THE EUROPEAN PARLIAMENT AND THE COUNCIL OF THE EUROPEAN UNION,

Having regard to the Treaty establishing the European Economic Community, and in particular Articles 44 and 95 thereof,

Having regard to the proposal from the Commission,

Having regard to the Opinion of the Economic and Social Committee⁽¹⁾,

Acting in accordance with the procedure laid down in Article 251 of the Treaty⁽²⁾,

Whereas:

- (1) Council Directive 79/279/EEC of 5 March 1979 coordinating the conditions for the admission of securities to official stock exchange listing⁽³⁾, Council Directive 80/390/EEC of 17 March 1980 coordinating the requirements for the drawing up, scrutiny and distribution of the listing particulars to be published for the admission of securities to official stock exchange listing⁽⁴⁾, Council Directive 82/121/EEC of 15 February 1982 on information to be published on a regular basis by companies the shares of which have been admitted to official stock-exchange listing⁽⁵⁾ and Council Directive 88/627/EEC of 12 December 1988 on the information to be published when a major holding in a listed company is acquired or disposed of⁽⁶⁾ have been substantially amended several times. In the interests of clarity and rationality, the said Directives should therefore be codified by grouping them together in a single text.
- (2) The coordination of the conditions for the admission of securities to official listing on stock exchanges situated or operating in the Member States is likely to provide equivalent protection for investors at Community level, because of the more uniform guarantees offered to investors in the various Member States, it will facilitate both the admission to official stock exchange listing, in each such State, of securities from other Member States and the listing of any given security on a number of stock exchanges in the Community; it will accordingly make for greater interpenetration of national securities markets by removing those obstacles that may prudently be removed and therefore contribute to the prospect of establishing a European capital market.
- (3) Such coordination must therefore apply to securities, independently of the legal status of their issuers, and must therefore also apply to securities issued by non-member States or their regional or local authorities or international public bodies; this Directive therefore covers entities not covered by the second paragraph of Article 48 of the Treaty.
- (4) There should be the possibility of a right to apply to the courts against decisions by the competent national authorities in respect of the application of this Directive, concerning the admission of securities to official listing, although such right to apply must not be allowed to restrict the discretion of these authorities.

Status: EU Directives are being published on this site to aid cross referencing from UK legislation. After IP completion day (31 December 2020 11pm) no further amendments will be applied to this version.

- (5) Initially, this coordination of the conditions for admission of securities to official listing should be sufficiently flexible to enable account to be taken of present differences in the structures of securities markets in the Member States and to enable the Member States to take account of any specific situations with which they may be confronted.
- (6) For this reason, coordination should first be limited to the establishment of minimum conditions for the admission of securities to official listing on stock exchanges situated or operating in the Member States, without however giving issuers any right to listing.
- (7) This partial coordination of the conditions for admission to official listing constitutes a first step towards subsequent closer alignment of the rules of Member States in this field.
- (8) The market in which undertakings operate has been enlarged to embrace the whole Community and this enlargement involves a corresponding increase in their financial requirements and extension of the capital markets on which they must call to satisfy them; admission to official listing on stock exchanges of Member States of securities issued by undertakings constitutes an important means of access to these capital markets; furthermore exchange restrictions on the purchase of securities traded on the stock exchanges of another Member State have been eliminated as part of the liberalisation of capital movements.
- (9) Safeguards for the protection of the interests of actual and potential investors are required in most Member States of undertakings offering their securities to the public, either at the time of their offer or of their admission to official stock exchange listing; such safeguards require the provision of information which is sufficient and as objective as possible concerning the financial circumstances of the issuer and particulars of the securities for which admission to official listing is requested; the form under which this information is required usually consists of the publication of listing particulars.
- (10) The safeguards required differ from Member State to Member State, both as regards the contents and the layout of the listing particulars and the efficacy, methods and timing of the check on the information given therein; the effect of these differences is not only to make it more difficult for undertakings to obtain admission of securities to official listing on stock exchanges of several Member States but also to hinder the acquisition by investors residing in one Member State of securities listed on stock exchanges of other Member States and thus to inhibit the financing of the undertakings and investment throughout the Community.
- (11) These differences should be eliminated by coordinating the rules and regulations without necessarily making them completely uniform, in order to achieve an adequate degree of equivalence in the safeguards required in each Member State to ensure the provision of information which is sufficient and as objective as possible for actual or potential security holders.
- (12) Such coordination must apply to securities independently of the legal status of the issuing undertaking; this Directive applies to entities to which no reference is made in the second paragraph of Article 48 of the Treaty.

