

COUNCIL REGULATION (EEC) No 4086/87

of 21 December 1987

opening, allocating and providing for the administration of Community tariff quotas for certain fishery products originating in Sweden (1988)

THE COUNCIL OF THE EUROPEAN COMMUNITIES,

Having regard to the Treaty establishing the European Economic Community, and in particular Article 113 thereof,

Having regard to the Act of Accession of Spain and Portugal,

Having regard to the proposal from the Commission,

Whereas an agreement between the European Economic Community and Sweden was concluded on 22 July 1972; whereas, following the accession of Spain and Portugal to the Community, an Agreement in the form of an Exchange of Letters was concluded and approved by Decision 86/558/EEC⁽¹⁾;

Whereas the said Agreement provides for the opening of Community tariff quotas at a reduced rate of duty or at zero duty, for certain fishery products originating in Sweden; whereas, therefore, the tariff quotas in question should be opened for the period 1 January to 31 December 1988;

Whereas the Community has adopted, with effect from 1 January 1988, a combined nomenclature for goods which meets the requirements of the Common Customs

Tariff and the external trade statistics of the Community and statistics of trade between Member States; whereas, in order to accommodate specific Community measures; this nomenclature has been expanded into an integrated tariff of the European Communities (TARIC); whereas, with effect from the abovementioned date, the combined nomenclature and, where appropriate, the TARIC code numbers should be used for the description of the products covered by this Regulation;

Whereas equal and continuous access to the quotas should be ensured for all Community importers and the rates laid down for the quotas should be applied consistently to all imports until the quotas are exhausted; whereas, in the light of these principles, allocation of the tariff quotas among the Member States would seem to preserve the Community nature of the quotas; whereas, in order to correspond as closely as possible to the real trend of the market, the allocation should reflect the requirements of the Member States based on statistics of imports from Sweden during a representative reference period and on the economic outlook for the quota year in question;

Whereas, during the last three years for which statistics are available, imports into each of the Member States were as follows:

Whereas during the years under consideration, the products in question were imported only by certain Member States and not at all by the other Member States; whereas, under these circumstances, initial shares should be allocated to the importing Member States and the other Member States should be guaranteed access to the tariff quotas when notification is given of imports into those States of the products concerned; whereas these arrangements for allocation will also ensure uniform application of the duties of the Common Customs Tariff;

Whereas, in view of these factors, the initial percentage shares of the quota volumes can be expressed as follows:

(tonnes)

Member State	Cod, saithe, haddock	Fillets of cod	Caviar substitutes	Prepared herring	Other prepared fish	Shrimps and prawns
Benelux	0,64	1,13	0	6,25	38,22	5,15
Denmark	87,41	25,00	10,88	27,78	38,62	11,82
Germany	0,84	8,03	34,20	53,64	19,01	9,70
Greece	0	0	16,06	0	0	0,30
Spain	8,11	63,86	6,73	2,26	1,58	1,52
France	0,85	1,98	31,61	4,34	1,58	12,42
Ireland	0	0	0	0	0	0
Italy	0	0	0	0	0	48,79
Portugal	0,08	0	0	0	0	1,82
United Kingdom	2,07	0	0,52	5,73	0,99	8,48

Whereas, to allow for the trends of imports of the products concerned in the various Member States, the quota volumes should be divided into two parts, the first being allocated among certain Member States and the second held as a reserve to cover any subsequent requirements of Member States which have used up their initial shares and any requirements which might arise in the other Member States; whereas, to afford importers in each Member State some degree of certainty, the first

part of the tariff quotas should be set at a level which in this case could be 60 % or 67 % of each quota volume;

Whereas the initial shares of the Member States may be used up at different rates; whereas, in order to avoid any break in the continuity of supplies on this account, it should be provided that any Member State which has almost used up one of its initial shares should draw an

additional share from the corresponding reserve; whereas, each time one of its additional shares is almost used up, a Member State should draw a further share and so on as many times as the reserve so allows; whereas each of the initial and additional shares must be valid until the end of the quota period; whereas this form of administration requires close cooperation between the Member States and the Commission and the latter must be able to monitor the extent to which the quota volumes have been used up and inform the Member States accordingly;

Whereas if, at a given date in the quota period, a considerable quantity of a Member State's initial share remains unused, it is essential that the Member State concerned should return a significant proportion thereof to the corresponding reserve in order to prevent part of

the Community tariff quotas from remaining unused in one Member State when it could be used in others;

Whereas since the Kingdom of Belgium, the Kingdom of the Netherlands and the Grand Duchy of Luxembourg are united within and jointly represented by the Benelux Economic Union, any operation concerning the administration of the quota shares allocated to that economic union may be carried out by any one of its members,

HAS ADOPTED THIS REGULATION:

Member State not participating in the original allocation and applies to take advantage of the corresponding quota the Member State concerned shall inform the Commission and draw an amount corresponding to its requirements to the extent that the available balance of the reserve so permits.

Article 3

1. If a Member State has used 90 % or more of one of one of its initial shares as specified in Article 2 (2), or of that share less any portion returned to the corre-

spending reserve pursuant to Article 5, it shall forthwith, by notifying the Commission and to the extent that the reserve so permits, draw a second share equal to 10 % of its initial share, rounded up where necessary to the next whole number.

2. If, after one of its initial quota shares has been used up, a Member State has used 90 % or more of its second share as well, it shall forthwith, using the procedure provided for in paragraph 1, draw a third share equal to 5 % of the initial share, rounded up where necessary to the next whole number.

3. If, after its second share has been used up, a Member State has used 90 % or more of its third share, it shall, using the procedure provided for in paragraph 1, draw a fourth share equal to the third.

This process shall continue until the reserve is used up.

4. By way of derogation from paragraphs 1, 2 and 3, Member States may draw smaller shares than those specified in the said paragraphs if there is reason to believe that they might not be used in full. Member States shall inform the Commission of their reasons for applying this paragraph.

Article 4

Each of the additional shares drawn pursuant to Article 3 shall be valid until 31 December 1988.

Article 5

By 1 October 1988 at the latest Member States must return to the reserve the unused portion of their initial share which, on 15 September 1988, is in excess of 20 % of the initial volume. They may return a greater portion if there is reason to believe that it might not be used.

It shall inform the Member States not later than 5 October 1988 of the state of each of the reserves following any return of quota shares pursuant to Article 5.

It shall ensure that the drawing which exhausts the reserve does not exceed the balance available, and to this end shall notify the amount of that balance to the Member State making the final drawing.

Article 7

1. Member States shall take all appropriate measures to ensure that additional drawings of shares pursuant to Article 3 enable imports to be charged without interruption against their accumulated shares of the Community quotas.

2. Member States shall ensure that importers of the products concerned have free access to the quotas shares allocated to them.

3. Member States shall charge imports of the products concerned against their shares as and when the goods are entered with the customs authorities for free circulation.

4. The extent to which a Member State has used up its shares shall be determined on the basis of imports of the products concerned originating in Sweden and entered with the customs authorities for free circulation.

Article 8

At the request of the Commission, Member States shall inform it of imports actually charged against their quota shares.

Article 9

The Member States and the Commission shall cooperate closely to ensure that this Regulation is complied with.

Article 10

This Regulation shall enter into force on 1 January 1988.
