

Directive 2010/75/EU of the European Parliament and of the Council of 24 November 2010 on industrial emissions (integrated pollution prevention and control) (Recast) (Text with EEA relevance)

CHAPTER II

PROVISIONS FOR ACTIVITIES LISTED IN ANNEX I

Article 12

Applications for permits

1 Member States shall take the necessary measures to ensure that an application for a permit includes a description of the following:

- a the installation and its activities;
- b the raw and auxiliary materials, other substances and the energy used in or generated by the installation;
- c the sources of emissions from the installation;
- d the conditions of the site of the installation;
- e where applicable, a baseline report in accordance with Article 22(2);
- f the nature and quantities of foreseeable emissions from the installation into each medium as well as identification of significant effects of the emissions on the environment;
- g the proposed technology and other techniques for preventing or, where this is not possible, reducing emissions from the installation;
- h measures for the prevention, preparation for re-use, recycling and recovery of waste generated by the installation;
- i further measures planned to comply with the general principles of the basic obligations of the operator as provided for in Article 11;
- j measures planned to monitor emissions into the environment;
- k the main alternatives to the proposed technology, techniques and measures studied by the applicant in outline.

An application for a permit shall also include a non-technical summary of the details referred to in the first subparagraph.

2 Where information supplied in accordance with the requirements provided for in Directive 85/337/EEC or a safety report prepared in accordance with Directive 96/82/EC or other information produced in response to other legislation fulfils any of the requirements of paragraph 1, that information may be included in, or attached to, the application.