Status: EU Directives are being published on this site to aid cross referencing from UK legislation. After IP completion day (31 December 2020 11pm) no further amendments will be applied to this version.

- (13) Mutual recognition of listing particulars to be published for the admission of securities to official listing represents an important step forward in the creation of the Community's internal market.
- (14) In this connection, it is necessary to specify which authorities are competent to check and approve listing particulars to be published for the admission of securities to official listing in the event of simultaneous applications for admission to official listing in two or more Member States.
- (15) Article 21 of Council Directive 89/298/EEC of 17 April 1989 coordinating the requirements for the drawing-up, scrutiny and distribution of the prospectus to be published when transferable securities are offered to the public⁽⁷⁾ provides that where public offers are made simultaneously or within short intervals of one another in two or more Member States, a public-offer prospectus drawn up and approved in accordance with Article 7, 8 or 12 of that Directive must be recognised as a public-offer prospectus in the other Member States concerned on the basis of mutual recognition.
- (16) It is also desirable to provide the recognition of a public-offer prospectus as listing particulars where admission to official stock-exchange listing is requested within a short period of the public offer.
- (17) The mutual recognition of a public-offer prospectus and admission to official listings does not in itself confer a right to admissions.
- (18) It is advisable to provide for the extension, by means of agreements to be concluded by the Community with non-member countries, of the recognition of listing particulars for admission to official listings from those countries on a reciprocal basis.
- (19) It seems appropriate to provide for the possibility for the Member State in which admission to official listing is sought in certain cases to grant partial or complete exemption from the obligation to publish listing particulars for admission to official listings to issuers the securities of which have already been admitted to official stock-exchange listing in another Member State.
- (20) Companies which have already been listed in the Community for some time and are of high quality and international standing are the most likely candidates for cross-border listing. Those companies are generally well known in most Member States: information concerning them is widely circulated and available.
- (21) The aim of this Directive is to ensure that sufficient information is provided for investors; therefore, when such a company seeks to have its securities admitted to listing in a host Member State, investors operating on the market in that country may be sufficiently protected by receiving only simplified information rather than full listing particulars.
- (22) Member States may find it useful to establish non-discriminatory minimum quantitative criteria, such as the current equity market capitalisation, which issuers must fulfil to be eligible to benefit from the possibilities for exemption provided for in this Directive; given the increasing integration of securities markets, it should equally be open to the competent authorities to give smaller companies similar treatment.

Status: EU Directives are being published on this site to aid cross referencing from UK legislation. After IP completion day (31 December 2020 11pm) no further amendments will be applied to this version.

- (23) Furthermore, many stock exchanges have second-tier markets in order to deal in shares of companies not admitted to official listing; in some cases the second-tier markets are regulated and supervised by authorities recognised by public bodies that impose on companies disclosure requirements equivalent in substance to those imposed on officially listed companies; therefore, the principle underlying Article 23 of this Directive could also be applied when such companies seek to have their securities admitted to official listing.
- (24) In order to protect investors the documents intended to be made available to the public must first be sent to the competent authorities in the Member State in which admission to official listing is sought; it is for that Member State to decide whether those documents should be scrutinised by its competent authorities and to determine, if necessary, the nature and the manner in which that scrutiny should be carried out.
- (25) In the case of securities admitted to official stock-exchange listing, the protection of investors requires that the latter be supplied with appropriate regular information throughout the entire period during which the securities are listed; coordination of requirements for this regular information has similar objectives to those envisaged for the listing particulars, namely to improve such protection and to make it more equivalent, to facilitate the listing of these securities on more than one stock exchange in the Community, and in so doing to contribute towards the establishment of a genuine Community capital market by permitting a fuller interpenetration of securities markets.
- (26) Under this Directive, listed companies must as soon as possible make available to investors their annual accounts and report giving information on the company for the whole of the financial year; whereas the Fourth Council Directive 78/660/EEC⁽⁸⁾ has coordinated the laws, regulations and administrative provisions of the Member States concerning the annual accounts of certain types of companies.
- (27) Companies should also, at least once during each financial year, make available to investors reports on their activities; this Directive can, consequently, be confined to coordinating the content and distribution of a single report covering the first six months of the financial year.
- (28) However, in the case of ordinary debentures, because of the rights they confer on their holders, the protection of investors by means of the publication of a half-yearly report is not essential; by virtue of this Directive, convertible or exchangeable debentures and debentures with warrants may be admitted to official listing only if the related shares are already listed on the same stock exchange or on another regulated, regularly operating, recognised open market or are so admitted simultaneously; the Member States may derogate from this principle only if their competent authorities are satisfied that holders have at their disposal all the information necessary to form an opinion concerning the value of the shares to which these debentures relate; consequently, regular information needs to be coordinated only for companies whose shares are admitted to official stock-exchange listing.
- (29) The half-yearly report must enable investors to make an informed appraisal of the general development of the company's activities during the period covered by the report;

