

## COUNCIL REGULATION (EEC) No 2789/79

of 10 December 1979

## opening preferential tariffs for certain products originating in developing countries

THE COUNCIL OF THE EUROPEAN COMMUNITIES,

Having regard to the Treaty establishing the European Economic Community,

Having regard to the proposal from the Commission <sup>(1)</sup>,

Having regard to the opinion of the European Parliament <sup>(2)</sup>,

Having regard to the opinion of the Economic and Social Committee <sup>(3)</sup>,

Whereas, within the context of Unctad, the European Economic Community offered to grant tariff preferences on finished and semi-finished products coming from developing countries; whereas the preferential treatment proposed in that offer covers, generally speaking, all finished and semi-finished industrial products covered by Chapters 25 to 99 of the Common Customs Tariff which originate in developing countries; whereas the preference consists in the granting of exemption from customs duties; whereas preferential imports are effected up to the level of ceilings calculated by value in respect of each product on the basis of factors which are uniform for all the products; whereas in order that the preferences granted to the most competitive developing country or countries should be restricted and that a substantial share should be reserved for the least competitive, preferential imports from any one developing country in respect of a given product should not, as a general rule, exceed 50 % of the ceiling fixed for that product;

Whereas, in the offer made by the Community, the annual ceilings should normally be calculated on the basis of the total value for 1968 cif imports from the countries benefiting from this scheme, excluding those already enjoying various preferential tariff arrangements granted by the Community (basic amount), plus 5 % of the value of cif imports from the other countries and

from the countries already enjoying such arrangements (additional amount); whereas such additional amount is variable and is calculated each year on the basis of the latest figures available, provided that this entails no reduction in the ceiling;

Whereas the offer made by the Community includes a clause stating that the Community drew up the offer on the assumption that all the main industrialized countries which are members of the OECD would participate in granting preferences and would make similar efforts in this direction; whereas, moreover, it is evident from the conclusions worked out in Unctad that this offer, while being of a temporary nature, does not constitute a binding commitment and, in particular, may be withdrawn wholly or in part at a later date; whereas this possibility may be adopted *inter alia* with a view to remedying any unfavourable situations which might arise in the ACP States following the implementation of the generalized preference scheme;

Whereas, moreover, the conference of the Heads of State or of Government of the Member States and the States acceding to the European Communities held in Paris from 19 to 21 October 1972 invited the Community institutions and the Member States progressively to adopt an overall policy of development cooperation on a world-wide scale comprising in particular the improvement of generalized preferences with the aim of achieving a steady increase in imports of manufactures from the developing countries;

Whereas tariff preferences have been applied from the second half of 1971 under the conditions set out above; whereas these preferences should continue to be applied throughout 1980; whereas, having regard to the terms of the offer concerned and to the need to improve the generalized preferences, the abovementioned basic and additional amounts refer to 1977; whereas, however, the application of this method of calculation should remain compatible with the progressive nature of the preference scheme in such a way as to provide a period of adaptation for the industrial sectors affected in the Community; whereas for this purpose it would appear appropriate to limit for some products the considerable improvement resulting from the said method to a level which does not exceed 110 or 115 % of the corresponding preferential amounts open in 1979;

<sup>(1)</sup> OJ No C 234, 17. 9. 1979, p. 26.

<sup>(2)</sup> OJ No C 309, 10. 12. 1979, p. 57.

<sup>(3)</sup> OJ No C 297, 28. 11. 1979, p. 14.

Whereas the European unit of account (EUA) should remain the only unit to be used within the preference system, along with its rates for conversion into national currencies;

Whereas, in accordance with Protocol 23 to the Act of Accession <sup>(1)</sup>, the generalized tariff preference scheme became fully applicable in the new Member States on 1 January 1974;

Whereas it is expedient, therefore, in respect of the products referred to in Annex A which originate in the countries and territories listed in Annex B, that the Community should allow, for each category of these products and throughout 1980, duty-free imports within the limits of the Community ceilings calculated in the manner set out above; whereas the benefit of such tariff exemption should be reserved for products originating in the countries and territories under consideration, the concept of 'originating products' being determined in accordance with the procedure laid down in Article 14 of Council Regulation (EEC) No 802/68 of 27 June 1968 on the common definition of the concept of the origin of goods <sup>(2)</sup>; whereas charges against each of these ceilings must, as a general rule, come within a Community maximum amount of 50 % in respect of the products originating in any of the abovementioned countries; whereas, however, in order in particular to safeguard access by all the abovementioned countries and territories to this preferential scheme, the Community maximum amount for certain products should be reduced to a lower percentage;

Whereas, however, in the multilateral trade negotiations, in accordance with paragraph 6 of the Tokyo declaration, the Community reaffirmed that special treatment should be granted to the least developed among the developing countries whenever this is possible; whereas, therefore, charges of products originating in the least developed developing countries appearing on the list drawn up under United Nations resolution 3487 (XXX) of 12 December 1975 should not be subject to the Community ceiling or maximum amount;

