

Commission Implementing Directive (EU) 2020/177 of 11 February 2020 amending Council Directives 66/401/EEC, 66/402/EEC, 68/193/EEC, 2002/55/EC, 2002/56/EC and 2002/57/EC, Commission Directives 93/49/EEC and 93/61/EEC and Implementing Directives 2014/21/EU and 2014/98/EU as regards pests of plants on seeds and other plant reproductive material (Text with EEA relevance)

Article 10

Amendment of Implementing Directive 2014/98/EU

Implementing Directive 2014/98/EU is amended as follows:

- (1) Article 10 is replaced by the following:

Article 10

Health requirements for pre-basic mother plants and for pre-basic material

- 1 A pre-basic mother plant or pre-basic material shall, by visual inspection in the facilities, fields and lots, be found free from the regulated non-quarantine pests (RNQPs), listed in Annexes I and II, and subject to the requirements of Annex IV, as regards the genus or species concerned. That visual inspection shall be carried out by the responsible official body and, where appropriate, the supplier.

The responsible official body and, where appropriate the supplier, shall carry out sampling and testing of the pre-basic mother plant or pre-basic material for the RNQPs listed in Annex II, and subject to the requirements of Annex IV, with regard to the genus or species concerned and category.

In case of doubts concerning the presence of the RNQPs listed in Annex I, the responsible official body and, where appropriate the supplier, shall carry out sampling and testing of the pre-basic mother plant or pre-basic material concerned.

- 2 As regards sampling and testing, as provided for in paragraph 1, Member States shall apply protocols of EPPO, or other internationally recognised protocols. Where such protocols do not exist, the responsible official body shall apply the relevant protocols established at national level. In that case, Member States shall, on request, make available those protocols to the other Member States and to the Commission.

The responsible official body and, where appropriate, the supplier shall submit the samples to laboratories officially accepted by the responsible official body.

- 3 In the case of a positive test result for any of the RNQPs, listed in Annexes I and II, as regards the genus or species concerned, the supplier shall remove the infested pre-basic mother plant or pre-basic material from the vicinity of other pre-basic mother plants and pre-basic material pursuant to Article 3(3) or Article 4(3), or take appropriate measures pursuant to Annex IV.

- 4 The measures to ensure compliance with the requirements of paragraph 1 are set out in Annex IV, with regard to the genus or species concerned and category.

*Status: EU Directives are being published on this site to aid cross referencing from UK legislation. After
IP completion day (31 December 2020 11pm) no further amendments will be applied to this version.*

5 Paragraph 1 shall not apply to pre-basic mother plants and pre-basic material during cryopreservation.;

(2) the title of Article 11 is replaced by the following:

Soil requirements for pre-basic mother plants and pre-basic material;

(3) Article 16 is replaced by the following:

Article 16

Health requirements for basic mother plants and basic material

1 A basic mother plant or basic material shall, by visual inspection in the facilities, fields and lots, be found free from the RNQPs, listed in Annexes I and II, and subject to the requirements of Annex IV, as regards the genus or species concerned. That visual inspection shall be carried out by the responsible official body and, where appropriate, the supplier.

The responsible official body and, where appropriate the supplier, shall carry out sampling and testing of the basic mother plant or basic material for the RNQPs listed in Annex II, and subject to the requirements of Annex IV, with regard to the genus or species concerned and category.

In case of doubts concerning the presence of the RNQPs listed in Annex I, the responsible official body and, where appropriate, the supplier shall carry out sampling and testing of the basic mother plant or basic material concerned.

2 As regards sampling and testing, as provided for in paragraph 1, Member States shall apply protocols of EPPO, or other internationally recognised protocols. Where such protocols do not exist, the responsible official body shall apply the relevant protocols established at national level. In that case, Member States shall, on request, make available those protocols to the other Member States and to the Commission.

The responsible official body and, where appropriate, the supplier shall submit samples to laboratories officially accepted by the responsible official body.

3 In the case of a positive test result for any of the RNQPs, listed in Annexes I and II, as regards the genus or species concerned, the supplier shall remove the infested basic mother plant or basic material from the vicinity of other basic mother plants and basic material pursuant to Article 15(7) or Article 15(8), or take appropriate measures pursuant to Annex IV.

