

Directive 2013/36/EU of the European Parliament and of the Council of 26 June 2013 on access to the activity of credit institutions and the prudential supervision of credit institutions and investment firms, amending Directive 2002/87/EC and repealing Directives 2006/48/EC and 2006/49/EC (Text with EEA relevance)

TITLE VII

PRUDENTIAL SUPERVISION

CHAPTER 4

Capital Buffers

Section II

Setting and calculating countercyclical capital buffers

Article 137

Recognition of countercyclical buffer rates in excess of 2,5 %

1 Where a designated authority, in accordance with Article 136(4), or a relevant third-country authority has set a countercyclical buffer rate in excess of 2,5 % of the total risk exposure amount calculated in accordance with Article 92(3) of Regulation (EU) No 575/2013, the other designated authorities may recognise that buffer rate for the purposes of the calculation by domestically authorised institutions of their institution-specific countercyclical capital buffers.

2 Where a designated authority in accordance with paragraph 1 of this Article recognises a buffer rate in excess of 2,5 % of the total risk exposure amount calculated in accordance with Article 92(3) of Regulation (EU) No 575/2013, it shall announce that recognition by publication on its website. The announcement shall include at least the following information:

- a the applicable countercyclical buffer rate;
- b the Member State or third countries to which it applies;
- c where the buffer rate is increased, the date from which the institutions authorised in the Member State of the designated authority must apply that increased buffer rate for the purposes of calculating their institution-specific countercyclical capital buffer;
- d where the date referred to in point (c) is less than 12 months after the date of the announcement under this paragraph, a reference to the exceptional circumstances that justify that shorter deadline for application.