Status: EU Directives are being published on this site to aid cross referencing from UK legislation. After IP completion day (31 December 2020 11pm) no further amendments will be applied to this version.

however, this report need contain only the essential details on the financial position and general progress of the business of the company in question.

- (30) So as to ensure the effective protection of investors and the proper operation of stock exchanges, the rules relating to regular information to be published by companies, the shares of which are admitted to official stock-exchange listing within the Community, should apply not only to companies from Member States, but also to companies from non-member countries.
- (31) A policy of adequate information of investors in the field of transferable securities is likely to improve investor protection, to increase investors' confidence in securities markets and thus to ensure that securities markets function correctly.
- (32) By making such protection more equivalent, coordination of that policy at Community level is likely to make for greater inter-penetration of the Member States' transferable securities markets and therefore help to establish a true European capital market.
- (33) To that end investors should be informed of major holdings and of changes in those holdings in Community companies the shares of which are officially listed on stock exchanges situated or operating within the Community.
- (34) Coordinated rules should be laid down concerning the detailed content and the procedure for applying that requirement.
- (35) Companies, the shares of which are officially listed on a Community stock exchange, can inform the public of changes in major holdings only if they have been informed of such changes by the holders of those holdings.
- (36) Most Member States do not subject holders to such a requirement and where such a requirement exists there are appreciable differences in the procedures for applying it; coordinated rules should therefore be adopted at Community level in this field.
- (37) This Directive should not affect the obligations of the Member States concerning the deadlines for transposition set out in Annex II, Part B,

DEFINITIONS AND SCOPE OF APPLICATION

CHAPTER I

Definitions

Article 1

For the purposes of this Directive:

- (a) ‘issuers’ shall mean companies and other legal persons and any undertaking whose securities are the subject of an application for admission to official listing on a stock exchange;
- (b) ‘collective investment undertakings other than the closed-end type’ shall mean unit trusts and investment companies:
 - (i) the object of which is the collective investment of capital provided by the public, and which operate on the principle of risk spreading, and
 - (ii) the units of which are, at the holders' request, repurchased or redeemed, directly or indirectly, out of the assets of these undertakings. Action taken by such undertakings to ensure that the stock exchange value of its units does not significantly vary from their net asset value shall be regarded as equivalent to such repurchase or redemption;
- (c) For the purposes of this Directive ‘investment companies other than those of the closed-end type’ shall mean investment companies:
 - (i) the object of which is the collective investment of capital provided by the public, and which operate on the principle of risk spreading, and
 - (ii) the shares of which are, at the holders' request, repurchased or redeemed, directly or indirectly, out of those companies' assets. Action taken by such companies to ensure that the stock exchange value of their shares does not significantly vary from their net asset value shall be regarded as equivalent to such repurchase or redemption;
- (d) ‘credit institution’ shall mean an undertaking whose business is to receive deposits or other repayable funds from the public and to grant credits for its own account;
- (e) ‘units of a collective investment undertaking’ shall mean securities issued by a collective investment undertaking as representing the rights of participants in the assets of such an undertaking;
- (f) ‘participating interest’ shall mean rights in the capital of other undertakings, whether or not represented by certificates, which, by creating a durable link with those undertakings, are intended to contribute to the activities of the undertaking which holds these rights^[F5];

TITLE II

GENERAL PROVISIONS CONCERNING THE OFFICIAL LISTING OF SECURITIES

CHAPTER I

General conditions for admission

Article 5

Member States shall ensure that:

- (a) securities may not be admitted to official listing on any stock exchange situated or operating within their territory unless the conditions laid down by this Directive are satisfied, and
- (b) that issuers of securities admitted to such official listing, regardless of the date on which this admission takes place, are subject to the obligations provided for by this Directive.

