

Commission Directive 2009/145/EC of 26 November 2009 providing for certain derogations, for acceptance of vegetable landraces and varieties which have been traditionally grown in particular localities and regions and are threatened by genetic erosion and of vegetable varieties with no intrinsic value for commercial crop production but developed for growing under particular conditions and for marketing of seed of those landraces and varieties (Text with EEA relevance)

CHAPTER III

Varieties developed for growing under particular conditions

Section II

Marketing of seed of varieties developed for growing under particular conditions

Article 31

Official post control

Member States shall ensure that the seed of a variety developed for growing under particular conditions is subject to official post control by random inspections to verify its varietal identity and purity.

The official post control referred to in paragraph 1 shall be carried out in accordance with current international methods, or, where such methods do not exist, in accordance with any appropriate methods.
