For the purposes of this Directive, ‘footwear’ shall mean all articles with applied soles designed to protect or cover the foot, including parts marketed separately as referred to in Annex I.

A non-exhaustive list of the products covered by the Directive appears in Annex II.

The following shall be excluded from the Directive:

- second-hand, worn footwear,
- protective footwear covered by Directive 89/686/EEC<sup>(1)</sup>,
- footwear covered by Directive 76/769/EEC<sup>(2)</sup>,
- toy footwear.

2 Information on the composition of footwear shall be conveyed by means of labelling as specified in Article 4.

- (i) The labelling shall convey information relating to the three parts of the footwear as defined in Annex I, namely:
  - (a) the upper;
  - (b) the lining and sock; and
  - (c) the outersole.
- (ii) The composition of the footwear shall be indicated as specified in Article 4 on the basis either of pictograms or of written indications for specific materials, as stipulated in Annex I.
- (iii) In the case of the upper, classification of the materials shall be determined on the basis of the provisions contained in Article 4 (1) and in Annex I, no account being taken of accessories or reinforcements such as ankle patches, edging, ornamentation, buckles, tabs, eyelet stays or similar attachments.
- (iv) In the case of the outersole, classification shall be based on the volume of the materials contained therein, in accordance with Article 4.

*Article 2*

1 Member States shall take all necessary measures to ensure that all footwear placed on the market meets the labelling requirements of this Directive without prejudice to other relevant Community provisions.

2 Where footwear not in conformity with the provisions regarding labelling requirements is placed on the market, the competent Member State shall take appropriate action as specified in its national legislation.

### Article 3

Without prejudice to other relevant Community provisions, Member States shall not prohibit or impede the placing on the market of footwear which complies with the labelling requirements of this Directive, by the application of unharmonized national provisions governing the labelling of certain types of footwear or of footwear in general.

### Article 4

1 The labelling shall provide information on the material, determined in accordance with Annex I, which constitutes at least 80 % of the surface area of the upper, and the lining and sock, of the footwear, and at least 80 % of the volume of the outersole. If no one material accounts for at least 80 %, information should be given on the two main materials used in the composition of the footwear.

2 The information shall be conveyed on the footwear. The manufacturer or his authorized agent established in the Community may choose either pictograms or written indications in at least the language or languages which may be determined by the Member State of consumption in accordance with the Treaty, as defined and illustrated in Annex I. Member States, in their national provisions shall ensure that consumers are adequately informed of the meaning of these pictograms, while ensuring that such provisions do not create trade barriers.

3 For the purpose of this Directive, labelling shall involve affixing the required information to at least one article of footwear in each pair. This may be done by printing, sticking, embossing or using an attached label.

4 The labelling must be visible, securely attached and accessible and the dimensions of the pictograms must be sufficiently large to make it easy to understand the information contained therein. It must not be possible for the labelling to mislead the consumer.

5 The manufacturer or his authorized agent established in the Community shall be responsible for supplying the label and for the accuracy of the information contained therein. If neither the manufacturer nor his authorized agent is established in the Community, this obligation shall fall on the person responsible for first placing the footwear on the Community market. The retailer shall remain responsible for ensuring that the footwear sold by him bears the appropriate labelling prescribed by this Directive.

### Article 5

Additional textual information, affixed, should the need arise, to the labelling may accompany the information required under this Directive. However, Member States may not prohibit or impede the placing on the market of footwear conforming to the requirements of this Directive, in accordance with Article 3.
