**COMMISSION DIRECTIVE 93/49/EEC**

**of 23 June 1993**

**setting out the schedule indicating the conditions to be met by  
ornamental plant propagating material and ornamental plants  
pursuant to Council Directive 91/682/EEC**

**▼M1**

**▼B**

*Article 3*

1. Without prejudice to the provisions of Article 2, the material must, at least on visual inspection, be substantially free from any harmful organisms and diseases impairing quality, or any signs or symptoms thereof, which reduce the usefulness of the propagating material or ornamental plants and in particular be free from those organisms and diseases listed in the Annex hereto in respect of the genus or species concerned.

**▼M1**

**▼M2**

*Article 3a*

Propagating material of *Palmae* belonging to the genera and species referred to in the Annex and having a diameter of the stem at the base of over 5 cm shall comply with one of the following requirements:

- (a) it shall have been grown for their entire life in an area which has been established as free from *Rhynchophorus ferrugineus* (Olivier) by the responsible official body in accordance with relevant International Standards for Phytosanitary Measures;
- (b) it shall have been grown in the two years prior to their marketing in a site within the Union with complete physical protection against the introduction of *Rhynchophorus ferrugineus* (Olivier), or in a site within the Union where the appropriate preventive treatments have been applied with respect to that harmful organism. It shall be subject to visual inspections carried out at least once every four months, confirming freedom of that material from *Rhynchophorus ferrugineus* (Olivier).

This Article shall apply without prejudice to the rules on protected zones adopted pursuant to point (h) of Article 2(1) and Article 5(3) of Directive 2000/29/EC.

**▼B**

*Article 4*

1. The material shall have adequate identity and purity relative to the genus or species in question, or where appropriate, group of plants, and, where marketed or intended to be marketed with a reference to the variety pursuant to Article 9 (1) of Directive 91/682/EEC, shall also have identity and purity as to variety.

**▼M1**

---

**▼B**

*Article 7*

This Directive is without prejudice to the provisions laid down in Council Regulation (EEC) No 315/68 (¹).

*Article 8*

1. Member States shall bring into force the laws, regulations or administrative provisions necessary to comply with this Directive not later than 31 December 1993. They shall forthwith inform the Commission thereof.

When Member States adopt these provisions, these shall contain a reference to this Directive or shall be accompanied by such reference at the time of their official publication. The procedure for such reference shall be adopted by Member States.

2. Member States shall communicate to the Commission the text of the main provisions of domestic law which they adopt in the field covered by this Directive.

*Article 9*

This Directive is addressed to the Member States.
