

Council Directive 2009/156/EC of 30 November 2009 on animal health conditions governing the movement and importation from third countries of equidae (codified version) (Text with EEA relevance)

### CHAPTER III

#### **RULES FOR IMPORTATION OF EQUIDAE FROM THIRD COUNTRIES**

##### *Article 14*

Before the day of loading for transportation to the Member State of destination, the equidae must have remained without interruption in the territory or part of the territory of a third country or, in the event of regionalisation, in the part of the territory defined pursuant to Article 13(2)(a) for a period to be determined in the decisions to be adopted pursuant to Article 15.

They must come from a holding placed under veterinary supervision.
