## ANNEX VI

## Programmes of measures (referred to in Articles 13(1) and 24)

- (1) Input controls: management measures that influence the amount of a human activity that is permitted.
- Output controls: management measures that influence the degree of perturbation of an ecosystem component that is permitted.
- (3) Spatial and temporal distribution controls: management measures that influence where and when an activity is allowed to occur.
- (4) Management coordination measures: tools to ensure that management is coordinated.
- (5) Measures to improve the traceability, where feasible, of marine pollution.
- (6) Economic incentives: management measures which make it in the economic interest of those using the marine ecosystems to act in ways which help to achieve the good environmental status objective.
- (7) Mitigation and remediation tools: management tools which guide human activities to restore damaged components of marine ecosystems.
- (8) Communication, stakeholder involvement and raising public awareness.
