

COUNCIL REGULATION (EEC) No 4194/88**of 21 December 1988**

**fixing, for certain fish stocks and groups of fish stocks, the total allowable catches for 1989
and certain conditions under which they may be fished**

THE COUNCIL OF THE EUROPEAN COMMUNITIES,

Having regard to the Treaty establishing the European Economic Community,

Having regard to Council Regulation (EEC) No 170/83 of 25 January 1983 establishing a Community system for the conservation and management of fishery resources ⁽¹⁾, as amended by the Act of Accession of Spain and Portugal ⁽²⁾, and in particular Article 11 thereof,

Having regard to the proposal from the Commission,

Whereas, pursuant to the terms of Article 2 of Regulation (EEC) No 170/83, it is incumbent upon the Council to formulate, in the light of the available scientific advice and, in particular, of the report prepared by the Scientific and Technical Committee for Fisheries, the conservation measures necessary to achieve the aims set out in Article 1 of the abovementioned Regulation;

Whereas, pursuant to the terms of Article 3 of Regulation (EEC) No 170/83, it is incumbent upon the Council to establish the total allowable catches (TAC) by stock or group of stocks, the share available for the Community and also the specific conditions under which the catches must be made; whereas, in order to ensure effective management, the shares available for the Community in 1989 should be allocated among the Member States in accordance with Article 4 of the abovementioned Regulation;

Whereas, in order to ensure the protection of fishing grounds and fish stocks and the balanced exploitation of the resources of the sea, in the interests of both fishermen and consumers, there should be fixed, each year for the different species of which the catches must be restricted, a TAC per stock or group of stocks and the share of these catches available to the Community taking into account its commitments to third countries;

Whereas Article 161 of the Act of Accession fixes the share of the TACs to be allocated to Spain for certain stocks in certain zones;

Whereas, in accordance with the procedure provided for in Article 2 of the Agreement on fisheries between the European Economic Community and the Kingdom of Norway ⁽³⁾, Article 2 of the Agreement on fisheries between the European Economic Community and the Government of Sweden ⁽⁴⁾, and Article 2 of the Agreement on fisheries between the European Economic Community, of the one part, and the Government of Denmark and the Home Government of the Faroe Islands, of the other part ⁽⁵⁾, the parties have consulted on their reciprocal fishing rights for 1989;

Whereas these bilateral consultations have been successfully concluded and whereas, as a result, it is possible to fix the TACs, the Community shares and the quotas for certain joint and autonomous stocks, of which part is allocated to Norway, Sweden and the Faroe Islands;

Whereas trilateral consultations with Norway and Sweden concerning reciprocal fishing rights in the Skagerrak and the Kattegat have been concluded and whereas it is possible, in consequence, to fix definitively the TACs and the Community shares available for the stocks in these areas;

Whereas, as a consequence of these consultations it is necessary to establish a TAC for deepwater prawn in the Skagerrak;

Whereas, in the light of the latest scientific information it is necessary to establish separate TACs for blue whiting, pollack and anglerfish in ICES division VIII e;

Whereas the Community has signed the United Nations Convention on the Law of the Sea, which contains principles and rules relating to the conservation and management of the living resources of the sea;

Whereas, in the framework of its wider international obligations, the Community participates in efforts to conserve fish stocks arising in international waters; whereas the extent to which such stocks are fished by vessels of the Community should be viewed in the light of overall fishing activity and the contribution made hitherto by the Community towards their conservation should be taken into account;

Whereas the International Baltic Sea Fishery Commission has recommended TACs for the stocks of cod, herring and sprat occurring in the waters of the Baltic Sea and the shares thereof for each contracting party;

⁽¹⁾ OJ No L 24, 27. 1. 1983, p. 1.

⁽²⁾ OJ No L 302, 15. 11. 1985, p. 25.

⁽³⁾ OJ No L 226, 29. 8. 1980, p. 48.

⁽⁴⁾ OJ No L 226, 29. 8. 1980, p. 2.

⁽⁵⁾ OJ No L 226, 29. 8. 1980, p. 12.

