

Directive 2009/81/EC of the European Parliament and of the Council of 13 July 2009 on the coordination of procedures for the award of certain works contracts, supply contracts and service contracts by contracting authorities or entities in the fields of defence and security, and amending Directives 2004/17/EC and 2004/18/EC (Text with EEA relevance)

TITLE II

RULES ON CONTRACTS

CHAPTER VII

Conduct of the procedure

Section 1

General provisions

Article 38

Verification of the suitability and choice of participants and award of contracts

1 Contracts shall be awarded on the basis of the criteria laid down in Articles 47 and 49, taking into account Article 19, after the suitability of the economic operators not excluded under Articles 39 or 40 has been checked by contracting authorities/entities in accordance with the criteria of economic and financial standing, of professional and technical knowledge or ability referred to in Articles 41 to 46 and, where appropriate, with the non-discriminatory rules and criteria referred to in paragraph 3.

2 Contracting authorities/entities may require candidates to meet minimum capacity levels in accordance with Articles 41 and 42.

The extent of the information referred to in Articles 41 and 42 and the minimum levels of ability required for a specific contract must be related and proportionate to the subject-matter of the contract.

These minimum levels shall be indicated in the contract notice.

3 In restricted procedures, negotiated procedures with publication of a contract notice and competitive dialogues, contracting authorities/entities may limit the number of suitable candidates they will invite to tender or with which they will conduct a dialogue. In this case:

- the contracting authorities/entities shall indicate in the contract notice the objective and non-discriminatory criteria or rules they intend to apply, the minimum number of candidates they intend to invite and, where appropriate, the maximum number. The minimum number of candidates they intend to invite may not be less than three;
- subsequently, the contracting authorities/entities shall invite a number of candidates at least equal to the minimum number set in advance, provided a sufficient number of suitable candidates is available,

Status: EU Directives are being published on this site to aid cross referencing from UK legislation. After IP completion day (31 December 2020 11pm) no further amendments will be applied to this version.

Where the number of candidates meeting the selection criteria and the minimum levels of ability is below the minimum number, the contracting authority/entity may continue the procedure by inviting the candidate or candidates with the required capabilities.

If the contracting authority/entity considers that the number of suitable candidates is too low to ensure genuine competition, it may suspend the procedure and republish the initial contract notice in accordance with Article 30(2) and Article 32, fixing a new deadline for the submission of requests to participate. In this case, the candidates selected upon the first publication and those selected upon the second shall be invited in accordance with Article 34. This option shall be without prejudice to the ability of the contracting authority/entity to cancel the ongoing procurement procedure and launch a new procedure.

4 In the context of an award procedure, the contracting authority/entity may not include economic operators other than those which made a request to participate, or candidates without the requisite capabilities.

5 Where the contracting authorities/entities exercise the option of reducing the number of solutions to be discussed or of tenders to be negotiated, as provided for in Article 26(3) and Article 27(4), they shall do so by applying the award criteria stated in the contract notice or the contract documents. In the final stage, the number arrived at shall make for genuine competition insofar as there are enough solutions or suitable candidates.

Section 2

Criteria for qualitative selection

Article 39

Personal situation of the candidate or tenderer

1 Any candidate or tenderer which has been the subject of a conviction by final judgment of which the contracting authority/entity is aware, for one or more of the reasons listed below, shall be excluded from participation in a contract:

- a participation in a criminal organisation, as defined in Article 2(1) of Joint Action 98/733/JHA⁽¹⁾;
- b corruption, as defined in Article 3 of the Act of 26 May 1997⁽²⁾ and Article 2(1) of Framework Decision 2003/568/JHA⁽³⁾;
- c fraud within the meaning of Article 1 of the Convention relating to the protection of the financial interests of the European Communities⁽⁴⁾;
- d terrorist offences or offences linked to terrorist activities, as defined in Articles 1 and 3 of Framework Decision 2002/475/JHA⁽⁵⁾ respectively, or inciting, aiding or abetting or attempting to commit an offence, as referred to in Article 4 of that Framework Decision;
- e money laundering and terrorist financing, as defined in Article 1 of Directive 2005/60/EC⁽⁶⁾.

