

Directive 2009/138/EC of the European Parliament and of the Council
of 25 November 2009 on the taking-up and pursuit of the business of
Insurance and Reinsurance (Solvency II) (recast) (Text with EEA relevance)

TITLE III

**SUPERVISION OF INSURANCE AND
REINSURANCE UNDERTAKINGS IN A GROUP**

CHAPTER II

Financial position

Section 1

Group solvency

Subsection 4

Calculation methods

Article 230

Method 1 (Default method): Accounting consolidation-based method

1 The calculation of the group solvency of the participating insurance or reinsurance undertaking shall be carried out on the basis of the consolidated accounts.

The group solvency of the participating insurance or reinsurance undertaking is the difference between the following:

- a the own funds eligible to cover the Solvency Capital Requirement, calculated on the basis of consolidated data;
- b the Solvency Capital Requirement at group level calculated on the basis of consolidated data.

The rules laid down in Title I, Chapter VI, Section 3, Subsections 1, 2 and 3 and in Title I, Chapter VI, Section 4, Subsections 1, 2 and 3 shall apply for the calculation of the own funds eligible for the Solvency Capital Requirement and of the Solvency Capital Requirement at group level based on consolidated data.

2 The Solvency Capital Requirement at group level based on consolidated data (consolidated group Solvency Capital Requirement) shall be calculated on the basis of either the standard formula or an approved internal model, in a manner consistent with the general principles contained in Title I, Chapter VI, Section 4, Subsections 1 and 2 and Title I, Chapter VI, Section 4, Subsections 1 and 3, respectively.

The consolidated group Solvency Capital Requirement shall have as a minimum the sum of the following:

Status: EU Directives are being published on this site to aid cross referencing from UK legislation. After IP completion day (31 December 2020 11pm) no further amendments will be applied to this version.

- a the Minimum Capital Requirement as referred to in Article 129 of the participating insurance or reinsurance undertaking;
- b the proportional share of the Minimum Capital Requirement of the related insurance and reinsurance undertakings.

That minimum shall be covered by eligible basic own funds as determined in Article 98(4).

For the purposes of determining whether such eligible own funds qualify to cover the minimum consolidated group Solvency Capital Requirement, the principles set out in Articles 221 to 229 shall apply *mutatis mutandis*. Article 139(1) and (2) shall apply *mutatis mutandis*.

f^I Article 231

Group internal model

1 In the case of an application for permission to calculate the consolidated group Solvency Capital Requirement, as well as the Solvency Capital Requirement of insurance and reinsurance undertakings in the group, on the basis of an internal model, submitted by an insurance or reinsurance undertaking and its related undertakings, or jointly by the related undertakings of an insurance holding company, the supervisory authorities concerned shall cooperate to decide whether or not to grant that permission and to determine the terms and conditions, if any, to which such permission is subject.

An application as referred to in the first subparagraph shall be submitted to the group supervisor.

The group supervisor shall inform the other members of the college of supervisors and forward the complete application to them, without delay.

2 The supervisory authorities concerned shall do everything within their power to reach a joint decision on the application within six months from the date of receipt of the complete application by the group supervisor.

3 If, within the six-month period referred to in paragraph 2, any of the supervisory authorities concerned has referred the matter to EIOPA in accordance with Article 19 of Regulation (EU) No 1094/2010, the group supervisor shall defer its decision and await any decision that EIOPA may take in accordance with Article 19(3) of that Regulation, and shall take its decision in conformity with EIOPA's decision. That decision shall be recognised as determinative and shall be applied by the supervisory authorities concerned.

EIOPA shall take its decision within one month. The matter shall not be referred to EIOPA after the end of the six-month period or after a joint decision has been reached.

If, in accordance with Article 41(2) and (3) and Article 44(1)(3) of Regulation (EU) No 1094/2010, the decision proposed by the panel is rejected, the group supervisor shall take a final decision. That decision shall be recognised as determinative and shall be applied by the supervisory authorities concerned. The six-month period shall be deemed the conciliation period within the meaning of Article 19(2) of that Regulation.

4 EIOPA may develop draft implementing technical standards to ensure uniform conditions of application of the joint decision process referred to in paragraph 2 with regard to the applications for permissions referred to in paragraph 1, with a view to facilitating joint decisions.

Power is conferred on the Commission to adopt the implementing technical standards referred to in the first subparagraph in accordance with Article 15 of Regulation (EU) No 1094/2010.

5 Where the supervisory authorities concerned have reached a joint decision referred to in paragraph 2, the group supervisor shall provide the applicant with a document setting out the full reasons.

6 In the absence of the adoption of a joint decision within six months from the date of receipt of the complete application by the group, the group supervisor shall make its own decision on the application.

The group supervisor shall duly take into account any views and reservations of the other supervisory authorities concerned expressed during that six-month period.

The group supervisor shall provide the applicant and the other supervisory authorities concerned with a document setting out its fully reasoned decision.

That decision shall be recognised as determinative and shall be applied by the supervisory authorities concerned.

7 Where any of the supervisory authorities concerned considers that the risk profile of an insurance or reinsurance undertaking under its supervision deviates significantly from the assumptions underlying the internal model approved at group level, and as long as that undertaking has not properly addressed the concerns of the supervisory authority, that authority may, in accordance with Article 37, impose a capital add-on to the Solvency Capital Requirement of that insurance or reinsurance undertaking resulting from the application of such internal model.