Article 6

1 The admission of securities to official listing shall be subject to the conditions set out in Articles 42 to 51, or 52 to 63, relating to shares and debt securities respectively.

F32

3 Certificates representing shares may be admitted to official listing only if the issuer of the shares represented fulfils the conditions set out in Articles 42 to 44 and the obligations set out in Articles 64 to 69 and if the certificates fulfil the conditions set out in Articles 45 to 50.

Textual Amendments

- F3 Deleted by [Directive 2004/109/EC of the European Parliament and of the Council of 15 December 2004 on the harmonisation of transparency requirements in relation to information about issuers whose securities are admitted to trading on a regulated market and amending Directive 2001/34/EC.](#)

Article 7

Member States may not make the admission to official listing of securities issued by companies or other legal persons which are nationals of another Member State subject to the condition that the securities must already have been admitted to official listing on a stock exchange situated or operating in one of the Member States.

CHAPTER II

More stringent or additional conditions and obligations

Article 8

1 Subject to the prohibitions provided for in Article 7 and in Articles 42 to 63, the Member States may make the admission of securities to official listing subject to more stringent conditions than those set out in Articles 42 to 63 or to additional conditions, provided that these

more stringent and additional conditions apply generally for all issuers or for individual classes of issuer and that they have been published before application for admission of such securities is made.

[^{F52} Member States may make the issuers of securities admitted to official listing subject to additional obligations, provided that those additional obligations apply generally for all issuers or for individual classes of issuers.]

3 Member States may, under the same conditions as those laid down in Article 9, authorise derogations from the additional or more stringent conditions and obligations referred to in paragraphs 1 and 2 hereof.

4 Member States may, in accordance with the applicable national rules require issuers of securities admitted to official listing to inform the public on a regular basis of their financial position and the general course of their business.

Textual Amendments

F5 Substituted by [Directive 2004/109/EC of the European Parliament and of the Council of 15 December 2004 on the harmonisation of transparency requirements in relation to information about issuers whose securities are admitted to trading on a regulated market and amending Directive 2001/34/EC](#).

CHAPTER III

Derogations

Article 9

Any derogations from the conditions for the admission of securities to official listing which may be authorised in accordance with Articles 42 to 63 must apply generally for all issuers where the circumstances justifying them are similar.

Article 10

Member States may decide not to apply the conditions set out in Articles 52 to 63 and the obligations set out in Article 81(1) and (3) in respect of applications for admission to official listing of debt securities issued by companies and other legal persons which are nationals of a Member State and which are set up by, governed by or managed pursuant to a special law where repayments and interest payments in respect of those securities are guaranteed by a Member State or one of its federal states.

CHAPTER IV

Powers of the national competent authorities

Section 1

Decision of admission

Article 11

1 The competent authorities referred to in Article 105 shall decide on the admission of securities to official listing on a stock exchange situated or operating within their territories.

2 Without prejudice to the other powers conferred upon them, the competent authorities may reject an application for the admission of a security to official listing if, in their opinion, the issuer's situation is such that admission would be detrimental to investors' interests.

Article 12

By way of derogation from Article 8, Member States may, solely in the interests of protecting the investors, give the competent authorities power to make the admission of a security to official listing subject to any special condition which the competent authorities consider appropriate and of which they have explicitly informed the applicant.

Article 13

1 Where applications are to be made simultaneously or within short intervals of one another for admission of the same securities to official listing on stock exchanges situated or operating in more than one Member State, or where an application for admission is made in respect of a security already listed on a stock exchange in another Member State, the competent authorities shall communicate with each other and make such arrangements as may be necessary to expedite the procedure and simplify as far as possible the formalities and any additional conditions required for admission of the security concerned.

2 In order to facilitate the work of the competent authorities, any application for the admission of a security to official listing on a stock exchange situated or operating in a Member State must state whether a similar application is being or has been made in another Member State, or will be made in the near future.