Member States shall specify, in accordance with their national law and having regard to Community law, the implementing conditions for this paragraph.

They may provide for a derogation from the requirement referred to in the first subparagraph for overriding requirements in the general interest.

For the purposes of this paragraph, the contracting authorities/entities shall, where appropriate, ask candidates or tenderers to supply the documents referred to in paragraph

Status: EU Directives are being published on this site to aid cross referencing from UK legislation. After IP completion day (31 December 2020 11pm) no further amendments will be applied to this version.

3 and may, where they have doubts concerning the personal situation of such candidates or tenderers, also apply to the competent authorities to obtain any information they consider necessary on the personal situation of the candidates or tenderers concerned. Where the information concerns a candidate or tenderer established in a State other than that of the contracting authority/entity, the contracting authority/entity may seek the cooperation of the competent authorities. Having regard for the national laws of the Member State where the candidates or tenderers are established, such requests shall relate to legal and/or natural persons, including, if appropriate, company directors and any person having powers of representation, decision or control in respect of the candidate or tenderer.

2 Any economic operator may be excluded from participation in a contract where that economic operator:

- a is bankrupt or is being wound up, where its affairs are being administered by a court, where it has entered into an arrangement with creditors, where it has suspended business activities or is in any analogous situation arising from a similar procedure under national laws and regulations;
- b is the subject of proceedings for a declaration of bankruptcy, for an order for compulsory winding up or administration by a court or of an arrangement with creditors or of any other similar proceedings under national laws and regulations;
- c has been convicted by a judgment which has the force of *res judicata* in accordance with the legal provisions of the country of any offence concerning its professional conduct, such as, for example, infringement of existing legislation on the export of defence and/or security equipment;
- d has been guilty of grave professional misconduct proven by any means which the contracting authority/entity can supply, such as a breach of obligations regarding security of information or security of supply during a previous contract;
- e has been found, on the basis of any means of evidence, including protected data sources, not to possess the reliability necessary to exclude risks to the security of the Member State;
- f has not fulfilled obligations relating to the payment of social security contributions in accordance with the legal provisions of the country in which it is established or with those of the country of the contracting authority/entity;
- g has not fulfilled obligations relating to the payment of taxes in accordance with the legal provisions of the country in which it is established or with those of the country of the contracting authority/entity;
- h is guilty of serious misrepresentation in supplying the information required under this Section, or has not supplied such information.

Member States shall specify, in accordance with their national law and having regard for Community law, the implementing conditions for this paragraph.

3 Contracting authorities/entities shall accept the following as sufficient evidence that none of the cases specified in paragraph 1 or paragraph 2(a), (b), (c), (f) or (g) applies to the economic operator:

- a as regards paragraph 1 and paragraph 2(a), (b) and (c), the production of an extract from the 'judicial record' or, failing that, of an equivalent document issued by a competent judicial or administrative authority in the country of origin or provenance, showing that these requirements have been met;
- b as regards paragraph 2(f) and (g), a certificate issued by the competent authority in the Member State concerned.

Status: EU Directives are being published on this site to aid cross referencing from UK legislation. After IP completion day (31 December 2020 11pm) no further amendments will be applied to this version.

Where the country in question does not issue such documents or certificates, or where these do not cover all the cases specified in paragraph 1 and paragraph 2(a), (b) and (c), they may be replaced by a declaration on oath or, in Member States where there is no provision for declarations on oath, by a solemn declaration made by the person concerned before a competent judicial or administrative authority, a notary or a competent professional or trade body, in the country of origin or provenance.

4 Member States shall designate the authorities and bodies competent to issue the documents, certificates and declarations referred to in paragraph 3, and shall inform the Commission thereof. Such notification shall be without prejudice to data protection law.