Whereas, in order to ensure effective management, the TACs available for the Community in 1989 should be distributed among the Member States in a manner which assures relative stability of fishing activities;

Whereas, in the case of certain stocks fished mainly for reduction to meal and oil, it does not appear necessary to make quota allocations;

Whereas, under Article 161 of the Act of Accession, flat-rate amounts of horse mackerel and blue whiting are allocated to Spain;

Whereas those flat-rate amounts of horse mackerel and blue whiting must be distributed among ICES sub-areas and divisions V b (EC zone), VI, VII and VIII a, b and d;

Whereas, under Article 158 of the Act of Accession, a distinction must be made between fishing for demersal species and fishing for species other than demersal and whereas the group to which blue whiting and horse mackerel belong must therefore be defined;

Whereas, in order to ensure effective management of these TACs, the specific conditions under which fishing operations occur should be established;

Whereas, taking account of the latest scientific advice, it is necessary to establish seasonal limitations on certain fishing activities in the North Sea in order to limit fishing on juvenile cod;

Whereas, it is necessary to extend the seasonal limitations on certain fishing activities in the Skagerrak and Kattegat in order to limit fishing on juvenile herring,

Whereas, in order to ensure a better exploitation of the quotas of herring, mackerel and hake, transfers of quotas from the zone IV c and VII d to ICES division IV b should be allowed for herring, transfers from the zones V b (EC zone), VI, VII, XII and XIV and from zone VIII a, b and d to zone II a (EC zone) and IV (EC zone) should be permitted for hake, and transfers from zones II a (EC zone) and IV and zone II (except EC zone), V b (EC zone), VI, VII, VIII a, b, d and e, XII and XIV to zone IV a (EC zone) should be permitted for mackerel;

Whereas, taking account of the latest scientific advice, it is necessary to establish seasonal limitations on fishing activities in the Firth of Clyde and the Celtic Sea in order to limit fishing on herring;

Whereas, taking account of the latest scientific advice, it is necessary to establish seasonal limitations on certain fishing activities in the North Sea in order to limit fishing on juvenile sole,

HAS ADOPTED THIS REGULATION

Article 1

This Regulation fixes for 1989, for certain fish stocks and groups of fish stocks, TACs per stock or group of stocks, the share of these catches available to the Community, the allocation of that share among Member States and the specific conditions under which these stocks may be fished ⁽¹⁾.

For the purposes of this Regulation, the Skagerrak is bounded on the west by a line drawn from the Hanstholm lighthouse to the Lindeness lighthouse and on the south by a line drawn from the Skagen lighthouse to the Tistlarna lighthouse and from this point to the nearest point on the Swedish coast.

For the purposes of this Regulation, the Kattegat is bounded on the north by a line drawn from the Skagen lighthouse to the Tistlarna lighthouse and from this point to the nearest point on the Swedish coast and on the south by a line drawn from Hasenøre o Gníbens Spids, from Korshage to Spøsbyerg and from Gilbjerg Hoved to Kullen.

For the purposes of this Regulation, the North Sea shall comprise ICES sub-area IV and that part of ICES division III a which is not covered by the definition of the Skagerrak given in this Article.

Article 2

TACs for stocks or groups of stocks to which Community rules apply and the share of these catches available to the Community are hereby fixed for 1989 as set out in the Annex.

Article 3

The allocation among the Member States of the share available to the Community of the TACs mentioned in the preceding Article is fixed in the Annex.

This allocation shall be without prejudice to exchanges made under Article 5 (1) of Regulation (EEC) No 170/83 and re-allocations made under Article 11 (4) of Council regulation (EEC) No 2241/87 ⁽²⁾.

Article 4

As regards the herring stock of the North Sea and of the eastern English Channel, transfers of up to 50 % of the quotas may be effected from ICES divisions IV c and VII d to ICES division IV b.

⁽¹⁾ The definition of the ICES and CECAF areas referred to in this Regulation are given in Commission communications 85/C 347/05 (OJ No C 347, 31. 12. 1985, p. 14) and 85/C 335/02 (OJ No C 335, 24. 12. 1985, p. 2) respectively.

⁽²⁾ OJ No L 207, 29. 7. 1987, p. 1.

As regards the hake stock in zone II a (EC zone) and IV (EC zone), Member States having a quota in this zone, may on exhaustion of this quota, make transfers from the zone V b (EC zone), VI, VII, XII and XIV and from the zone VIII a, b and d to the zone II a (EC zone) and IV (EC zone).

However, the transfers referred to in this Article must be notified in advance to the Commission.