Article 14

The competent authorities may refuse to admit to official listing a security already officially listed in another Member State where the issuer fails to comply with the obligations resulting from admission in that Member State.

Article 15

Where an application for admission to official listing relates to certificates representing shares, the application shall be considered only if the competent authorities are of the opinion that the issuer of the certificates is offering adequate safeguards for the protection of investors.

Section 2

Information requested by the competent authorities

Article 16

1 An issuer whose securities are admitted to official listing shall provide the competent authorities with all the information which the latter consider appropriate in order to protect investors or ensure the smooth operation of the market.

2 Where protection of investors or the smooth operation of the market so requires, an issuer may be required by the competent authorities to publish such information in such a form and within such time limits as they consider appropriate. Should the issuer fail to comply with such requirement, the competent authorities may themselves publish such information after having heard the issuer.

Section 3

Action against an issuer failing to comply with the obligations resulting from admission

Article 17

Without prejudice to any other action or penalties which they may contemplate in the event of failure on the part of the issuer to comply with the obligations resulting from admission to official listing, the competent authorities may make public the fact that an issuer is failing to comply with those obligations.

Section 4

Suspension and discontinuance

Article 18

1 The competent authorities may decide to suspend the listing of a security where the smooth operation of the market is, or may be, temporarily jeopardised or where protection of investors so requires.

2 The competent authorities may decide that the listing of the security be discontinued where they are satisfied that, owing to special circumstances, normal regular dealings in a security are no longer possible.

Section 5

Right to apply to the courts in case of refusal of admission or discontinuance

Article 19

1 Member States shall ensure decisions of the competent authorities refusing the admission of a security to official listing or discontinuing such a listing shall be subject to the right to apply to the courts.

2 An applicant shall be notified of a decision regarding his application for admission to official listing within six months of receipt of the application or, should the competent authority

require any further information within that period, within six months of the applicant's supplying such information.

3 Failure to give a decision within the time limit specified in paragraph 2 shall be deemed a rejection of the application. Such rejection shall give rise to the right to apply to the courts provided for in paragraph 1.

CHAPTER II

Specific conditions for the admission of shares

Section 1

**Conditions relating to companies for the shares
of which admission to official listing is sought**

Article 42

The legal position of the company must be in conformity with the laws and Regulations to which it is subject, as regards both its formation and its operation under its statutes.

Article 43

- 1 The foreseeable market capitalisation of the shares for which admission to official listing is sought or, if this cannot be assessed, the company's capital and reserves, including profit or loss, from the last financial year, must be at least one million euro.
- 2 Member States may provide for admission to official listing, even when this condition is not fulfilled, provided that the competent authorities are satisfied that there will be an adequate market for the shares concerned.
- 3 A higher foreseeable market capitalisation or higher capital and reserves may be required by a Member State for admission to official listing only if another regulated, regularly

Status: EU Directives are being published on this site to aid cross referencing from UK legislation. After IP completion day (31 December 2020 11pm) no further amendments will be applied to this version.

operating, recognised open market exists in that State and the requirements for it are equal to or less than those referred to in paragraph 1.

4 The condition set out in paragraph 1 shall not be applicable for the admission to official listing of a further block of shares of the same class as those already admitted.

5 The equivalent in national currency of one million euro shall initially be the equivalent in national currency of one million European units of account that were applicable on 5 March 1979.

6 If, as a result of adjustment of the equivalent of the euro in national currency, the market capitalisation expressed in national currency remains for a period of one year at least 10 % more or less than the value of one million euro the Member state must, within the 12 months following the expiry of that period, adjust its laws, regulations or administrative provisions to comply with paragraph 1.

Article 44

A company must have published or filed its annual accounts in accordance with national law for the three financial years preceding the application for official listing. By way of exception, the competent authorities may derogate from this condition where such derogation is desirable in the interests of the company or of investors and where the competent authorities are satisfied that investors have the necessary information available to be able to arrive at an informed judgement on the company and the shares for which admission to official listing is sought.

Section 2

Conditions relating to the shares for which admission is sought

Article 45

The legal position of the shares must be in conformity with the laws and regulations to which they are subject.

