COUNCIL REGULATION (EEC) No 3977/87

of 21 December 1987

**fixing, for certain fish stocks and groups of fish stocks, the total allowable catches for 1988
and certain conditions under which they may be fished**

THE COUNCIL OF THE EUROPEAN COMMUNITIES,

Having regard to the Treaty establishing the European Economic Community,

Having regard to the Act of Accession of Spain and Portugal and in particular Articles 161, 164, 165, 349 and 352 thereof,

Having regard to Council Regulation (EEC) No 170/83 of 25 January 1983 establishing a Community system for the conservation and management of fishery resources ⁽¹⁾, and in particular Article 11 thereof,

Having regard to the proposal from the Commission,

Whereas pursuant to the terms of Article 2 of Regulation (EEC) No 170/83, it is incumbent upon the Council to formulate, in the light of the available scientific advice and, in particular, of the report prepared by the Scientific and Technical Committee for Fisheries, the conservation measures necessary to achieve the aims set out in Article 1 of the abovementioned Regulation;

Whereas pursuant to the terms of Article 3 of Regulation (EEC) No 170/83, it is incumbent upon the Council to establish the total allowable catches (TAC) by stock or group of stocks, the share available for the Community and also the specific conditions under which the catches must be made; whereas, in order to ensure effective management, the shares available for the Community in 1988 should be allocated among the Member States in accordance with Article 4 of the abovementioned Regulation;

Whereas, in order to ensure the protection of fishing grounds and fish stocks and the balanced exploitation of the resources of the sea, in the interests of both fishermen and consumers, there should be fixed, each year for the different species of which the catches must be restricted, a TAC per stock or group of stocks and the share of these catches available to the Community taking into account its commitments to third countries;

Whereas Article 161 of the Act of Accession fixes the share of the TACs to be allocated to Spain for certain stocks in certain zones;

Whereas Article 164 of the Act of Accession establishes the activities which may be carried out under certain circumstances by vessels flying the flag of Member States, with the exception of Spain and Portugal, in the waters of the Atlantic Ocean falling under the sovereignty or within the jurisdiction of Spain and covered by the International Council for the Exploration of the Sea (ICES);

Whereas Article 165 of the Act of Accession establishes the activities which may be carried out under certain circumstances by vessels flying the flag of Portugal in the waters falling under the sovereignty or within the jurisdiction of Spain and covered by ICES and the Fishery Committee for the Eastern Central Atlantic (CECAF);

Whereas Article 349 of the Act of Accession establishes certain fishing possibilities under certain conditions for vessels flying the flag of Portugal in the waters falling under the sovereignty or within the jurisdiction of Member States, with the exception of Spain and Portugal, and covered by ICES;

Whereas Article 352 of the Act of Accession establishes the activities which may be carried out under certain conditions by vessels flying the flag of Spain and listed and/or registered in a port situated in the territory to which the common fisheries policy applies in the waters falling under the sovereignty or within the jurisdiction of Portugal and covered by ICES and CECAF;

Whereas, in conformity with the procedure provided for in Article 2 of the fisheries Agreement between the European Economic Community and the Kingdom of Norway ⁽²⁾, Article 2 of the fisheries Agreement between the European

⁽¹⁾ OJ No L 24, 27. 1. 1983, p. 1.

⁽²⁾ OJ No L 226, 29. 8. 1980, p. 48.

Economic Community and the Kingdom of Sweden ⁽¹⁾, and Article 2 of the fisheries Agreement between the European Economic Community and the Government of Denmark and the local Government of the Faroe Islands ⁽²⁾, the parties have consulted on their reciprocal fishing rights for 1988;

Whereas these bilateral consultations have been successfully concluded and whereas, as a result, it is possible to fix the TACs, the Community shares and the quotas for certain joint and autonomous stocks, of which part is allocated to Norway, Sweden and the Faroe Islands;

Whereas trilateral consultations with Norway and Sweden concerning reciprocal fishing rights in the Skagerrak and the Kattegat have been concluded and whereas it is possible, in consequence, to fix definitively the TACs and the Community shares available for the stocks in these areas;

Whereas the Community has signed the United Nations Convention on the Law of the Sea, which contains principles and rules relating to the conservation and management of the living resources of the sea;

Whereas, in the framework of its wider international obligations, the Community participates in efforts to conserve fish stocks arising in international waters; whereas the extent to which such stocks are fished by vessels of the Community should be viewed in the light of overall fishing activity and the contribution made hitherto by the Community towards their conservation should be taken into account;

Whereas the International Baltic Sea Fishery Commission has recommended TACs for the stocks of herring and sprat in the waters of the Baltic Sea and the shares thereof for each contracting party; whereas the Community share of the stock of cod should apply to the whole of the Baltic Sea;

Whereas, in order to ensure effective management, it is necessary to fix a TAC for European plaice in ICES divisions III b, c, d (EC zone);

Whereas, in order to ensure effective management, the TACs available for the Community in 1988 should be distributed among the Member States in a manner which assures relative stability of fishing activities;

Whereas, in the case of certain stocks fished mainly for reduction to meal and oil, it does not appear necessary to make quota allocations;

Whereas, pursuant to Article 161 of the Act of Accession, flat-rate amounts of horse mackerel and blue whiting are allocated to Spain together with, for a three-year period, a supplementary quantity of hake which may not exceed 4 500 tonnes and the size of which is determined annually on the basis of the state of the stocks concerned;

Whereas those flat-rate amounts of horse mackerel and blue whiting must be distributed among ICEAS sub-areas and divisions V b (EC zone), VI, VII and VIII a, b and d);

