

## COUNCIL REGULATION (EEC) No 4120/86

of 22 December 1986

opening, allocating and providing for the administration of a Community tariff quota for wines of fresh grapes falling within subheading ex 22.05 C of the Common Customs Tariff and originating in Cyprus (1987)

THE COUNCIL OF THE EUROPEAN COMMUNITIES,

Having regard to the Treaty establishing the European Economic Community, and in particular Article 113 thereof,

Having regard to the proposal from the Commission,

Whereas the Supplementary Protocol to the Agreement establishing an Association between the European Economic Community and Cyprus<sup>(1)</sup> came to an end on 31 December 1980, whereas to avoid interruption of its trade relations with that country, the Community has made applicable for 1984 the provisions of the abovementioned Protocol in Council Regulation (EEC) No 3700/83 of 22 December 1983 laying down the arrangements applicable to trade with Cyprus<sup>(2)</sup>;

Whereas, pending the definition of arrangements applicable beyond 31 December 1984, it is necessary to extend provisionally for 1987 the arrangements which the Community applies currently to trade with Cyprus on the basis of the abovementioned Protocol;

Whereas the abovementioned Protocol provides for the opening of an annual Community tariff quota of 10 000 hectolitres of certain wines of fresh grapes, in containers holding two litres or less, falling within subheading ex 22.05 C of the Common Customs Tariff and originating in Cyprus, at rates of customs duty equal to 25 % of the customs duty in the Common Customs Tariff, whereas the Community tariff quota should be opened for the period 1 January to 31 December 1987;

Whereas the wines in question are subject to compliance with the free-at-frontier reference price; whereas, in order that such wines may benefit from this tariff quota, Article 18 of Regulation (EEC) No 337/79<sup>(3)</sup> as last amended by Regulation (EEC) No 3805/85<sup>(4)</sup>, must be complied with;

Whereas, in the absence of a protocol such as that provided for in Articles 179 and 366 of the Act of Accession of Spain

and Portugal, the Community must take the measures referred to in Articles 180 and 367 of the said Act; whereas the tariff measure in question therefore applies to the Community of Ten;

Whereas it is in particular necessary to ensure for all Community importers equal and uninterrupted access to the abovementioned quota and uninterrupted application of the rates laid down for that quota to all imports of the products concerned into all Member States until the quota has been used up; whereas, having regard to the above principles, the Community nature of the quota can be respected by allocating the Community tariff quota among the Member States; whereas, in order to reflect as accurately as possible the true trend of the market in the products in question, such allocation should be in proportion to the requirements of the Member States, calculated by reference to the statistics for imports of the products in question from Cyprus over a representative reference period and also to the economic outlook for the quota period concerned;

Whereas, however, neither Community nor national statistics showing the breakdown for each of the types of wine in question are available and no reliable estimates of future imports can be made; whereas, in these circumstances, the quota should be allocated in initial shares on the basis of the likely demand for these wines on the markets of the various Member States;

Whereas, in order to take into account import trends for the products concerned in the various Member States, the quota volume should be divided into two instalments, the first being shared among the Member States and the second constituting a reserve to cover at a later date the requirements of Member States which have used up their initial quota shares; whereas, in order to give importers in each Member State a certain degree of security, the first instalment of the Community quota should under the present circumstances be fixed at 80 % of the quota volume;

Whereas the Member States' initial shares may be used up at different times; whereas, in order to take this fact into account and avoid any break in continuity, any Member State which has almost used up its initial quota share should draw an additional share from the reserve; whereas

(1) OJ No L 172, 28. 6. 1978, p. 2.

(2) OJ No L 369, 30. 12. 1983, p. 1.

(3) OJ No L 54, 5. 3. 1979, p. 1.

(4) OJ No L 367, 31. 12. 1985, p. 39.

this must be done by each Member State as and when each of its additional shares is almost used up, and repeated as many times as the reserve allows; whereas the initial and additional shares must be valid until the end of the quota period; whereas this method of administration requires close cooperation between Member States and the Commission, and the latter must be in position to monitor the extent to which the quota volume has been used up and to inform the Member States;

Whereas, if at a given date in the quota period a substantial quantity of an initial share remains unused in any Member State, it is essential that that Member State should return a significant proportion to the reserve, to prevent a part of any Community quota from remaining unused in one Member State when it could be used in others;

Whereas, since, the Kingdom of Belgium, the Kingdom of the Netherlands and the Grand Duchy of Luxembourg are united within and jointly represented by the Benelux Economic Union, any operation relating to the administration of the quota shares allocated to that economic union may be carried out by any of its members,

HAS ADOPTED THIS REGULATION:
