ANNEX XIV

Class XIV: Conditions imposed in respect of the placing of public contracts for works and supplies

A. Scope

This class covers cases where, pursuant to a provision laid down by the public authorities, a railway undertaking is required to place a proportion of its contracts for works and supplies with domestic undertakings based in certain regions of the Member State, or with specified categories of domestic contractors.

B. Principles of calculation

A comparison shall be made between the price charged by the party to whom the contract is preferentially awarded and the price quoted in the economically most favourable tender for that contract, or failing such a tender, for a similar contract.

The amount of the compensation shall be the difference between those two prices.