In exceptional circumstances, where such capital add-on would not be appropriate, the supervisory authority may require the undertaking concerned to calculate its Solvency Capital Requirement on the basis of the standard formula referred to in Title I, Chapter VI, Section 4, Subsections 1 and 2. In accordance with Article 37(1)(a) and (c), the supervisory authority may impose a capital add-on to the Solvency Capital Requirement of that insurance or reinsurance undertaking resulting from the application of the standard formula.

The supervisory authority shall explain any decision referred to in the first and second subparagraphs to both the insurance or reinsurance undertaking and the other members of the college of supervisors.

EIOPA may issue guidelines to ensure consistent and coherent application of this paragraph.]

Textual Amendments

- F1** Substituted by [Directive 2014/51/EU of the European Parliament and of the Council of 16 April 2014 amending Directives 2003/71/EC and 2009/138/EC and Regulations \(EC\) No 1060/2009, \(EU\) No 1094/2010 and \(EU\) No 1095/2010 in respect of the powers of the European Supervisory Authority \(European Insurance and Occupational Pensions Authority\) and the European Supervisory Authority \(European Securities and Markets Authority\).](#)

Article 232

Group capital add-on

[^{F1}In determining whether the consolidated group Solvency Capital Requirement appropriately reflects the risk profile of the group, the group supervisor shall pay particular attention to any case where the circumstances referred to in Article 37(1)(a) to (d) may arise at group level, in particular where:]

- (a) a specific risk existing at group level would not be sufficiently covered by the standard formula or the internal model used, because it is difficult to quantify;
- (b) a capital add-on to the Solvency Capital Requirement of the related insurance or reinsurance undertakings is imposed by the supervisory authorities concerned, in accordance with Articles 37 and 231(7).

Where the risk profile of the group is not adequately reflected, a capital add-on to the consolidated group Solvency Capital Requirement may be imposed.

[^{F1}Article 37(1) to (5), together with the delegated acts and implementing technical standards taken in accordance with Article 37(6), (7) and (8) shall apply *mutatis mutandis*.]

Textual Amendments

- F1** Substituted by [Directive 2014/51/EU of the European Parliament and of the Council of 16 April 2014 amending Directives 2003/71/EC and 2009/138/EC and Regulations \(EC\) No 1060/2009, \(EU\) No 1094/2010 and \(EU\) No 1095/2010 in respect of the powers of the European Supervisory Authority \(European Insurance and Occupational Pensions Authority\) and the European Supervisory Authority \(European Securities and Markets Authority\).](#)

Article 233

Method 2 (Alternative method): Deduction and aggregation method

1 The group solvency of the participating insurance or reinsurance undertaking shall be the difference between the following:

- a the aggregated group eligible own funds, as provided for in paragraph 2;
- b the value in the participating insurance or reinsurance undertaking of the related insurance or reinsurance undertakings and the aggregated group Solvency Capital Requirement, as provided for in paragraph 3.

2 The aggregated group eligible own funds are the sum of the following:

- a the own funds eligible for the Solvency Capital Requirement of the participating insurance or reinsurance undertaking;
- b the proportional share of the participating insurance or reinsurance undertaking in the own funds eligible for the Solvency Capital Requirement of the related insurance or reinsurance undertakings.

3 The aggregated group Solvency Capital Requirement is the sum of the following:

Status: EU Directives are being published on this site to aid cross referencing from UK legislation. After IP completion day (31 December 2020 11pm) no further amendments will be applied to this version.

- a the Solvency Capital Requirement of the participating insurance or reinsurance undertaking;
- b the proportional share of the Solvency Capital Requirement of the related insurance or reinsurance undertakings.

4 Where the participation in the related insurance or reinsurance undertakings consists, wholly or in part, of an indirect ownership, the value in the participating insurance or reinsurance undertaking of the related insurance or reinsurance undertakings shall incorporate the value of such indirect ownership, taking into account the relevant successive interests, and the items referred to in paragraph 2(b) and paragraph 3(b) shall include the corresponding proportional shares, respectively, of the own funds eligible for the Solvency Capital Requirement of the related insurance or reinsurance undertakings and of the Solvency Capital Requirement of the related insurance or reinsurance undertakings.

[^{F25} In the case of an application for permission to calculate the Solvency Capital Requirement of insurance and reinsurance undertakings in the group on the basis of an internal model, submitted by an insurance or reinsurance undertaking and its related undertakings, or jointly by the related undertakings of an insurance holding company or mixed financial holding company, Article 231 shall apply *mutatis mutandis*.]

6 In determining whether the aggregated group Solvency Capital Requirement, calculated as set out in paragraph 3, appropriately reflects the risk profile of the group, the supervisory authorities concerned shall pay particular attention to any specific risks existing at group level which would not be sufficiently covered, because they are difficult to quantify.

Where the risk profile of the group deviates significantly from the assumptions underlying the aggregated group Solvency Capital Requirement, a capital add-on to the aggregated group Solvency Capital Requirement may be imposed.

[^{F1}Article 37(1) to (5), together with the delegated acts and implementing technical standards taken in accordance with Article 37(6), (7) and (8), shall apply *mutatis mutandis*.]

Textual Amendments
