## TITLE II

### PREPARATION

#### CHAPTER II

#### *Resolvability*

##### *Article 15*

#### **Assessment of resolvability for institutions**

1 Member States shall ensure that, after the resolution authority has consulted the competent authority and the resolution authorities of the jurisdictions in which significant branches are located insofar as is relevant to the significant branch, it assesses the extent to which an institution which is not part of a group is resolvable without the assumption of any of the following:

- a any extraordinary public financial support besides the use of the financing arrangements established in accordance with Article 100;
- b any central bank emergency liquidity assistance;
- c any central bank liquidity assistance provided under non-standard collateralisation, tenor and interest rate terms.

An institution shall be deemed to be resolvable if it is feasible and credible for the resolution authority to either liquidate it under normal insolvency proceedings or to resolve it by applying the different resolution tools and powers to the institution while avoiding to the maximum extent possible any significant adverse effect on the financial system, including in circumstances of broader financial instability or system-wide events, of the Member State in which the institution is established, or other Member States or the Union and with a view to ensuring the continuity of critical functions carried out by the institution. The resolution authorities shall notify EBA in a timely manner whenever an institution is deemed not to be resolvable.

2 For the purposes of the assessment of resolvability referred to in paragraph 1, the resolution authority shall, as a minimum, examine the matters specified in Section C of the Annex.

3 The resolvability assessment under this Article shall be made by the resolution authority at the same time as and for the purposes of the drawing up and updating of the resolution plan in accordance with Article 10.

EBA shall submit those draft regulatory technical standards to the Commission by 3 July 2015.

Power is conferred on the Commission to adopt the draft regulatory technical standards referred to in the first subparagraph in accordance with Articles 10 to 14 of Regulation (EU) No 1093/2010.