Article 40

Suitability to pursue the professional activity

Where a candidate is required to be enrolled on a professional or trade register in its Member State of origin or establishment in order to pursue its professional activity, it may be requested to prove its enrolment on such a register or to provide a declaration on oath or a certificate as described in Part A of Annex VII for works contracts, Part B of Annex VII for supply contracts and Part C of Annex VII for service contracts. The lists set out in Annex VII are indicative. Member States shall notify the Commission and the other Member States of any changes to their registers and of the means of evidence referred to in these lists.

In procedures for the award of service contracts, insofar as candidates have to possess a particular authorisation or be a member of a particular organisation in order to be able to perform the service concerned in their country of origin, the contracting authority/entity may require them to prove that they hold such authorisation or membership.

This Article shall be without prejudice to Community law on the freedom of establishment and the freedom to provide services.

Article 41

Economic and financial standing

1 Proof of an economic operator's economic and financial standing may, as a general rule, be furnished by one or more of the following references:

- a appropriate statements from a bank or, where appropriate, evidence of professional risk indemnity insurance;
- b the presentation of balance sheets or extracts from balance sheets, where publication of the balance sheet is required under the law of the country in which the economic operator is established;
- c a statement of the undertaking's overall turnover and, where appropriate, of turnover in the area covered by the contract for a maximum of the last three financial years available, depending on the date on which the undertaking was set up or the economic operator started trading, insofar as information on such turnovers is available.

2 An economic operator may, where appropriate and for a particular contract, rely on the capacities of other entities, regardless of the legal nature of the links which it has with them. It must in that case prove to the contracting authority/entity that it will have at its disposal the resources necessary, for example, by producing an undertaking by those entities to that effect.

Status: EU Directives are being published on this site to aid cross referencing from UK legislation. After IP completion day (31 December 2020 11pm) no further amendments will be applied to this version.

3 Under the same conditions, a consortium of economic operators as referred to in Article 4 may rely on the capacities of participants in the consortium or of other entities.

4 Contracting authorities/entities shall specify in the contract notice which reference or references referred to in paragraph 1 they have chosen, and which other references must be provided.

5 If, for any valid reason, the economic operator is unable to provide the references requested by the contracting authority/entity, it may prove its economic and financial standing by any other document which the contracting authority/entity considers appropriate.

Article 42

Technical and/or professional ability

1 Evidence of economic operators' technical abilities may, as a general rule, be furnished by one or more of the following means, according to the nature, quantity or importance and use of the works, supplies or services:

- a (i) a list of the works carried out over the past five years, accompanied by certificates of satisfactory execution for the most important works. These certificates shall indicate the value, date and location of the works and shall specify whether they were carried out according to the rules of the trade and properly completed. Where appropriate, the competent authority shall submit these certificates to the contracting authority/entity directly;
- (ii) a list of the principal deliveries effected or the main services provided, as a general rule, in the past five years, with the sums, dates and recipients, whether public or private, involved. Evidence of delivery and services provided shall be given:
 - where the recipient was a contracting authority/entity, in the form of certificates issued or countersigned by the competent authority,
 - where the recipient was a private purchaser, by the purchaser's certification or, failing this, simply by a declaration by the economic operator,
- b an indication of the technicians or technical bodies involved, whether or not they belong directly to the economic operator's undertaking, especially those responsible for quality control and, in the case of works contracts, those upon which the contractor can call in order to carry out the work;
- c a description of the technical facilities and measures used by the economic operator to ensure quality and the undertaking's study and research facilities, as well as internal rules regarding intellectual property;
- d a check carried out by the contracting authorities/entities or on their behalf by a competent official body of the country in which the economic operator is established, subject to that body's agreement, on the production capacities of the supplier or the technical capacity of the economic operator and, if necessary, on the means of study and research which are available to it and the quality control measures it will operate;
- e in the case of works contracts, service contracts or supply contracts also covering siting and installation operations or services, the educational and professional qualifications of the economic operator and/or those of the undertaking's managerial staff and, in particular, those of the person or persons responsible for providing the services or managing the work;

Status: EU Directives are being published on this site to aid cross referencing from UK legislation. After IP completion day (31 December 2020 11pm) no further amendments will be applied to this version.