Article 46

1 The shares must be freely negotiable.

2 The competent authorities may treat shares which are not fully paid up as freely negotiable, if arrangements have been made to ensure that the negotiability of such shares is not restricted and that dealing is made open and proper by providing the public with all appropriate information.

3 The competent authorities may, in the case of the admission to official listing of shares which may be acquired only subject to approval, derogate from paragraph 1 only if the use of the approval clause does not disturb the market.

Article 47

Where public issue precedes admission to official listing, the first listing may be made only after the end of the period during which subscription applications may be submitted.

Status: EU Directives are being published on this site to aid cross referencing from UK legislation. After IP completion day (31 December 2020 11pm) no further amendments will be applied to this version.

Article 48

1 A sufficient number of shares must be distributed to the public in one or more Member States not later than the time of admission.

2 The condition set out in paragraph 1 shall not apply where shares are to be distributed to the public through the stock exchange. In that event, admission to official listing may be granted only if the competent authorities are satisfied that a sufficient number of shares will be distributed through the stock exchange within a short period.

3 Where admission to official listing is sought for a further block of shares of the same class, the competent authorities may assess whether a sufficient number of shares has been distributed to the public in relation to all the shares issued and not only in relation to this further block.

4 By way of derogation from paragraph 1, if the shares are admitted to official listing in one or more non-member countries, the competent authorities may provide for their admission to official listing if a sufficient number of shares is distributed to the public in the non-Member State or States where they are listed.

5 A sufficient number of shares shall be deemed to have been distributed either when the shares in respect of which application for admission has been made are in the hands of the public to the extent of a least 25 % of the subscribed capital represented by the class of shares concerned or when, in view of the large number of shares of the same class and the extent of their distribution to the public, the market will operate properly with a lower percentage.

Article 49

1 The application for admission to official listing must cover all the shares of the same class already issued.

2 Member States may provide that this condition shall not apply to applications for admission not covering all the shares of the same class already issued where the shares of that class for which admission is not sought belong to blocks serving to maintain control of the company or are not negotiable for a certain time under agreements, provided that the public is informed of such situations and that there is no danger of such situations prejudicing the interests of the holders of the shares for which admission to official listing is sought.

Article 50

1 For the admission to official listing of shares issued by companies which are nationals of another Member State and which shares have a physical form it is necessary and sufficient that their physical form comply with the standards laid down in that other Member State. Where the physical form does not conform to the standards in force in the Member State in which admission to official listing is applied for, the competent authorities of that state shall make that fact known to the public.

2 The physical form of shares issued by companies which are nationals of a non-member country must afford sufficient safeguard for the protection of the investors.

Article 51

If the shares issued by a company which is a national of a non-member country are not listed in either the country of origin or in the country in which the major proportion of the shares is held, they may not be admitted to official listing unless the competent authorities are satisfied that the absence of a listing in the country of origin or in the country in which the major proportion is held is not due to the need to protect investors.

CHAPTER III

Particular conditions relating to the admission to official listing of debt securities issued by an undertaking

Section 1

Conditions relating to undertakings for the debt securities of which admission to official listing is sought

Article 52

The legal position of the undertaking must be in conformity with the laws and regulations to which it is subject, as regards both its formation and its operation under its statutes.

Section 2

Conditions relating to the debt securities for which admission to official listing is sought

Article 53

The legal position of the debt securities must be in conformity with the laws and regulations to which they are subject.

Article 54

- 1 The debt securities must be freely negotiable.
- 2 The competent authorities may treat debt securities which are not fully paid up as freely negotiable if arrangements have been made to ensure that the negotiability of these debt securities is not restricted and that dealing is made open and proper by providing the public with all appropriate information.

Article 55

Where public issue precedes admission to official listing, the first listing may be made only after the end of the period during which subscription applications may be submitted. This provision shall not apply in the case of tap issues of debt securities when the closing date for subscription is not fixed.

Article 56

The application for admission to official listing must cover all debt securities ranking *pari passu*.

Article 57

- 1 For the admission to official listing of debt securities issued by undertakings which are nationals of another Member State and which debt securities have a physical form, it is necessary and sufficient that their physical form comply with the standards laid down in that other Member State. Where the physical form does not conform to the standards in force in the Member State in which admission to official listing is applied for, the competent authorities of that State shall make that fact known to the public.

