedingstuff is intended;
- (d) for all compound feedingstuffs except those intended for pets other than dogs and cats: the feed materials to be declared in accordance with Article 5c;
- (e) where appropriate, the declarations of the analytical constituents in the cases provided for in Part A of the Annex;
- (f) as relevant to the case, the declarations provided for in Part B of the Annex in columns 1, 2 and 3;
- (g) the name or business name and the address or registered place of business of the person responsible for the particulars referred to in this paragraph;
- (h) the net quantity expressed in units of mass in the case of solid products, and in units of mass or volume in the case of liquid products;
- (i) the minimum storage life, to be indicated in accordance with Article 5d (1);
- (j) the batch number if the date of manufacture is not given.

96/24/EC

- | | |
|--|-----------|
| <p>(k) the approval number allocated to the establishment in accordance with Article 5 of Council Directive 95/69/EC of 22 December 1995 laying down the conditions and arrangements for approving and registering certain establishments and intermediaries operating in the animal feed sector ⁽¹⁾.</p> | 95/69/EC |
| <p>2. Member States shall prescribe that compound feedingstuffs, when marketed in tankers or similar vehicles or in accordance with Article 4 (2), shall be accompanied by a document containing the particulars referred to in paragraph 1 of this Article. For small quantities of feedingstuffs intended for the final user, these particulars may be brought to the purchaser's attention by means of an appropriate notice at the point of sale.</p> <p>3. Member States shall prescribe that, in conjunction with the particulars listed in paragraph 1, only the following additional particulars may be put in the space referred to in paragraph 1:</p> <p>(a) the identification mark or trade mark of the person responsible for the labelling particulars;</p> <p>(b) the name or business name and the address or registered place of business of the manufacturer, if this is not the person responsible for the labelling particulars;</p> <p>(c) where appropriate, the batch number;</p> <p>(d) the country of production or manufacture;</p> <p>(e) the price of the product;</p> <p>(f) the description or trade name of the product;</p> <p>(g) for compound feedingstuffs intended for pets other than dogs and cats: the <u>feed materials</u> to be declared in accordance with Article 5c;</p> <p>(h) where appropriate, particulars relating to the provisions of Article 14 (a);</p> <p>(i) an indication of the physical condition of the feedingstuff or the specific processing it has undergone;</p> <p>(j) where appropriate, the declarations of the analytical constituents in the cases provided for in Part A of the Annex;</p> <p>(k) the declarations provided for in Part B of the Annex in columns 1, 2 and 4;</p> <p>(l) the date of manufacture to be indicated in accordance with Article 5d (2).</p> <p>4. Member States may, for feedingstuffs produced and marketed in their territories:</p> | 90/44/EEC |
| <p>(k) the date of manufacture to be indicated in accordance with Article 5d (2).</p> | 96/24/EC |

⁽¹⁾ OJ No L 332, 30. 12. 1995, p. 15.

<p>(a) permit the particulars specified in paragraph 1 (b) to (f) and (h) to be shown only in an accompanying document;</p> <p>(b) prescribe an official code number enabling the manufacturer to be identified where the latter is not responsible for the labelling particulars.</p> <p>5. Member States shall prescribe that:</p> <p>(a) in the case of compound feedingstuffs constituted from no more than three <u>feed materials</u>, the particulars referred to in paragraph 1 (b) and (c) shall not be required where the <u>feed materials</u> used appear clearly in the description;</p> <p>(b) in the case of whole grain mixes, the declarations referred to in paragraph 1 (e) and (f) shall not be required; they may, however, be provided;</p> <p>(c) the descriptions “complete feedingstuff” or “complementary feedingstuff” in respect of feedingstuffs intended for pets other than dogs or cats may be replaced by the description “compound feedingstuff”. In this case, the declarations required or allowed under this Article shall be those laid down for complete feedingstuffs;</p> <p>(d) the minimum storage life, the net quantity and the batch reference number may be marked outside the space reserved for the labelling particulars referred to in paragraph 1; in this case, the relevant expressions shall be accompanied by an indication of where the information appears.</p> <p>6. For compound feedingstuffs for pets, the descriptions:</p> <p>(a) in English “compound feedingstuff”, “complementary feedingstuff”, and “complete feedingstuff” may be replaced by the descriptions “compound pet food”, “complementary pet food” “and complete pet food” respectively;</p> <p>(b) in Spanish “pienso” may be replaced by the description “alimento”;</p> <p>(c) in Dutch “mengvoeder”, “aanvullend diervoeder” and “volledig diervoeder” may be replaced by the descriptions “samengesteld voeder”, “aanvullend samengesteld voeder” and “volledig samengesteld voeder” respectively.</p>	<p>90/44/EEC</p> <p>96/24/EC</p> <p>96/24/EC</p>
<i>Article 5a</i>	90/44/EEC – deleted
<i>Article 5b</i>	
<i>Article 5c</i>	90/44/EEC
<p>1. Where a declaration of the <u>feed materials</u> is provided, all the <u>feed materials</u> must be mentioned.</p> <p>2. The listing of <u>feed materials</u> shall be subject to the following rules:</p>	<p>96/24/EC</p> <p>96/24/EC</p> <p>96/24/EC</p>

