

## ANNEX I

NOMENCLATURE OF THE CAPITAL MOVEMENTS  
REFERRED TO IN ARTICLE 1 OF THE DIRECTIVE

In this Nomenclature, capital movements are classified according to the economic nature of the assets and liabilities they concern, denominated either in national currency or in foreign exchange.

The capital movements listed in this Nomenclature are taken to cover:

- all the operations necessary for the purposes of capital movements: conclusion and performance of the transaction and related transfers. The transaction is generally between residents of different Member States although some capital movements are carried out by a single person for his own account (e.g. transfers of assets belonging to emigrants),
- operations carried out by any natural or legal person<sup>(1)</sup>, including operations in respect of the assets or liabilities of Member States or of other public administrations and agencies, subject to the provisions of Article 68 (3) of the Treaty,
- access for the economic operator to all the financial techniques available on the market approached for the purpose of carrying out the operation in question. For example, the concept of acquisition of securities and other financial instruments covers not only spot transactions but also all the dealing techniques available: forward transactions, transactions carrying an option or warrant, swaps against other assets, etc. Similarly, the concept of operations in current and deposit accounts with financial institutions, includes not only the opening and placing of funds on accounts but also forward foreign exchange transactions, irrespective of whether these are intended to cover an exchange risk or to take an open foreign exchange position,
- operations to liquidate or assign assets built up, repatriation of the proceeds of liquidation thereof<sup>(1)</sup> or immediate use of such proceeds within the limits of Community obligations,
- operations to repay credits or loans.

This Nomenclature is not an exhaustive list for the notion of capital movements — whence a heading XIII — F. ‘Other capital movements — Miscellaneous’. It should not therefore be interpreted as restricting the scope of the principle of full liberalization of capital movements as referred to in Article 1 of the Directive.

- EXPLANATORY NOTES

For the purposes of this Nomenclature and the Directive only, the following expressions have the meanings assigned to them respectively:

**Direct investments**

Investments of all kinds by natural persons or commercial, industrial or financial undertakings, and which serve to establish or to maintain lasting and direct links between the person providing the capital and the entrepreneur to whom or the undertaking to which the capital is made available in order to carry on an economic activity. This concept must therefore be understood in its widest sense.

The undertakings mentioned under I-1 of the Nomenclature include legally independent undertakings (wholly-owned subsidiaries) and branches.

As regards those undertakings mentioned under I-2 of the Nomenclature which have the status of companies limited by shares, there is participation in the nature of direct investment where the block of shares held by a natural person of another undertaking or any other holder enables the shareholder, either pursuant to the provisions of national laws relating to companies limited by shares or otherwise, to participate effectively in the management of the company or in its control.

Long-term loans of a participating nature, mentioned under I-3 of the Nomenclature, means loans for a period of more than five years which are made for the purpose of establishing or maintaining lasting economic links. The main examples which may be cited are loans granted by a company to its subsidiaries or to companies in which it has a share and loans linked with a profit-sharing arrangement. Loans granted by financial institutions with a view to establishing or maintaining lasting economic links are also included under this heading.

**Investments in real estate**

Purchases of buildings and land and the construction of buildings by private persons for gain or personal use. This category also includes rights of usufruct, easements and building rights.

**Introduction on a stock exchange or on a recognized money market**

Access — in accordance with a specified procedure — for securities and other negotiable instruments to dealings, whether controlled officially or unofficially, on an officially recognized stock exchange or in an officially recognized segment of the money market.

**Securities dealt in on a stock exchange (quoted or unquoted)**

Securities the dealings in which are controlled by regulations, the prices for which are regularly published, either by official stock exchanges (quoted securities) or by other bodies attached to a stock exchange — e.g. committees of banks (unquoted securities).

**Issue of securities and other negotiable instruments**

Sale by way of an offer to the public.

**Placing of securities and other negotiable instruments**

The direct sale of securities by the issuer or by the consortium which the issuer has instructed to sell them, with no offer being made to the public.

**Domestic or foreign securities and other instruments**

Securities according to the country in which the issuer has his principal place of business. Acquisition by residents of domestic securities and other instruments issued on a foreign market ranks as the acquisition of foreign securities.

**Shares and other securities of a participating nature**

Including rights to subscribe to new issues of shares.

**Bonds**

Negotiable securities with a maturity of two years or more from issue for which the interest rate and the terms for the repayment of the principal and the payment of interest are determined at the time of issue.

### **Collective investment undertakings**

Undertakings:

- the object of which is the collective investment in transferable securities or other assets of the capital they raise and which operate on the principle of risk-spreading, and
- the units of which are, at the request of holders, under the legal, contractual or statutory conditions governing them, repurchased or redeemed, directly or indirectly, out of those undertakings' assets. Action taken by a collective investment undertaking to ensure that the stock exchange value of its units does not significantly vary from their net asset value shall be regarded as equivalent to such repurchase or redemption.

Such undertakings may be constituted according to law either under the law of contract (as common funds managed by management companies) or trust law (as unit trusts) or under statute (as investment companies).

For the purposes of the Directive, 'common funds' shall also include unit trusts.

### **Securities and other instruments normally dealt in on the money market**

Treasury bills and other negotiable bills, certificates of deposit, bankers' acceptances, commercial paper and other like instruments.

### **Credits related to commercial transactions or to the provision of services**

Contractual trade credits (advances or payments by instalment in respect of work in progress or on order and extended payment terms, whether or not involving subscription to a commercial bill) and their financing by credits provided by credit institutions. This category also includes factoring operations.

### **Financial loans and credits**

Financing of every kind granted by financial institutions, including financing related to commercial transactions or to the provision of services in which no resident is participating.

This category also includes mortgage loans, consumer credit and financial leasing, as well as back-up facilities and other note-issuance facilities.

### **Residents or non-residents**

Natural and legal persons according to the definitions laid down in the exchange control regulations in force in each Member State.

### **Proceeds of liquidation (of investments, securities, etc.)**

Proceeds of sale including any capital appreciation, amount of repayments, proceeds of execution of judgements, etc.

### **Natural or legal persons**

As defined by the national rules.

### **Financial institutions**

Banks, savings banks and institutions specializing in the provision of short-term, medium-term and long-term credit, and insurance companies, building societies, investment companies and other institutions of like character.

### **Credit institutions**

Banks, savings banks and institutions specializing in the provision of short-term, medium-term and long-term credit.

ANNEX V

Since the dual exchange market system, as operated by the Kingdom of Belgium and the Grand Duchy of Luxembourg, has not had the effect of restricting capital movements but nevertheless constitutes an anomaly in the EMS and should therefore be brought to an end in the interests of effective implementation of the Directive and with a view to strengthening the European Monetary System, these two Member States undertake to abolish it by 31 December 1992. They also undertake to administer the system, until such time as it is abolished, on the basis of procedures which will still ensure the *de facto* free movement of capital on such conditions that the exchange rates ruling on the two markets show no appreciable and lasting differences.
