Section 2

Recovery planning

Article 5

Recovery plans

1 Member States shall ensure that each institution, that is not part of a group subject to consolidated supervision pursuant to Articles 111 and 112 of Directive 2013/36/EU, draws up and maintains a recovery plan providing for measures to be taken by the institution to restore its financial position following a significant deterioration of its financial situation. Recovery plans shall be considered to be a governance arrangement within the meaning of Article 74 of Directive 2013/36/EU.

2 Competent authorities shall ensure that the institutions update their recovery plans at least annually or after a change to the legal or organisational structure of the institution, its business or its financial situation, which could have a material effect on, or necessitates a change to, the recovery plan. Competent authorities may require institutions to update their recovery plans more frequently.

3 Recovery plans shall not assume any access to or receipt of extraordinary public financial support.

4 Recovery plans shall include, where applicable, an analysis of how and when an institution may apply, in the conditions addressed by the plan, for the use of central bank facilities and identify those assets which would be expected to qualify as collateral.

5 Without prejudice to Article 4, Member States shall ensure that the recovery plans include the information listed in Section A of the Annex. Member States may require that additional information is included in the recovery plans.

Recovery plans shall also include possible measures which could be taken by the institution where the conditions for early intervention under Article 27 are met.

6 Member States shall require that recovery plans include appropriate conditions and procedures to ensure the timely implementation of recovery actions as well as a wide range of recovery options. Member States shall require that recovery plans contemplate a range of scenarios of severe macroeconomic and financial stress relevant to the institution's specific conditions including system-wide events and stress specific to individual legal persons and to groups.

7 EBA, in close cooperation with the European Systemic Risk Board (ESRB), shall, by 3 July 2015, issue guidelines in accordance with Article 16 of Regulation (EU) No 1093/2010 to specify further the range of scenarios to be used for the purposes of paragraph 6 of this Article.

8 Member States may provide that competent authorities have the power to require an institution to maintain detailed records of financial contracts to which the institution concerned is a party.

9 The management body of the institution referred to in paragraph 1 shall assess and approve the recovery plan before submitting it to the competent authority.

10 EBA shall develop draft regulatory technical standards further specifying, without prejudice to Article 4, the information to be contained in the recovery plan referred to in paragraph 5 of this Article.

EBA shall submit those draft regulatory technical standards to the Commission by 3 July 2015.

Power is delegated to the Commission to adopt the regulatory technical standards referred to in the first subparagraph in accordance with Articles 10 to 14 of Regulation (EU) No 1093/2010.