- f for works contracts and services contracts, and only in appropriate cases, an indication of the environmental management measures that the economic operator will be able to apply when performing the contract;
- g a statement of the average annual manpower of the service provider or contractor and the number of managerial staff for the last three years;
- h a description of the tools, material, technical equipment, staff numbers and know-how and/or sources of supply — with an indication of the geographical location when it is outside the territory of the Union — which the economic operator has at its disposal to perform the contract, cope with any additional needs required by the contracting authority/entity as a result of a crisis or carry out the maintenance, modernisation or adaptation of the supplies covered by the contract;
- i with regard to the products to be supplied, provision of:
 - (i) samples, descriptions and/or photographs, the authenticity of which must be certified if the contracting authority/entity so requests;
 - (ii) certificates drawn up by official quality control institutes or agencies of recognised competence attesting the conformity of products, clearly identified by references to specifications or standards;
- j in the case of contracts involving, entailing and/or containing classified information, evidence of the ability to process, store and transmit such information at the level of protection required by the contracting authority/entity.

In the absence of harmonisation at Community level of national security clearance systems, Member States may provide that this evidence has to comply with the relevant provisions of their respective national laws on security clearance. Member States shall recognise security clearances which they consider equivalent to those issued in accordance with their national law, notwithstanding the possibility to conduct and take into account further investigations of their own, if considered necessary.

The contracting authority/entity may, where appropriate, grant candidates which do not yet hold security clearance additional time to obtain such clearance. In this case, it shall indicate this possibility and the time-limit in the contract notice.

The contracting authority/entity may ask the national security authority of the candidate's Member State or the security authority designated by that Member State to check the conformity of the premises and facilities that may be used, the industrial and administrative procedures that will be followed, the methods for managing information and/or the situation of staff likely to be employed to carry out the contract.

2 An economic operator may, where appropriate and for a particular contract, rely on the capacities of other entities, regardless of the legal nature of the links which it has with them. It shall in that case prove to the contracting authority/entity that it will have at its disposal the resources necessary for the execution of the contract, for example by producing an undertaking by those entities to put the necessary resources at the disposal of the economic operator.

3 Under the same conditions, a group of economic operators as referred to in Article 5 may rely on the abilities of participants in the group or of other entities.

4 In procedures for awarding contracts having as their object supplies requiring siting or installation work, the provision of services and/or the execution of works, the ability of economic operators to provide the service or to execute the installation or the work may be evaluated in particular with regard to their skills, efficiency, experience and reliability.

Status: EU Directives are being published on this site to aid cross referencing from UK legislation. After IP completion day (31 December 2020 11pm) no further amendments will be applied to this version.

5 The contracting authority/entity shall specify in the notice which of the references referred to in the first paragraph it has chosen and which other references must be provided.

6 If, for any valid reason, the economic operator is unable to provide the references requested by the contracting authority/entity, it may prove its technical and/or professional ability by any other document which the contracting authority/entity considers appropriate.

Article 43

Quality management systems standards

Should they require the production of certificates drawn up by independent accredited bodies attesting the compliance of the economic operator with certain quality management systems standards, contracting authorities/entities shall refer to quality management systems based on the relevant European standards certified by independent accredited bodies conforming to the European standards concerning accreditation and certification. They shall recognise equivalent certificates from independent accredited bodies established in other Member States. They shall also accept other evidence of equivalent quality management systems from economic operators.