Whereas the overall level of the share of hake available to the Community in ICES sub-areas and divisions V b (EC zone), VI, VII and VIII a and b reaches 60 000 tonnes for 1988; whereas therefore there is no reason to allocate to Spain for this year the said flat-rate amount of hake;

Whereas, pursuant to Article 158 of the Act of Accession, a distinction must be made between fishing for demersal species and fishing for species other than demersal and whereas the group to which blue whiting and horse mackerel belong must therefore be defined;

Whereas, in order to ensure effective management of these TACs, the specific conditions under which fishing operations occur should be established;

Whereas, taking account of the latest scientific advice, it is necessary to establish seasonal limitations on certain fishing activities in the North Sea in order to limit fishing on juvenile cod;

Whereas, it is necessary to extend the seasonal limitations on certain fishing activities in the Skagerrak and Kattegat in order to limit fishing on juvenile herring;

Whereas, in order to ensure better exploitation of the herring stock, the allowed transfer of quotas from ICES divisions IV c and VII d to ICES divisions IV b should be increased;

Whereas in order to allow better utilization of the quota for hake, transfers from the zone V b (EC zone), VI, VII, XII, XIV and from the zone VIII a, b, d to the zone II a (EC zone), IV (EC zone) should be permitted,

HAS ADOPTED THIS REGULATION:

Article 1

This Regulation fixed for 1988, for certain fish stocks and groups of fish stocks, TACs per stock or group of stocks, the share of these catches available to the Community, the allocation of that share among Member States and the specific conditions under which these stocks may be fished ⁽³⁾.

For the purposes of this Regulation, the Skagerrak is bounded on the west by a line drawn from the Hanstholm lighthouse to the Lindesnes lighthouse and on the south by a line drawn from the Skagen lighthouse to the Tistlarna lighthouse and from this point to the nearest point on the Swedish coast.

⁽²⁾ OJ No L 226, 29. 8. 1980, p. 12.

⁽³⁾ The definition of the ICES and CECAF areas referred to in this Regulation are given in Commission communications 85/C 347/05 (OJ No C 347, 31. 12. 1985, p. 14) and 85/C 335/02 (OJ No C 335 24. 12. 1985, p. 2), respectively.

For the purposes of this Regulation, the Kattegat is bounded on the north by a line drawn from the Skagen lighthouse to the Tistlarna lighthouse and from this point to the nearest point on the Swedish coast and on the south by a line drawn from Hasenøre to Gnibens Spids, from Korshage to Spodsbjerg and from Gilbjerg Hoved to Kullen.

For the purposes of this Regulation, the North Sea shall comprise ICES sub-area IV and that part of ICES division III a which is not covered by the definition of the Skagerrak given in this Article.

Article 2

TACs for stocks or groups of stocks to which Community rules apply and the shares of these catches available to the Community are hereby fixed for 1988 as set out in the Annex.

Article 3

The allocation among the Member States of the share available to the Community of the TACs mentioned in the preceding Article is fixed in the Annex.

This allocation shall be without prejudice to exchanges made pursuant to Article 5 (1) of Regulation (EEC) No 170/83 and re-allocations made pursuant to Article 11 (4) of Regulation (EEC) No 2241/87 ⁽¹⁾.

Article 4

As regards the herring stock of the North Sea and of the eastern English Channel, transfers of up to 50 % of the quotas may be effected from ICES divisions IV c and VII d to ICES division IV b.

As regards the hake stock in zones II a (EC zone) and IV (EC zone), Member States having a quota in these zones may on exhaustion of this quota, make transfers from zones V b (EC zone), VI, VII, XII, XIV, and from zone VIII a, b, d to zones II a (EC zone) and IV (EC zone).

However, the transfers referred to in this Article must be notified in advance to the Commission.

Article 5

- (i) the catches have been taken by vessels of a Member State having a quota and that quota is not exhausted, or

- (ii) the share of the TAC available to the Community (Community share) has not been allocated by quota among Member States and the Community share has not been exhausted, or
- (iii) for all species other than herring and mackerel, they are mixed with other species and have been taken with nets whose mesh size is 32 mm or less in regions 1 and 2 or 40 mm or less in region 3 in accordance with Article 2 (1) of Regulation (EEC) No 3094/86 ⁽²⁾ and are not sorted either on board or on landing, or
- (iv) for herring, they are within the limits of paragraph 2, or
- (v) for mackerel, they are mixed with horse-mackerel or pilchard and the mackerel does not exceed 10 % of the total weight of mackerel, horse-mackerel and pilchard on board and the catches are not sorted, or
- (vi) they are caught during the course of scientific investigations carried out pursuant to Regulation (EEC) No 3094/86.

All landings shall count against the quota, or, if the Community share has not been allocated between Member States by quotas, against the Community share, except for catches made under the provisions of (iii), (iv), (v) and (vi).

2. When fishing with nets whose mesh size is 32 mm or less in regions 1 and 2 other than the Skagerrak and the Kattegat and with nets whose mesh size is 40 mm or less in region 3, it shall be prohibited to retain on board catches of herring mixed with other species unless such catches are not sorted and unless the herring, if mixed with sprat only, does not exceed 10 % by weight of the total weight of herring and sprat combined.

When fishing with nets whose mesh size is 32 mm or less in regions 1 and 2 and with nets whose mesh size is 40 mm or less in region 3, it shall be prohibited to retain on board catches of herring mixed with other species unless such catches are not sorted and unless the herring, if mixed with other species whether or not including sprat, does not exceed 5 % by weight of the total weight of the herring and other species combined.

3. The determination of the percentage of by-catches and their disposal shall be made in accordance with Article 2 of Regulation (EEC) No 3094/86.
