

Commission Implementing Directive 2014/21/EU of 6
February 2014 determining minimum conditions and Union
grades for pre-basic seed potatoes (Text with EEA relevance)

Article 1

Definitions

For the purposes of this Directive, the following definitions shall apply:

- (1) 'mother plant' means an identified plant from which material is taken for propagation;
- (2) 'micro-propagation' means the practice of rapidly multiplying plant material to produce a large number of plants, using culture *in vitro* of differentiated vegetative buds or meristem taken from a plant.
