DATA REPORTING SERVICES

Section 1

Authorisation procedures for data reporting services providers

Article 63

Requirements for the management body of a data reporting services provider

1 Member States shall require that all members of the management body of a data reporting services provider shall at all times be of sufficiently good repute, possess sufficient knowledge, skills and experience and commit sufficient time to perform their duties.

The management body shall possess adequate collective knowledge, skills and experience to be able to understand the activities of the data reporting services provider. Each member of the management body shall act with honesty, integrity and independence of mind to effectively challenge the decisions of the senior management where necessary and to effectively oversee and monitor management decision-making where necessary.

2 ESMA shall, by 3 January 2016, develop guidelines for the assessment of the suitability of the members of the management body described in paragraph 1, taking into account different roles and functions carried out by them and the need to avoid conflicts of interest between members of the management body and users of the APA, CTP or ARM.

3 Member States shall require the data reporting services provider to notify the competent authority of all members of its management body and of any changes to its membership, along with all information needed to assess whether the entity complies with paragraph 1.

4 Member States shall ensure that the management body of a data reporting services provider defines and oversees the implementation of the governance arrangements that ensure effective and prudent management of an organisation including the segregation of duties in the organisation and the prevention of conflicts of interest, and in a manner that promotes the integrity of the market and the interest of its clients.

5 The competent authority shall refuse authorisation if it is not satisfied that the person or the persons who shall effectively direct the business of the data reporting services provider