Article 44

Environmental management standards

Should contracting authorities/entities, in the cases referred to in Article 42(1)(f), require the production of certificates drawn up by independent bodies attesting the compliance of the economic operator with certain environmental management standards, they shall refer to the Community Eco-Management and Audit Scheme (EMAS) or to environmental management standards based on the relevant European or international standards certified by bodies conforming to Community law or the relevant European or international standards concerning certification. They shall recognise equivalent certificates from bodies established in other Member States. They shall also accept other evidence of equivalent environmental management measures from economic operators.

Article 45

Additional documentation and information

The contracting authority/entity may invite economic operators to supplement or clarify the certificates and documents submitted pursuant to Articles 39 to 44.

Article 46

Official lists of approved economic operators and certification by bodies established under public or private law

1 Member States may introduce either official lists of approved contractors, suppliers or service providers or certification by certification bodies established under public or private law.

Status: EU Directives are being published on this site to aid cross referencing from UK legislation. After IP completion day (31 December 2020 11pm) no further amendments will be applied to this version.

Member States shall adapt the conditions for registration on these lists and for the issue of certificates by certification bodies to the provisions of Article 39(1) and (2)(a) to (d) and (h), Article 40, Article 41(1), (4) and (5), Article 42(1)(a) to (i), (2) and (4), Article 43 and, where appropriate, Article 44.

Member States shall also adapt them to Article 41(2) and Article 42(2) as regards applications for registration submitted by economic operators belonging to a group and claiming resources made available to them by the other companies in the group. In such a case, these operators must prove to the authority establishing the official list that they will have these resources at their disposal throughout the period of validity of the certificate attesting to their being registered in the official list, and that throughout the same period these companies must continue to fulfil the qualitative selection requirements laid down in the Articles referred to in the second subparagraph on which operators rely for their registration.

2 Economic operators registered on the official lists or having a certificate may, for each contract, submit to the contracting authority/entity a certificate of registration issued by the competent authority or the certificate issued by the competent certification body. The certificates shall state the references which enabled them to be registered in the list or to obtain certification and the classification given in that list.

3 Certified registration on official lists by the competent authorities or a certificate issued by the certification body shall not, for the purposes of the contracting authorities/entities of other Member States, constitute a presumption of suitability except as regards Article 39(1) and (2) (a) to (d) and (h), Article 40, Article 41(1)(b) and (c) and Article 42(1)(a)(i) and (b) to (g) in the case of contractors, Article 42(1)(a)(ii), (b) to (e) and (i) in the case of suppliers and Article 42(1)(a)(ii), (b) to (e) and (g) in the case of service providers.

4 Information which can be deduced from registration on official lists or certification may not be questioned without justification. With regard to the payment of social security contributions and taxes, an additional certificate may be required of any registered economic operator whenever a contract is offered.

The contracting authorities/entities of other Member States shall apply paragraph 3 and the first subparagraph of this paragraph only to economic operators established in the Member State holding the official list.

5 For any registration of economic operators of other Member States in an official list or for their certification by the bodies referred to in paragraph 1, no further proof or statement can be required other than those requested of national economic operators and, in any event, only those provided for under Articles 39 to 43 and, where appropriate, Article 44.

However, economic operators from other Member States may not be obliged to undergo such registration or certification in order to participate in a contract. Contracting authorities/entities shall recognise equivalent certificates from bodies established in other Member States. They shall also accept other equivalent means of proof.

6 Economic operators may apply at any time to be registered on an official list or for a certificate to be issued. They must be informed within a reasonably short period of time of the decision of the authority drawing up the list or of the competent certification body.

7 The certification bodies referred to in paragraph 1 shall be bodies complying with European certification standards.

Status: EU Directives are being published on this site to aid cross referencing from UK legislation. After IP completion day (31 December 2020 11pm) no further amendments will be applied to this version.

8 Member States which have official lists or certification bodies as referred to in paragraph 1 shall be obliged to inform the Commission and the other Member States of the address of the body to which applications should be sent.

