

Commission Regulation (EEC) No 954/87 of 1 April 1987 on sampling of catches for the purpose of determining the percentage of target species and protected species when fishing with small-meshed nets

Article 3

Estimation of weights of fish on board

If the vessel has small-mesh species on board, the representative of the competent authorities of the Member State, hereinafter called 'the inspector', shall determine the weight of each group of species on board necessary to calculate the percentage of target species and protected species which were caught with small-meshed nets and which have been sorted. In determining the weights the inspector shall take into account the information from any record of fishing operations (logbook) maintained in accordance with Article 3 of Council Regulation (EEC) No 2057/82⁽¹⁾ and Commission Regulation (EEC) No 2807/83⁽²⁾.