- | | |
|---|--|
| (a) compound feedingstuffs intended for animals other than pets: listing of <u>feed materials</u> in descending order by weight; | 90/44/EEC
96/24/EC |
| (b) compound feedingstuffs intended for pets: listing of <u>feed materials</u> ; either indicating the amount contained or naming them in descending order by weight. | 96/24/EC |
| 3. The <u>feed materials</u> shall be described by their specific names; however, categories grouping several <u>feed materials</u> will be established in accordance with Article 10 (a); in that case, the indication of the specific name of the <u>feed materials</u> may be replaced by the name of the category to which the <u>feed materials</u> belongs. | 96/24/EC
96/24/EC |
| Use of one of these two forms of declaration shall exclude use of the other save where one of the <u>feed materials</u> used belongs to none of the categories which have been defined; in that case the <u>feed materials</u> , designated by its specific name, shall be mentioned in order of importance by weight in relation to the categories. | 96/24/EC
96/24/EC |
| 4. Where no measure has been adopted under Article 10 (a), Member States may retain the <u>feed materials</u> categories they have determined and allow the indication of the <u>feed materials</u> to be replaced by that of the categories. | 96/24/EC
96/24/EC |
| 5. The labelling of compound feedingstuffs for pets may also draw particular attention to the presence or low content of one or more <u>feed material(s)</u> which are essential aspects of the characteristics of the feedingstuff. In such a case, the minimum or maximum content, expressed in terms of percentage by weight of the <u>feed material(s)</u> incorporated, must be clearly indicated either opposite the declaration drawing special attention to the <u>feed material(s)</u> or in the list of <u>feed material(s)</u> or by mentioning the <u>feed material(s)</u> and the percentage(s) by weight concerned opposite the corresponding category of <u>feed material(s)</u> . | 96/24/EC
96/24/EC
96/24/EC
96/24/EC
96/24/EC
96/24/EC |

Article 5d

1. The minimum storage life shall be given by the following indications:
- “use before ...” followed by the date (day, month and year) in the case of microbiologically highly perishable feedingstuffs;
 - “best before...” followed by the date (month and year) in the case of other feedingstuffs.

Where other Community provisions concerning compound feedingstuffs require indication of a minimum storage life, only the earliest date shall be indicated.

2. The date of manufacture shall be expressed as follows: 90/44/EEC

“manufactured (days, months, or years) before the minimum storage life expiry date indicated”.

Where Article 5 (5) (d) applies, the abovementioned entry shall be followed by an indication of where that storage life is indicated.

Article 5e

The person responsible for the labelling particulars of a compound feedingstuff may provide information in addition to that required under this Directive.

However, such information:

— may not be designed to indicate the presence or content of analytical constituents other than those the declaration of which is provided for in Article 5 of this Directive or Article 5 (2) of Council Directive 93/74/EEC of 13 September 1993 on feedingstuffs intended for particular nutritional purposes ⁽¹⁾;

93/74/EEC

— must not mislead the user, in particular by attributing to the feedingstuff effects or properties that it does not possess or by suggesting that it possesses special characteristics when in fact all similar feedingstuffs possess such characteristics,

90/44/EEC

— must not claim that the feedingstuff will prevent, treat or cure a disease,

— must relate to objective or quantifiable factors which can be substantiated,

— must be clearly separated from all the particulars specified in Article 5.

Article 6

Member States shall prescribe that the general provisions contained in Part A of the Annex shall apply to the marketing of compound feedingstuffs.