Section 3

Award of the contract

Article 47

Contract award criteria

1 Without prejudice to national laws, regulations or administrative provisions concerning the remuneration of certain services, the criteria on which the contracting authorities/entities shall base the award of contracts shall be either:

- a when the award is made to the most economically advantageous tender from the point of view of the contracting authority/entity, various criteria linked to the subject-matter of the contract in question: for example, quality, price, technical merit, functional characteristics, environmental characteristics, running costs, lifecycle costs, cost-effectiveness, after-sales service and technical assistance, delivery date and delivery period or period of completion, security of supply, interoperability and operational characteristics; or
- b the lowest price only.

2 Without prejudice to the third subparagraph, in the case referred to in paragraph 1(a) the contracting authority/entity shall specify in the contract documentation (contract notices, contract documents, descriptive documents or supporting documents) the relative weighting which it gives to each of the criteria chosen to determine the most economically advantageous tender.

The weightings can be expressed by providing for a range with an appropriate maximum spread.

Where, in the opinion of the contracting authority/entity, weighting is not possible for demonstrable reasons, the contracting authority/entity shall indicate in the contract documentation (contract notices, contract documents, descriptive documents or supporting documents) the criteria in descending order of importance.

Article 48

Use of electronic auctions

1 Member States may provide that contracting authorities/entities may use electronic auctions.

2 In restricted and negotiated procedures with publication of a contract notice, the contracting authorities/entities may decide that the award of a contract shall be preceded by an electronic auction when the contract specifications can be established with precision.

In the same circumstances, an electronic auction may be held on the reopening of competition among the parties to a framework agreement as provided for in the second indent of the second subparagraph of Article 29(4).

Status: EU Directives are being published on this site to aid cross referencing from UK legislation. After IP completion day (31 December 2020 11pm) no further amendments will be applied to this version.

The electronic auction shall be based:

- solely on price, where the contract is awarded to the lowest price; or,
- on price and/or on the new values of the features of the tenders indicated in the contract documents, where the contract is awarded to the most economically advantageous tender,

3 Contracting authorities/entities which decide to hold an electronic auction shall state that fact in the contract notice.

The contract documents shall include, *inter alia*, the following details:

- a the features, the values for which will be the subject of electronic auction, provided that such features are quantifiable and can be expressed in figures or percentages;
- b any limitations on the values which may be submitted, as they result from the specifications relating to the subject of the contract;
- c the information which will be made available to tenderers in the course of the electronic auction and, where appropriate, when it will be made available to them;
- d the relevant information concerning the electronic auction process;
- e the conditions under which tenderers will be able to bid and, in particular, the minimum differences which will, where appropriate, be required when bidding;
- f the relevant information concerning the electronic equipment used and the arrangements and technical specifications for connection.

4 Before proceeding with an electronic auction, contracting authorities/entities shall make a full initial evaluation of the tenders in accordance with the award criterion/criteria set and with the weighting fixed for them.

All tenderers which have submitted admissible tenders shall be invited simultaneously by electronic means to submit new prices and/or new values; the invitation shall contain all relevant information concerning individual connection to the electronic equipment being used and shall state the date and time of the start of the electronic auction. The electronic auction may take place in a number of successive phases. The electronic auction may not start sooner than two working days after the date on which invitations are sent out.

5 When the contract is to be awarded on the basis of the most economically advantageous tender, the invitation shall be accompanied by the outcome of a full evaluation of the relevant tenderer, carried out in accordance with the weighting provided for in the first subparagraph of Article 47(2).

The invitation shall also state the mathematical formula to be used in the electronic auction to determine automatic re-rankings on the basis of the new prices and/or new values submitted. That formula shall incorporate the weighting of all the criteria fixed to determine the most economically advantageous tender, as indicated in the contract notice or in the specifications; for that purpose, any ranges shall, however, be reduced in advance to a specified value.

Where variants are authorised, a separate formula shall be provided for each variant.