Whereas, under these circumstances, these objectives may be reached by applying a method of administration based on the charging, at Community level, against the abovementioned ceilings and maximum amounts, of imports of the products concerned as and when these products are entered for free circulation and are accompanied by a certificate of origin; whereas this method of administration must make provision for the re-introduction of the levying of customs duties as soon as the said ceilings or maximum amounts are reached at Community level;

Whereas such method of administration calls for very close and particularly rapid cooperation between Member States and the Commission, which must, in particular, be able to observe the extent to which charges are made against the ceilings and maximum amounts and inform Member States thereof; whereas such cooperation should be particularly close in view of the need for the Commission to be able to take appropriate measures to re-introduce the levying of customs duties either generally or individually when any of the ceilings or maximum amounts are reached,

HAS ADOPTED THIS REGULATION:

#### *Article 1*

1. From 1 January to 31 December 1980, the Common Customs Tariff duties on the products listed in Annex A shall be totally suspended, subject to the provisions of Articles 2 and 4 (2) of this Regulation.

2. This suspension shall be enjoyed solely by products originating in the countries and territories listed in Annex B. However, imports already enjoying exemption from customs duties under other preferential tariff arrangements shall not be charged against the ceilings specified in paragraph 3. For the purposes of the application of this Regulation, the concept of originating products shall be determined in accordance with the procedure laid down in Article 14 of Regulation (EEC) No 802/68.

3. Subject to the provisions of Articles 2 and 4 (2) and with the exception of certain products the value of the ceilings for which is given in Annex A, this suspension shall be granted, in respect of each category of products, within a Community ceiling which shall be expressed in European units of account and which shall be equal to the amount obtained by adding together the value of cif imports in 1977 of the products concerned to the Community from the countries and territories enjoying these arrangements, excluding those already enjoying various preferential tariff arrangements granted by the Community, and 5 % of the value of cif imports in 1977 from other countries and from countries and territories already enjoying such arrangements. However, in certain cases indicated by a footnote in Annex A, the ceiling resulting from the sum of this addition may in no case exceed 110 or 115% of the preferential ceilings open for 1979.

4. Subject to the provisions of Articles 2 and 4 (2), within each ceiling thus calculated, charges of products originating in any one of the countries listed in Annex B should not exceed a Community maximum amount

<sup>(1)</sup> OJ No L 73, 27. 3. 1972, p. 14.

<sup>(2)</sup> OJ No L 148, 28. 6. 1968, p. 1.

equivalent to 50 % of this ceiling, with the exception of certain products for which the maximum amount shall be reduced to the percentage or value shown in Annex A.

5. Any amendment to Annex B, in particular by the addition of new countries enjoying tariff preferences, may entail corresponding adjustments to the Community ceilings and the maximum amounts referred to in paragraphs 3 and 4.

#### *Article 2*

1. As soon as the ceilings fixed or calculated in accordance with the provisions of Article 1 (3), which are laid down for Community imports of products originating in all of the countries referred to in Article 1 (2), are reached at Community level, the levying of customs duties on imports of the products in question from all the countries concerned may at any time be re-introduced until the end of the period referred to in Article 1 (1).

2. As soon as the maximum amounts calculated in accordance with the provisions of Article 1 (4), which are laid down for Community imports of products originating in each of the countries referred to in Article 1 (2), are reached for any one of these countries at Community level, the levying of customs duties on imports of the products in question from the country concerned may at any time be re-introduced until the end of the period referred to in Article 1 (1).

3. Paragraphs 1 and 2 shall not apply to the imports in question originating in the countries listed in Annex C.

#### *Article 3*

1. Imports of the products in question shall be charged against the Community ceilings and maximum amounts as and when the products are entered for free

circulation, on the basis of the customs value of the said products, and provided that they are accompanied by a certificate of origin in accordance with the rules laid down in Article 1 (2).

2. Goods may be charged against a ceiling or maximum amount only if the certificate of origin referred to in paragraph 1 is submitted before the date on which the levying of duties is re-introduced.

3. The extent to which the ceilings and maximum amounts have been used shall be determined at Community level on the basis of the imports charged in accordance with paragraphs 1 and 2.

#### *Article 4*

1. The Commission, in close cooperation with the Member States, shall take all necessary measures to ensure that the above provisions are applied.

2. The Commission shall re-introduce the levying of customs duties in respect of all the countries referred to in Article 1 (2) or in respect of any one of them by means of a Regulation in accordance with the conditions laid down in Article 2 (1) and (2).

#### *Article 5*

Member States shall inform the Commission, on request or at least monthly, of imports of the products in question actually charged against the Community ceilings and maximum amounts laid down in Article 1 (3) and (4).

#### *Article 6*

This Regulation shall enter into force on 1 January 1980.

This Regulation shall be binding in its entirety and directly applicable in all Member States.

Done at Brussels, 10 December 1979.

*For the Council*

*The President*