~~*Article 7*~~

90/44/EEC – deleted

~~*Article 8*~~

Article 9

79/373/EEC

Member States shall ensure that compound feedingstuffs are not subject, for reasons concerning the provisions included in this Directive, to marketing restrictions other than those provided for by this Directive.

⁽¹⁾ OJ No L 237, 22. 9. 1993, p. 23.

Article 10

In accordance with the procedure laid down in Article 13 and in the light of advances in scientific and technical knowledge:

- (a) categories grouping several feed material(s) shall be established not later than 22 January 1991;

90/44/EEC

96/24/EC

96/24/EC – deleted

- (c) a list shall be established of feed material(s) the use of which is prohibited in compound feedingstuffs for public or animal health reasons;

90/44/EEC – 96/24/EC

- (d) methods of calculating the energy value of compound feedingstuffs may be established;

- (e) amendments to the Annex and to the lists referred to in (b) and (c) above shall be adopted.

Article 10a

1. Member States shall prescribe that the feed material(s) included on the list of the main feed materials listed in Part B of the Annex to Council Directive 96/25/EC of 29 April 1996 on the circulation of feed materials, amending Directives 70/524/EEC, 74/63/EEC, 82/471/EEC and 93/74/EEC and repealing Directive 77/101/EEC (1) may be declared as such only under the names specified therein and on condition that they correspond to the descriptions and comply with any possible minimum compositional requirements contained therein.

96/24/EC

96/24/EC

2. Member States shall ensure that the provisions of headings (I), (II), (III) and (IV) of Part A “General” of the Annex to Directive 96/25/EC are respected.

96/24/EC

Article 11

For the purposes of marketing within the Community, the indications printed on the accompanying document, on the packaging, on the container or on the label attached thereto shall be written in at least one or several languages which the country of destination shall determine from among the national or official languages of the Community.

Article 12

Member States shall make all necessary arrangements for official inspection during manufacture or marketing, at least by sampling, in order to ensure compliance with the requirements of this Directive.

90/44/EEC

(1) OJ No L 125, 23. 5. 1996, p. 35

Article 13

1. Where the procedure laid down in this Article is to be followed, the matter shall be referred without delay to the Standing Committee for Feedingstuffs, hereinafter called 'the Committee', by its chairman, either on his own initiative or at the request of a Member State.

79/373/EC

2. The representative of the Commission shall submit to the Committee a draft of the measures to be adopted. The Committee shall deliver its opinion on the draft within a time limit which the Chairman may lay down according to the urgency of the matter. The opinion shall be delivered by the majority laid down in Article 148 (2) of the treaty in the case of decisions which the Council is required to adopt on a proposal from the Commission. The votes of the representatives of the Member States within the Committee shall be weighted in the manner set out in that Article. The Chairman shall not vote.

95/1/EC, Euratom, ECSC

3. The Commission shall adopt the measures and implement them forthwith where they are in accordance with the opinion of the Committee. Where they are not in accordance with the opinion of the Committee, or if no opinion is delivered, the Commission shall at once submit a proposal to the Council on the measures to be taken. The Council shall adopt the measures by a qualified majority.

79/373/EEC – 95/1/EC, Euratom, ECSC

4. (SIC!) If the Council has not adopted any measures within three months of receiving the proposal, the Commission shall adopt the proposed measures and implement them forthwith except where the Council has voted by a simple majority against such measures.

Article 14

This Directive shall not affect the right of Member States:

- (a) to recommend types of compound feedingstuffs which meet certain analytical characteristics;
- (b) to refrain from applying the provisions of this Directive to compound feedingstuffs in respect of which it is proved at least by some appropriate marking that they are intended for export to third countries;
- (c) to refrain from applying the provisions of this Directive to compound feedingstuffs where a special label marking gives proof that they are intended for animals kept for scientific or experimental purposes.

Article 15

Not later than three years following notification of this Directive the Commission shall, on the basis of experience acquired, forward to the Council proposals for amendments to the Directive such as to achieve free movement of compound feedingstuffs and to eliminate certain disparities concerning the use of feed materials and labelling in particular. The Council shall act on these proposals not later than five years following notification of this Directive.

79/373/EEC

96/24/EC

Article 16

Member States shall bring into force on 1 January 1981 the laws, regulations and administrative provisions necessary to comply with this Directive and shall forthwith inform the Commission thereof.

