

Council Directive 2008/90/EC of 29 September 2008 on the marketing of fruit plant propagating material and fruit plants intended for fruit production (Recast version)

CHAPTER 4

VARIETY IDENTIFICATION AND LABELLING

Article 9

Labelling

1 Propagating material and fruit plants shall be marketed only in sufficiently homogeneous lots and if they are:

- a qualified as CAC material and accompanied by a document made out by the supplier in accordance with the specific requirements established pursuant to Article 4. If an official declaration appears on this document, it shall be clearly separate from all other information in the document; or
- b qualified as pre-basic, basic or certified material, and certified as such by the responsible official body in accordance with the specific requirements established pursuant to Article 4.

Requirements in respect of propagating material and/or fruit plants with regard to labelling and/or sealing and packaging may be indicated in implementing measures adopted in accordance with the procedure referred to in Article 19(3).

2 In the case of retail supply of propagating material or fruit plants to a non-professional final consumer, requirements regarding labelling referred to in paragraph 1 may be confined to appropriate product information.

3 In the case of propagating material or a fruit plant of a variety which has been genetically modified, any label and document, official or otherwise, which is affixed to or accompanies the material under this Directive shall clearly indicate that the variety has been genetically modified and shall identify the genetically modified organisms.
