

Directive 2000/59/EC of the European Parliament and of the
Council of 27 November 2000 on port reception facilities
for ship-generated waste and cargo residues (repealed)

Article 5

Waste reception and handling plans

1 An appropriate waste reception and handling plan shall be developed and implemented for each port following consultations with the relevant parties, in particular with port users or their representatives, having regard to the requirements of Articles 4, 6, 7, 10 and 12. Detailed requirements for the development of such plans are set out in Annex I.

2 The waste reception and handling plans referred to in paragraph 1 may, where required for reasons of efficiency, be developed in a regional context with the appropriate involvement of each port, provided that the need for, and availability of, reception facilities are specified for each individual port.

3 Member States shall evaluate and approve the waste reception and handling plan, monitor its implementation and ensure its re-approval at least every three years and after significant changes in the operation of the port.