4 The measures to ensure compliance with the requirements of paragraph 1 are set out in Annex IV, with regard to the genus or species concerned and category.

5 Paragraph 1 shall not apply to basic mother plants and basic material during cryopreservation.;

(4) the title of Article 17 is replaced by the following:

Soil requirements for basic mother plants and basic material;

(5) Article 21 is replaced by the following:

Article 21

Health requirements for certified mother plants and certified material

1 A certified mother plant or certified material shall, by visual inspection in the facilities, fields and lots, be found free from the RNQPs, listed in Annexes I and II, and subject to the requirements of Annex IV, as regards the genus or species concerned. That visual inspection shall be carried out by the responsible official body and, where appropriate, the supplier.

The responsible official body and, where appropriate the supplier, shall carry out sampling and testing of the certified mother plant or certified material, for the RNQPs listed in Annex II, and subject to the requirements of Annex IV, with regard to the genus or species concerned and category.

In case of doubts concerning the presence of the RNQPs listed in Annex I, the responsible official body and, where appropriate, the supplier shall carry out sampling and testing of the certified mother plant or certified material concerned.

2 As regards sampling and testing, as provided for in paragraph 1, Member States shall apply protocols of EPPO, or other internationally recognised protocols. Where such protocols do not exist, the responsible official body shall apply the relevant protocols established at national level. In that case, Member States shall, on request, make available those protocols to the other Member States and to the Commission.

The responsible official body and, where appropriate, the supplier shall submit samples to laboratories officially accepted by the responsible official body.

3 In the case of a positive test result for any of the RNQPs, listed in Annexes I and II, as regards the genus or species concerned, the supplier shall remove the infested certified mother plant or certified material from the vicinity of other certified mother plants and certified material pursuant to Article 20(7) or Article 20(8), or take appropriate measures pursuant to Annex IV.

4 The measures to ensure compliance with the requirements of paragraph 1 are set out in Annex IV, with regard to the genus or species concerned and category.

5 Paragraph 1 shall not apply to certified mother plants and certified material during cryopreservation.;

(6) the title of Article 22 is replaced by the following:

Soil requirements for certified mother plants and certified material;

(7) the third subparagraph of Article 22(2) is replaced by the following:

Unless otherwise stated, sampling and testing shall not be carried out in the case of certified fruit plants.;

(8) Article 26 is replaced by the following:

*Status: EU Directives are being published on this site to aid cross referencing from UK legislation. After
IP completion day (31 December 2020 11pm) no further amendments will be applied to this version.*

Article 26

Health requirements for CAC material

1 CAC material shall, by visual inspection carried out by the supplier in the facilities, fields and lots at the stage of production, be found practically free from the pests listed in Annexes I and II, as regards the genus or species concerned, unless stated otherwise in Annex IV.

The supplier shall carry out sampling and testing of the identified source of material or CAC material for the RNQPs listed in Annex II, and subject to the requirements of Annex IV, with regard to the genus or species concerned and category.

In case of doubts concerning the presence of the RNQPs listed in Annex I, the supplier shall carry out sampling and testing of the identified source of material or CAC material concerned.

CAC propagating material and CAC fruit plants in lots, after the stage of production, shall only be marketed if found free from signs or symptoms of the pests listed in Annexes I and II, upon visual inspection carried out by the supplier.

The supplier shall carry out the measures to ensure compliance with the requirements of paragraph 1 pursuant to Annex IV, with regard to the genus or species concerned and category.

2 Paragraph 1 shall not apply to CAC material during cryopreservation.;

(9) Article 27a is inserted:

Article 27a

Requirements with regard to the production site, place of production or area

In addition to the health and soil requirements of Articles 9, 10, 11, 16, 17, 21, 22 and 26, propagating material and fruit plants shall be produced in accordance with the requirements for the production site, place of production, or area as laid down in Annex IV, in order to limit the presence of the RNQPs listed in that Annex for the genus or species concerned.;

(10) Annexes I to IV are replaced by the text in Annex X to this Directive.
