

Directive 2003/87/EC of the European Parliament and of the Council of 13 October 2003 establishing a scheme for greenhouse gas emission allowance trading within the Community and amending Council Directive 96/61/EC (Text with EEA relevance)

Article 1	Subject matter
Article 2	Scope
Article 3	Definitions
Article 4	Greenhouse gas emissions permits
Article 5	Applications for greenhouse gas emissions permits
Article 6	Conditions for and contents of the greenhouse gas emissions permit
Article 7	Changes relating to installations
Article 8	Coordination with Directive 96/61/EC
Article 9	National allocation plan
Article 10	Method of allocation
Article 11	Allocation and issue of allowances
Article 12	Transfer, surrender and cancellation of allowances
Article 13	Validity of allowances
Article 14	Guidelines for monitoring and reporting of emissions
Article 15	Verification
Article 16	Penalties
Article 17	Access to information
Article 18	Competent authority
Article 19	Registries
Article 20	Central Administrator
Article 21	Reporting by Member States
Article 22	Amendments to Annex III
Article 23	Committee
Article 24	Procedures for unilateral inclusion of additional activities and gases
Article 25	Links with other greenhouse gas emissions trading schemes
Article 26	Amendment of Directive 96/61/EC
Article 27	Temporary exclusion of certain installations
Article 28	Pooling
Article 29	Force majeure
Article 30	Review and further development
Article 31	Implementation
Article 32	Entry into force
Article 33	Addressees Signature

ANNEX I

CATEGORIES OF ACTIVITIES REFERRED
TO IN ARTICLES 2(1), 3, 4, 14(1), 28 AND 30

1. Installations or parts of installations used for research, development and...

2. The threshold values given below generally refer to production capacities...

ANNEX II

GREENHOUSE GASES REFERRED TO IN ARTICLES 3 AND 30

Carbon dioxide (CO₂)
Methane (CH₄)
Nitrous Oxide (N₂O)
Hydrofluorocarbons (HFCs)
Perfluorocarbons (PFCs)
Sulphur Hexafluoride (SF₆)

ANNEX III

CRITERIA FOR NATIONAL ALLOCATION PLANS REFERRED TO IN ARTICLES 9, 22 AND 30

1. The total quantity of allowances to be allocated for the...
2. The total quantity of allowances to be allocated shall be...
3. Quantities of allowances to be allocated shall be consistent with...
4. The plan shall be consistent with other Community legislative and...
5. The plan shall not discriminate between companies or sectors in...
6. The plan shall contain information on the manner in which...
7. The plan may accommodate early action and shall contain information...
8. The plan shall contain information on the manner in which...
9. The plan shall include provisions for comments to be expressed...
10. The plan shall contain a list of the installations covered...
11. The plan may contain information on the manner in which...

ANNEX IV

PRINCIPLES FOR MONITORING AND REPORTING REFERRED TO IN ARTICLE 14(1)

Monitoring of carbon dioxide emissions

Calculation

Measurement

Monitoring of emissions of other greenhouse gases

Reporting of emissions

ANNEX V

CRITERIA FOR VERIFICATION REFERRED TO IN ARTICLE 15

General Principles

1. Emissions from each activity listed in Annex I shall be...
2. The verification process shall include consideration of the report pursuant...
3. Reported emissions may only be validated if reliable and credible...
4. The verifier shall be given access to all sites and...
5. The verifier shall take into account whether the installation is...

Methodology

Strategic analysis

6. The verification shall be based on a strategic analysis of...

Process analysis

7. The verification of the information submitted shall, where appropriate,
be...

Risk analysis

8. The verifier shall submit all the sources of emissions in...
9. On the basis of this analysis the verifier shall explicitly...
10. The verifier shall take into consideration any effective risk control...

Report

11. The verifier shall prepare a report on the validation process...

Minimum competency requirements for the verifier

12. The verifier shall be independent of the operator, carry out...
