

Commission Directive 93/62/EEC of 5 July 1993 setting out the implementing measures concerning the supervision and monitoring of suppliers and establishments pursuant to Council Directive 92/33/EEC on the marketing of vegetable propagating and planting material, other than seed

*Article 5*

As far as the taking of samples for analysis in an accredited laboratory as referred to in the third indent of Article 5 (2) of Directive 92/33/EEC is concerned, the responsible official body shall supervise and monitor the supplier to ensure, where appropriate, that:

- (a) samples are taken during the various stages of production at such intervals as are established by the responsible official body when the production methods were verified at the time of accreditation;
- (b) samples are taken in a technically correct manner and using a statistically reliable procedure, regard being had to the kind of analysis to be carried out;
- (c) the persons who take the samples are qualified to do so; and
- (d) the analysis of samples is carried out by a laboratory which is accredited for that purpose pursuant to Article 6 (2) of the said Directive.