However, the Federal Republic of Germany may until 21 January 1992 derogate from the labelling provisions in Article 5 for compound feedingstuffs produced in the territory of the former German Democratic Republic.

90/654/EEC

Article 17

This Directive is addressed to the Member States.

79/373/EEC

ANNEX

PART A

General provisions

1. The levels indicated or to be declared relate to the weight of the compound feedingstuff as such, unless otherwise stated.
2. The feedingstuff's moisture content must be stated if it exceeds:
 - 7 % in the case of milk replacer feeds and other compound feedingstuffs with a milk-product content exceeding 40 %,
 - 5 % in the case of mineral feedingstuffs containing no organic substances,
 - 10 % in the case of mineral feedingstuffs containing organic substances,
 - 14 % in the case of other compound feedingstuffs.

In the case of compound feedingstuffs with a moisture content not exceeding the limits stated in the paragraphs above, that content may also be declared.
3. The level of ash insoluble in hydrochloric acid shall not exceed 3,3 % of the dry matter in the case of compound feedingstuffs composed mainly of rice by-products and 2,2 % of the dry matter in other cases.

However, the 2,2 % level may be exceeded in the case of:

 - compound feedingstuffs containing authorized mineral binding agents,
 - mineral compound feedingstuffs,
 - compound feedingstuffs containing more than 50 % of sugar beet chips or sugar beet pulp,
 - compound feedingstuffs intended for farmed fish with a fish meal content of over 15 %,

provided that the level is declared as a percentage of the feedingstuff as such.

In the case of compound feedingstuffs with a level of ash insoluble in hydrochloric acid not exceeding the limits stated in the paragraphs above, that level may also be declared.
4. The iron level in milk replacer feeds for calves of a live weight less than or equal to 70 kilograms must be at least 30 milligrams per kilogram of the complete feedingstuff at a moisture content of 12 %.
5. Where, on official inspection pursuant to Article 12, the composition of a compound feedingstuff other than for pets is found to depart from the declared composition, the following minimum tolerances shall be permitted, subject to Article 3:
 - 5.1. Where the content recorded is less than the declared content:

- 5.1.1. Crude protein: 90/44/EEC
- 2 units for declared contents of 20 % or more,
 - 10 % of the declared content for declared contents of less than 20 % but not less than 10 %,
 - 1 unit for declared contents of less than 10 %.
- 5.1.2. Total sugar:
- 2 units for declared contents of 20 % or more,
 - 10 % of the declared content for declared contents of less than 20 % but not less than 10 %,
 - 1 unit for declared contents of less than 10 %.
- 5.1.3. Starch and total sugar plus starch:
- 2,5 units for declared contents of 25 % or more,
 - 10 % of the declared content for declared contents of less than 25 % but not less than 10 %,
 - 1 unit for declared contents of less than 10 %.
- 5.1.4. Crude oils and fats:
- 1,5 units for declared contents of 15 % or more,
 - 10 % of the declared content for declared contents of less than 15 % but not less than 8 %,
 - 0,8 unit for declared contents of less than 8 %.
- 5.1.5. Sodium, potassium and magnesium:
- 1,5 units for declared contents of 15 % or more,
 - 10 % of the declared content for declared contents of less than 15 % but not less than 7,5 %,
 - 0,75 unit for declared contents of less than 7,5 % but not less than 5 %,
 - 15 % of the declared content for declared contents of less than 5 % but not less than 0,7 %,
 - 0,1 unit for declared contents of less than 0,7 %.
- 5.1.6. Total phosphorus and calcium:
- 1,2 units for declared contents of 16 % or more,
 - 7,5 % of the declared content for declared contents of less than 16 % but not less than 12 %,
 - 0,9 unit for declared contents of less than 12 % but not less than 6 %,
 - 15 % of the declared content for declared contents of less than 6 % but not less than 1 %,

