Commission Directive 2005/46/EC of 8 July 2005 amending the Annexes to Council Directives 86/362/EEC, 86/363/EEC and 90/642/EEC as regards maximum residue levels for amitraz (Text with EEA relevance)

COMMISSION DIRECTIVE 2005/46/EC

of 8 July 2005

amending the Annexes to Council Directives 86/362/EEC, 86/363/ EEC and 90/642/EEC as regards maximum residue levels for amitraz

(Text with EEA relevance)

THE COMMISSION OF THE EUROPEAN COMMUNITIES,

Having regard to the Treaty establishing the European Community,

Having regard to Council Directive 86/362/EEC of 24 July 1986 on the fixing of maximum levels for pesticide residues in and on cereals⁽¹⁾ and in particular Article 10 thereof,

Having regard to Council Directive 86/363/EEC of 24 July 1986 on the fixing of maximum levels for pesticide residues in and on foodstuffs of animal origin⁽²⁾ and in particular Article 10 thereof,

Having regard to Council Directive 90/642/EEC of 27 November 1990 on fixing of maximum levels for pesticide residues in and on certain products of plant origin including fruit and vegetables⁽³⁾ and in particular Article 7 thereof,

Whereas:

- (1) For the existing active substance amitraz a decision was taken not to include it in Annex I to Council Directive 91/414/EEC⁽⁴⁾ by Commission Decision 2004/141/EC⁽⁵⁾. This Decision provides that plant protection products containing this active substance shall no longer be authorised for use in the Community except for a limited number of uses, where at the moment no alternatives are available (essential uses).
- (2) Decision 2004/141/EC allowed a phasing out period, and it is appropriate that maximum residue levels (MRLs) premised on the notion that use of the substance concerned is not authorised in the Community, should not apply until the end of the phasing out period applying to that substance.
- (3) For amitraz MRLs for residues resulting from veterinary medicinal uses have been set on animal products in the framework of Council Regulation (EC) No 2377/90⁽⁶⁾. It is appropriate to take these into account in this Directive.
- (4) Community MRLs and the levels recommended by the Codex Alimentarius⁽⁷⁾ are fixed and evaluated following similar procedures. There are a limited number of Codex MRLs for amitraz. These have been considered in the setting of the MRLs fixed in this Directive. Codex MRLs that will be recommended for withdrawal in the near future

were not taken into account. The MRLs based on Codex MRLs having been evaluated in the light of the risks for the consumers, no risk was established.

- (5) In order to ensure that the consumer is adequately protected from exposure to residues resulting from unauthorised uses of plant protection products, MRLs should be set for the relevant product/pesticide combinations at the lower limit of analytical determination.
- (6) It is therefore necessary to amend several of the pesticide residues arising from use of amitraz in the Annexes to Directives 86/362/EEC, 86/363/EEC and 90/642/EEC to allow for proper surveillance and control of the prohibition of their uses and to protect the consumer.
- (7) The relevant annexes to Directives 86/362/EEC, 86/363/EEC and 90/642/EEC should therefore be amended accordingly.
- (8) The measures provided for in this Directive are in accordance with the opinion of the Standing Committee on the Food Chain and Animal Health,

HAS ADOPTED THIS DIRECTIVE:

Article 1

In part A of Annex II to Directive 86/362/EEC the following row is replaced:

Pesticide residue	Maximum level in mg/kg
'Amitraz including the metabolites containing the 2,4-dimethylaniline moiety expressed as amitraz	0,05 ^a cereals
a Indicates lower limit of analytical determination.'	

Article 2

In part B of Annex II to Directive 86/363/EEC the following rows are replaced:

Pesticide residue	residue Maximum level (mg/kg)		
	Of meat, including fat, preparations of meat, offals and animal fats as listed in Annex I within CN code Nos 0201, 0202, 0203, 0204, 0205 00 00, 0206, 0207, ex 0208, 0209 00, 0210, 1601 00 and 1602	For milk and milk products listed in Annex 1 within CN code Nos 0401, 0402, 0405 00 and 0406	Of shelled fresh eggs, for bird's eggs and egg yolks listed in Annex 1 within CN code Nos 0407 00 and 0408

Indicates lower limit of analytical determination.'

Article 3

The maximum pesticide residue levels for amitraz in Annex II to Directive 90/642/EEC are replaced by those in the Annex to this Directive.

Article 4

1 Member States shall adopt and publish, by 9 January 2006 at the latest, the laws, regulations and administrative provisions necessary to comply with this Directive. They shall forthwith communicate to the Commission the text of those provisions and a correlation table between those provisions and this Directive.

They shall apply these provisions from 10 January 2007.

When Member States adopt those provisions, they shall contain a reference to this Directive or be accompanied by such a reference on the occasion of their official publication. Member States shall determine how such reference is to be made.

2 Member States shall communicate to the Commission the text of the main provisions of national law which they adopt in the field covered by this Directive.

Article 5

This Directive shall enter into force on the 20th day following its publication in the *Official Journal of the European Union*.

Article 6

This Directive is addressed to the Member States.

Done at Brussels, 8 July 2005.
