Technical criteria concerning the organisation and treatment of risks

Article 87

Risk of excessive leverage

1 Competent authorities shall ensure that institutions have policies and processes in place for the identification, management and monitoring of the risk of excessive leverage. Indicators for the risk of excessive leverage shall include the leverage ratio determined in accordance with Article 429 of Regulation (EU) No 575/2013 and mismatches between assets and obligations.

2 Competent authorities shall ensure that institutions address the risk of excessive leverage in a precautionary manner by taking due account of potential increases in the risk of excessive leverage caused by reductions of the institution's own funds through expected or realised losses, depending on the applicable accounting rules. To that end, institutions shall be able to withstand a range of different stress events with respect to the risk of excessive leverage.
