Article 93

Principles of awarding contracts

1 Member States shall put in place national rules for the award of contracts subject to this Chapter, in order to ensure contracting entities comply with the principles of transparency and equal treatment of economic operators. Member States are free to determine the procedural rules applicable as long as such rules allow contracting entities to take into account the specificities of the services in question.

2 Member States shall ensure that contracting entities may take into account the need to ensure quality, continuity, accessibility, affordability, availability and comprehensiveness of the services, the specific needs of different categories of users, including disadvantaged and vulnerable groups, the involvement and empowerment of users and innovation. Member States may also provide that the choice of the service provider shall be made on the basis of the tender presenting the best price-quality ratio, taking into account quality and sustainability criteria for social services.