6 Throughout each phase of an electronic auction, the contracting authorities/entities shall instantaneously communicate to all tenderers at least sufficient information to enable them to ascertain their relative rankings at any moment. They may also communicate other information concerning other prices or values submitted, provided that that is stated in the contract documents. They may also at any time announce the number of participants in that phase of the auction. In no case, however, may they disclose the identities of the tenderers during any phase of an electronic auction.

Status: EU Directives are being published on this site to aid cross referencing from UK legislation. After IP completion day (31 December 2020 11pm) no further amendments will be applied to this version.

7 Contracting authorities/entities shall close an electronic auction in one or more of the following manners:

- a in accordance with the date and time fixed in advance, as indicated in the invitation to take part in the auction;
- b when they receive no more new prices or new values which meet the requirements concerning minimum differences. In that event, the contracting authorities/entities shall state in the invitation to take part in the auction the time which they will allow to elapse after receiving the last submission before closing the electronic auction;
- c when the phases in the auction, fixed in the invitation to take part in the auction, have been completed.

When the contracting authorities/entities decide to close an electronic auction in accordance with point (c), possibly in combination with the arrangements laid down in point (b), the invitation to take part in the auction shall indicate the timetable for each phase of the auction.

8 After closing an electronic auction, contracting authorities/entities shall award the contract in accordance with Article 47 on the basis of the results of the electronic auction.

Contracting authorities/entities may not have improper recourse to electronic auctions, nor may they use them in such a way as to prevent, restrict or distort competition or to change the subject-matter of the contract, as put up for tender in the published contract notice and defined in the contract documents.

Article 49

Abnormally low tenders

1 If, for a given contract, tenders appear to be abnormally low in relation to the goods, works or services, the contracting authority/entity shall, before it rejects those tenders, request in writing details of the constituent elements of the tender which it considers relevant.

Those details may relate in particular to:

- a the economics of the construction method, manufacturing process or services provided;
- b the technical solutions chosen and/or any exceptionally favourable conditions available to the tenderer for the execution of the work or for the supply of the goods or services;
- c the originality of the work, supplies or services proposed by the tenderer;
- d compliance with the provisions relating to employment protection and working conditions in force at the place where the work, service or supply is to be performed;
- e the possibility of the tenderer obtaining State aid.

2 The contracting authority/entity shall verify those constituent elements by consulting the tenderer, taking account of the evidence supplied.

3 Where a contracting authority/entity establishes that a tender is abnormally low because the tenderer has obtained State aid, the tender can be rejected on that ground alone only after consultation with the tenderer where the latter is unable to prove, within a sufficient time-limit fixed by the contracting authority/entity, that the aid in question was granted legally. Where the contracting authority/entity rejects a tender in those circumstances, it shall inform the Commission thereof.

Status: EU Directives are being published on this site to aid cross referencing from UK legislation. After IP completion day (31 December 2020 11pm) no further amendments will be applied to this version.

- (1) Joint Action 98/733/JHA of 21 December 1998 adopted by the Council on the basis of Article K.3 of the Treaty on European Union, on making it a criminal offence to participate in a criminal organisation in the Member States of the European Union ([OJ L 351, 29.12.1998, p. 1](#)).
- (2) Council Act of 26 May 1997 drawing up, on the basis of Article K.3 (2) (c) of the Treaty on European Union, the Convention on the fight against corruption involving officials of the European Communities or officials of Member States of the European Union ([OJ C 195, 25.6.1997, p. 1](#)).
- (3) Council Framework Decision 2003/568/JHA of 22 July 2003 on combating corruption in the private sector ([OJ L 192, 31.7.2003, p. 54](#)).
- (4) [OJ C 316, 27.11.1995, p. 49](#).
- (5) Council Framework Decision 2002/475/JHA of 13 June 2002 on combating terrorism ([OJ L 164, 22.6.2002, p. 3](#)).
- (6) Directive 2005/60/EC of the European Parliament and of the Council of 26 October 2005 on the prevention of the use of the financial system for the purpose of money laundering and terrorist financing ([OJ L 309, 25.11.2005, p. 15](#)).
