

Directive 2010/31/EU of the European Parliament and of the Council  
of 19 May 2010 on the energy performance of buildings (recast)

Article 1	Subject matter
Article 2	Definitions
Article 3	Adoption of a methodology for calculating the energy performance of buildings
Article 4	Setting of minimum energy performance requirements
Article 5	Calculation of cost-optimal levels of minimum energy performance requirements
Article 6	New buildings
Article 7	Existing buildings
Article 8	Technical building systems
Article 9	Nearly zero-energy buildings
Article 10	Financial incentives and market barriers
Article 11	Energy performance certificates
Article 12	Issue of energy performance certificates
Article 13	Display of energy performance certificates
Article 14	Inspection of heating systems
Article 15	Inspection of air-conditioning systems
Article 16	Reports on the inspection of heating and air-conditioning systems
Article 17	Independent experts
Article 18	Independent control system
Article 19	Review
Article 20	Information
Article 21	Consultation
Article 22	Adaptation of Annex I to technical progress
Article 23	Exercise of delegation
Article 24	Revocation of the delegation
Article 25	Objections to delegated acts
Article 26	Committee procedure
Article 27	Penalties
Article 28	Transposition
Article 29	Repeal
Article 30	Entry into force
Article 31	Addressees
	Signature

---

ANNEX I

Common reference framework for the calculation of energy performance of buildings

1. The energy performance of a building shall be determined on...
2. The energy performance of a building shall be expressed in...
3. The methodology shall be laid down taking into consideration at...
4. The positive influence of the following aspects shall, where relevant...
5. For the purpose of the calculation buildings should be adequately...

## ANNEX II

## Independent control systems for energy performance certificates and inspection reports

1. The competent authorities or bodies to which the competent authorities...
2. The competent authorities or bodies to which the competent authorities...

## ANNEX III

## Comparative methodology framework to identify cost-optimal levels of energy performance requirements for buildings and building elements

The comparative methodology framework shall enable Member States to determine...

The comparative methodology framework shall be accompanied by guidelines outlining...

The comparative methodology framework shall allow for taking into account...

The Commission shall also provide:  
guidelines to accompany the comparative methodology framework; these guidelines will...

For the application of the comparative methodology framework by Member...

The comparative methodology framework shall require Member States to:

define reference buildings that are characterised by and representative of...

By calculating the costs of the energy efficiency measures during...
