Directive 2009/138/EC of the European Parliament and of the Council of 25 November 2009 on the taking-up and pursuit of the business of Insurance and Reinsurance (Solvency II) (recast) (Text with EEA relevance)

TITLE III

SUPERVISION OF INSURANCE AND REINSURANCE UNDERTAKINGS IN A GROUP

CHAPTER II

Financial position

Section 1

Group solvency

Subsection 2

Choice of calculation method and general principles

Article 220

Choice of method

1 The calculation of the solvency at the level of the group of the insurance and reinsurance undertakings referred to in Article 213(2)(a) shall be carried out in accordance with the technical principles and one of the methods set out in Articles 221 to 233.

2 Member States shall provide that the calculation of the solvency at the level of the group of insurance and reinsurance undertakings referred to in Article 213(2)(a) shall be carried out in accordance with method 1, which is laid down in Articles 230 to 232.

However, Member States shall allow their supervisory authorities, where they assume the role of group supervisor with regard to a particular group, to decide, after consulting the other supervisory authorities concerned and the group itself, to apply to that group method 2, which is laid down in Articles 233 and 234, or a combination of methods 1 and 2, where the exclusive application of method 1 would not be appropriate.

Article 221

Inclusion of proportional share

1 The calculation of the group solvency shall take account of the proportional share held by the participating undertaking in its related undertakings.

For the purposes of the first subparagraph, the proportional share shall comprise either of the following:

Status: EU Directives are being published on this site to aid cross referencing from UK legislation. After IP completion day (31 December 2020 11pm) no further amendments will be applied to this version.

- a where method 1 is used, the percentages used for the establishment of the consolidated accounts; or
- b where method 2 is used, the proportion of the subscribed capital that is held, directly or indirectly, by the participating undertaking.

However, regardless of the method used, where the related undertaking is a subsidiary undertaking and does not have sufficient eligible own funds to cover its Solvency Capital Requirement, the total solvency deficit of the subsidiary shall be taken into account.

Where in the opinion of the supervisory authorities, the responsibility of the parent undertaking owning a share of the capital is strictly limited to that share of the capital, the group supervisor may nevertheless allow for the solvency deficit of the subsidiary undertaking to be taken into account on a proportional basis.

2 The group supervisor shall determine, after consulting the other supervisory authorities concerned and the group itself, the proportional share which shall be taken into account in the following cases:

- a where there are no capital ties between some of the undertakings in a group;
- b where a supervisory authority has determined that the holding, directly or indirectly, of voting rights or capital in an undertaking qualifies as a participation because, in its opinion, a significant influence is effectively exercised over that undertaking;
- c where a supervisory authority has determined that an undertaking is a parent undertaking of another because, in the opinion of that supervisory authority, it effectively exercises a dominant influence over that other undertaking.

Article 222

Elimination of double use of eligible own funds

1 The double use of own funds eligible for the Solvency Capital Requirement among the different insurance or reinsurance undertakings taken into account in that calculation shall not be allowed.

For that purpose, when calculating the group solvency and where the methods described in Subsection 4 do not provide for it, the following amounts shall be excluded:

- a the value of any asset of the participating insurance or reinsurance undertaking which represents the financing of own funds eligible for the Solvency Capital Requirement of one of its related insurance or reinsurance undertakings;
- b the value of any asset of a related insurance or reinsurance undertaking of the participating insurance or reinsurance undertaking which represents the financing of own funds eligible for the Solvency Capital Requirement of that participating insurance or reinsurance undertaking;
- c the value of any asset of a related insurance or reinsurance undertaking of the participating insurance or reinsurance undertaking which represents the financing of own funds eligible for the Solvency Capital Requirement of any other related insurance or reinsurance undertaking of that participating insurance or reinsurance undertaking.

2 Without prejudice to paragraph 1, the following may be included in the calculation only in so far as they are eligible for covering the Solvency Capital Requirement of the related undertaking concerned:

Status: EU Directives are being published on this site to aid cross referencing from UK legislation. After IP completion day (31 December 2020 11pm) no further amendments will be applied to this version.

- (a) surplus funds falling under Article 91(2) arising in a related life insurance or reinsurance undertaking of the participating insurance or reinsurance undertaking for which the group solvency is calculated;
- (b) any subscribed but not paid-up capital of a related insurance or reinsurance undertaking of the participating insurance or reinsurance undertaking for which the group solvency is calculated.

However, the following shall in any event be excluded from the calculation:

- (i) subscribed but not paid-up capital which represents a potential obligation on the part of the participating undertaking;
- (ii) subscribed but not paid-up capital of the participating insurance or reinsurance undertaking which represents a potential obligation on the part of a related insurance or reinsurance undertaking;
- (iii) subscribed but not paid-up capital of a related insurance or reinsurance undertaking which represents a potential obligation on the part of another related insurance or reinsurance undertaking of the same participating insurance or reinsurance undertaking.

3 Where the supervisory authorities consider that certain own funds eligible for the Solvency Capital Requirement of a related insurance or reinsurance undertaking other than those referred to in paragraph 2 cannot effectively be made available to cover the Solvency Capital Requirement of the participating insurance or reinsurance undertaking for which the group solvency is calculated, those own funds may be included in the calculation only in so far as they are eligible for covering the Solvency Capital Requirement of the related undertaking.

4 The sum of the own funds referred to in paragraphs 2 and 3 shall not exceed the Solvency Capital Requirement of the related insurance or reinsurance undertaking.

5 Any eligible own funds of a related insurance or reinsurance undertaking of the participating insurance or reinsurance undertaking for which the group solvency is calculated that are subject to prior authorisation from the supervisory authority in accordance with Article 90 shall be included in the calculation only in so far as they have been duly authorised by the supervisory authority responsible for the supervision of that related undertaking.

Article 223

Elimination of the intra-group creation of capital

1 When calculating group solvency, no account shall be taken of any own funds eligible for the Solvency Capital Requirement arising out of reciprocal financing between the participating insurance or reinsurance undertaking and any of the following:

- a a related undertaking;
- b a participating undertaking;
- c another related undertaking of any of its participating undertakings.

2 When calculating group solvency, no account shall be taken of any own funds eligible for the Solvency Capital Requirement of a related insurance or reinsurance undertaking of the participating insurance or reinsurance undertaking for which the group solvency is calculated where the own funds concerned arise out of reciprocal financing with any other related undertaking of that participating insurance or reinsurance undertaking. 3 Reciprocal financing shall be deemed to exist at least where an insurance or reinsurance undertaking, or any of its related undertakings, holds shares in, or makes loans to, another undertaking which, directly or indirectly, holds own funds eligible for the Solvency Capital Requirement of the first undertaking.

IP completion day (31 December 2020 11pm) no further amendments will be applied to this version.

Article 224

Valuation

The value of the assets and liabilities shall be assessed in accordance with Article 75.
