Article 111

[^{F1} A credit institution shall not incur an exposure, after taking into account the effect of the credit risk mitigation in accordance with Articles 112 to 117, to a client or group of connected clients the value of which exceeds 25 % of its own funds.

Where that client is an institution or where a group of connected clients includes one or more institutions, that value shall not exceed 25 % of the credit institution's own funds or EUR 150 million, whichever the higher, provided that the sum of exposure values, after taking into account the effect of the credit risk mitigation in accordance with Articles 112 to 117, to all connected clients that are not institutions does not exceed 25 % of the credit institution's own funds.

Where the amount of EUR 150 million is higher than 25 % of the credit institution's own funds, the value of the exposure, after taking into account the effect of credit risk mitigation in accordance with Articles 112 to 117, shall not exceed a reasonable limit in terms of the credit institution's own funds. That limit shall be determined by credit institutions, consistently with the policies and procedures referred to in Annex V, point 7, to address and control concentration risk, and shall not be higher than 100 % of the credit institution's own funds.

[^{F2}Member States may set a lower limit than EUR 150 million and shall inform EBA and the Commission thereof.]]

^{F3}₃

[^{F14} A credit institution shall at all times comply with the relevant limit laid down in paragraph 1. If, in an exceptional case, exposures exceed this limit, the value of the exposure shall be reported without delay to the competent authorities which may, where the circumstances warrant it, allow the credit institution a limited period of time in which to comply with the limit.
