

COMMISSION DIRECTIVE 96/64/EC

of 2 October 1996

adapting to technical progress Council Directive 77/389/EEC on the approximation of the laws of the Member States relating to motor vehicle towing devices

(Text with EEA relevance)

THE COMMISSION OF THE EUROPEAN COMMUNITIES,

Having regard to the Treaty establishing the European Community,

Having regard to Council Directive 77/389/EEC of 17 May 1977 on the approximation of the laws of the Member States relating to motor vehicle towing-devices⁽¹⁾, and in particular Article 4 thereof,

Whereas Directive 77/389/EEC is one of the separate directives of the EC type-approval procedure which has been established by Directive 70/156/EEC⁽²⁾, as last amended by Directive 96/27/EC⁽³⁾; whereas, consequently, the provisions laid down in Directive 70/156/EEC relating to vehicle systems, components and separate technical units apply to this Directive;

Whereas, in particular, Articles 3 (4) and 4 (3) of Directive 70/156/EEC necessitate that each separate Directive has attached to it an information document incorporating the relevant items of Annex I to that Directive and also a type-approval certificate based on Annex VI thereto in order that type-approval may be computerized;

Whereas these amendments relate only to the administrative provisions contained in the Directive; whereas it is not necessary therefore to invalidate existing approvals to the Directive nor to prevent the registration, sale and entry into service of new vehicles covered by such approvals;

Whereas the measures provided for in this Directive are in accordance with the opinion of the Committee for Adaptation to Technical Progress established by Directive 70/156/EEC,
