

Council Directive 2007/33/EC of 11 June 2007 on the control
of potato cyst nematodes and repealing Directive 69/465/EEC

CHAPTER III

CONTROL MEASURES

Article 12

Member States shall notify in writing to the Commission and to the other Member States each year by 31 January at the latest, a list of all new varieties of potatoes which they have found by official testing to be resistant to potato cyst nematodes. They shall state the species, pathotypes, virulence groups or populations to which the varieties are resistant, the degree of resistance and the year of its determination.