Status: EU Directives are being published on this site to aid cross referencing from UK legislation. After IP completion day (31 December 2020 11pm) no further amendments will be applied to this version.

2 The physical form of debt securities issued in a single Member State must conform to the standards in force in that State.

3 The physical form of debt securities issued by undertakings which are nationals of a non-member country must afford sufficient safeguard for the protection of the investors.

Section 3

Other conditions

Article 58

1 The amount of the loan may not be less than EUR 200 000. This provision shall not be applicable in the case of tap issues where the amount of the loan is not fixed.

2 Member States may provide for admission to official listing even when this condition is not fulfilled, where the competent authorities are satisfied that there will be a sufficient market for the debt securities concerned.

3 The equivalent in national currency of EUR 200 000 shall initially be the equivalent in national currency of 200 000 units of account that were applicable on 5 March 1979.

4 If as a result of adjustment of the equivalent of the euro in national currency the minimum amount of the loan expressed in national currency remains, for a period of one year, at least 10 % less than the value of EUR 200 000 the Member State must, within the 12 months following the expiry of that period, amend its laws, regulations and administrative provisions to comply with paragraph 1.

Article 59

1 Convertible or exchangeable debentures and debentures with warrants may be admitted to official listing only if the related shares are already listed on the same stock exchange or on another regulated, regularly operating, recognised open market or are so admitted simultaneously.

2 Member States may, by way of derogation from paragraph 1, provide for the admission to official listing of convertible or exchangeable debentures or debentures with warrants, if the competent authorities are satisfied that holders have at their disposal all the information necessary to form an opinion concerning the value of the shares to which these debt securities relate.

CHAPTER IV

Particular conditions relating to the admission to official listing of Debt securities issued by a State, its regional or local authorities or a public international body

Article 60

The debt securities must be freely negotiable.

Article 61

Where public issue precedes admission to official listing, the first listing may be made only after the end of the period during which subscription applications may be

Status: EU Directives are being published on this site to aid cross referencing from UK legislation. After IP completion day (31 December 2020 11pm) no further amendments will be applied to this version.

submitted. This provision shall not apply where the closing date for subscription is not fixed.

Article 62

The application for admission to official listing must cover all the securities ranking *pari passu*.

Article 63

1 For the admission to official listing of debt securities which are issued by a Member State or its regional or local authorities in a physical form, it is necessary and sufficient that such physical form comply with the standards in force in that Member State. Where the physical form does not comply with the standards in force in the Member State where admission to official listing is applied for, the competent authorities of that state shall bring this situation to the attention of the public.

2 The physical form of debt securities issued by non-member countries or their regional or local authorities or by public international bodies must afford sufficient safeguard for the protection of the investors.

TITLE IV

OBLIGATIONS RELATING TO SECURITIES ADMITTED TO OFFICIAL LISTING

CHAPTER I

Obligations of companies whose shares are admitted to official listing

Section 1

Listing of newly issued shares of the same class

Article 64

Without prejudice to Article 49(2), in the case of a new public issue of shares of the same class as those already officially listed, the company shall be required, where the new shares are not automatically admitted, to apply for their admission to the same listing, either not more than a year after their issue or when they become freely negotiable.

TITLE VI

**COMPETENT AUTHORITIES AND
COOPERATION BETWEEN MEMBER STATES**

Article 105

- 1 Member States shall ensure that this Directive is applied and shall appoint one or more competent authorities for the purposes of the Directive. They shall notify the Commission thereof, giving details of any division of powers among them.
- 2 Member States shall ensure that the competent authorities have the powers necessary for them to carry out their task.
- 3 This Directive shall not affect the competent authorities' liability, which shall continue to be governed solely by national law.

Article 106

The competent authorities shall cooperate whenever necessary for the purpose of carrying out their duties and shall exchange any information useful for that purpose.

Article 107

- 1 Member States shall provide that all persons employed or formerly employed by the competent authorities shall be bound by professional secrecy. This means that any confidential information received in the course of their duties may not be divulged to any person or authority except by virtue of provisions laid down by law.
- 2 Paragraph 1 shall not, however, preclude the competent authorities of the various Member States from exchanging information as provided for in this Directive. Information thus exchanged shall be covered by the obligation of professional secrecy to which the persons employed or formerly employed by the competent authorities receiving the information are subject.
