

Directive 2008/56/EC of the European Parliament and of the Council of 17 June 2008 establishing a framework for community action in the field of marine environmental policy (Marine Strategy Framework Directive) (Text with EEA relevance)

CHAPTER I

GENERAL PROVISIONS

Article 1	Subject matter
Article 2	Scope
Article 3	Definitions
Article 4	Marine regions or subregions
Article 5	Marine strategies
Article 6	Regional cooperation
Article 7	Competent authorities

CHAPTER II

MARINE STRATEGIES: PREPARATION

Article 8	Assessment
Article 9	Determination of good environmental status
Article 10	Establishment of environmental targets
Article 11	Monitoring programmes
Article 12	Notifications and Commission's assessment

CHAPTER III

MARINE STRATEGIES: PROGRAMMES OF MEASURES

Article 13	Programmes of measures
Article 14	Exceptions
Article 15	Recommendations for Community action
Article 16	Notifications and Commission's assessment

CHAPTER IV

UPDATING, REPORTS AND PUBLIC INFORMATION

Article 17	Updating
Article 18	Interim reports
Article 19	Public consultation and information
Article 20	Commission reports
Article 21	Progress report on protected areas
Article 22	Community financing
Article 23	Review of this Directive

CHAPTER V

FINAL PROVISIONS

Article 24	Technical adaptations
Article 25	Regulatory Committee
Article 26	Transposition
Article 27	Entry into force
Article 28	Addressees

ANNEX I

Qualitative descriptors for determining good environmental status

- (1) Biological diversity is maintained. The quality and occurrence of habitats...
- (2) Non-indigenous species introduced by human activities are at levels that...
- (3) Populations of all commercially exploited fish and shellfish are within...
- (4) All elements of the marine food webs, to the extent...
- (5) Human-induced eutrophication is minimised, especially adverse effects thereof, such as...
- (6) Sea-floor integrity is at a level that ensures that the...
- (7) Permanent alteration of hydrographical conditions does not adversely affect marine...
- (8) Concentrations of contaminants are at levels not giving rise to...
- (9) Contaminants in fish and other seafood for human consumption do...
- (10) Properties and quantities of marine litter do not cause harm...
- (11) Introduction of energy, including underwater noise, is at levels that...
To determine the characteristics of good environmental status in a...

ANNEX II

Competent authorities

- (1) Name and address of the competent authority or authorities —...
- (2) Legal status of the competent authority or authorities — a...
- (3) Responsibilities — a brief description of the legal and administrative...
- (4) Membership — when the competent authority or authorities acts as...

- (5) Regional or subregional coordination — a summary is required of...

ANNEX III

Indicative lists of ecosystem elements, anthropogenic pressures and human activities relevant to the marine waters

Table 1 Structure, functions and processes of marine ecosystems with...

Notes related to Table 1

Note 1: An indicative list of relevant parameters and characteristics for species,...

Note 2: The numbers in this column refer to the respective numbered...

Note 3: Only the state-based qualitative descriptors (1), (3), (4) and (6)...

Note 4: These species groups are further specified in Part II of...

Note 5: These broad habitat types are further specified in Part II...

Notes related to Table 2

Note 1: Assessments of pressures should address their levels in the marine...

Note 2: The numbers in this column refer to the respective numbered...

Note 3: Only pressure-based qualitative descriptors (2), (3), (5), (6), (7), (8),...

ANNEX IV

Indicative list of characteristics to be taken into account for setting environmental targets

- (1) Adequate coverage of the elements characterising marine waters under the...
- (2) Need to set (a) targets establishing desired conditions based on...
- (3) Specification of environmental status to be achieved or maintained and...
- (4) Consistency of the set of targets; absence of conflicts between...
- (5) Specification of the resources needed for the achievement of targets....
- (6) Formulation of targets, including possible interim targets, with a timescale...
- (7) Specification of indicators intended to monitor progress and guide management...
- (8) Where appropriate, specification of reference points (target and limit reference...
- (9) Due consideration of social and economic concerns in the setting...
- (10) Examination of the set of environmental targets, associated indicators and...
- (11) Compatibility of targets with objectives to which the Community and...
- (12) When the set of targets and indicators has been assembled,...

ANNEX V

Monitoring programmes

- (1) Need to provide information for an assessment of the environmental...
- (2) Need to ensure the generation of information enabling the identification...
- (3) Need to ensure the generation of information allowing the assessment...
- (4) Need to include activities to identify the cause of the...
- (5) Need to provide information on chemical contaminants in species for...
- (6) Need to include activities to confirm that the corrective measures...
- (7) Need to aggregate the information on the basis of marine...
- (8) Need to ensure comparability of assessment approaches and methods within...
- (9) Need to develop technical specifications and standardised methods for monitoring...
- (10) Need to ensure, as far as possible, compatibility with existing...
- (11) Need to include, as part of the initial assessment provided...
- (12) Need to address, as part of the initial assessment provided...

ANNEX VI

Programmes of measures

- (1) Input controls: management measures that influence the amount of a...
- (2) Output controls: management measures that influence the degree of perturbation...
- (3) Spatial and temporal distribution controls: management measures that influence where...
- (4) Management coordination measures: tools to ensure that management is coordinated...
- (5) Measures to improve the traceability, where feasible, of marine pollution....
- (6) Economic incentives: management measures which make it in the economic...
- (7) Mitigation and remediation tools: management tools which guide human activities...
- (8) Communication, stakeholder involvement and raising public awareness.

Status: EU Directives are being published on this site to aid cross referencing from UK legislation. After IP completion day (31 December 2020 11pm) no further amendments will be applied to this version.