- 0,15 unit for declared contents of less than 1 %.
- 5.1.7. Methionine, lysine and threonine:
 - 15 % of the declared content.
- 5.1.8. Cystine and tryptophan:
 - 20 % of the declared content.
- 5.2. Where the content recorded is more than the declared content:
 - 5.2.1. Moisture:
 - 1 unit for declared contents of 10 % or more,
 - 10 % of the declared content for declared contents of less than 10 % but not less than 5 %,
 - 0,5 unit for declared contents of less than 5 %.
 - 5.2.2. Crude ash:
 - 1 unit for declared contents of 10 % or more,
 - 10 % of the declared content for declared contents of less than 10 % but not less than 5 %,
 - 0,5 unit for declared contents of less than 5 %.
 - 5.2.3. Crude fibre:
 - 1,8 units for declared contents of 12 % or more,
 - 15 % of the declared content for declared contents of less than 12 % but not less than 6 %,
 - 0,9 unit for declared contents of less than 6 %.
 - 5.2.4. Ash insoluble in hydrochloric acid:
 - 1 unit for declared contents of 10 % or more,
 - 10 % of the declared content for declared contents of less than 10 % but not less than 4 %,
 - 0,4 unit for declared contents of less than 4 %.
- 5.3. Where the variation noted is in the opposite direction to those referred to respectively in 5.1 and 5.2:
 - 5.3.1 — crude protein, crude oils and fats, total sugar, starch: tolerance twice that permitted for these substances in 5.1,
 - total phosphorus, calcium, potassium, magnesium, sodium, crude ash, crude fibre: tolerance three times that permitted for those substances in 5.1 and 5.2.
- 6. Where, on official inspection pursuant to Article 12, the composition of a compound feedingstuff for pets is found to depart from the declared composition, the following minimum tolerances shall be permitted, subject to Article 3:

90/44/EEC

| <p>7. Labelling of compound feedingstuffs containing protein derived from mammalian tissue.</p> <p>7.1. The labelling of compound feedingstuffs containing protein derived from mammalian tissue and intended for animals other than pets must contain the following statement: "This compound feedingstuff contains protein derived from mammalian tissue the feeding of which to ruminants is prohibited".</p> <p>This does not apply to compound feedingstuffs which contain no protein derived from mammalian tissue other than the following:</p> <ul style="list-style-type: none"> — milk and milk products, — gelatin, | <p>97/47/EC</p> |

- amino acids obtained from hides and skins by a process which involves exposure of the material to a pH of 1 to 2 followed by a pH of > 11, followed by heat treatment at 140 °C for 30 minutes at 3 bar,
 - dicalcium phosphate derived from defatted bones, and
 - dried plasma and other blood products.
- 7.2. Where a Member State prohibits the use of protein derived from mammalian tissue as referred to in 7.1, first sentence, in feedingstuffs for certain animals other than ruminants as permitted by Article 1 (2) of Council Directive 90/667/EEC ⁽¹⁾, the statement required in 7.1 must mention in addition the other species or categories of animals to which it has extended the prohibition on the use of the products in question.

97/47/EC

PART B
Declaration of analytical constituents

90/44/EEC

Feedingstuffs	Analytical constituents and levels	Species or category of animal	
		Compulsory declarations according to Article 5 (1) (f)	Optional declarations according to Article 5 (3) (k)
(1)	(2)	(3)	(4)
Complete Feedingstuffs	— Crude protein	} Animals except pets other than dogs and cats	} Pets other than dogs or cats
	— Crude oils and fats		
	— Crude fibre		
	— Crude ash		
	— Lysine	Pigs	Animals other than pigs
	— Methionine	Poultry	Animals other than poultry
	— Cystine	} All animals
	— Threonine	
	— Tryptophan	
	— Energy value	Poultry (calculated according to EEC method)
		Pigs and ruminants (calculated according to national official methods)
	— Starch	} All animal
	— Total sugar (as sucrose)	
	— Total sugar plus starch	
	— Calcium	
	— Sodium	
	— Phosphorus	
— Magnesium		
— Potassium		

Feedingstuffs	Analytical constituents and levels	Species or category of animal	
		Compulsory declarations according to Article 5 (1) (f)	Optional declarations according to Article 5 (3) (k)
(1)	(2)	(3)	(4)
Complementary feeding-stuffs – Mineral	— Crude protein	} All animals
	— Crude fibre	
	— Crude ash	
	— Crude oils and fats	
	— Lysine	
	— Methionine	
	— Cystine	
	— Threonine	
	— Tryptophan	
	— Calcium	} All animals	
	— Phosphorus		
	— Sodium		
	— Magnesium	Ruminants	Animals other than ruminants
— Potassium	All animals	
Complementary feeding-stuffs – Molassed	— Crude protein	} All animals	} All animals
	— Crude fibre		
	— Total sugar (as sucrose)		
	— Crude ash		
	— Crude oils and fats
