## COUNCIL REGULATION (EEC) No 3732/90

#### of 13 December 1990

establishing Community statistical surveillance for certain agricultural products originating in Cyprus, Yugoslavia, Egypt, Jordan, Israel, Tunisia, Syria, Malta and Morocco which are subject to reference quantities (1991)

THE COUNCIL OF THE EUROPEAN COMMUNITIES.

Having regard to the Treaty establishing the European Economic Community,

Having regard to Council Regulation (EEC) No 451/89 of 20 February 1989 concerning the procedure to be applied to certain agricultural products originating in various Mediterranean third countries (1), and in particular Article 3 (2) thereof,

Having regard to the proposal from the Commission,

Whereas the Additional Protocols to the Cooperation Agreements between the European Economic Community and Cyprus (2), Yugoslavia (3), Egypt (4), Jordan (5), Israel (6), Tunisia (7), Syria (8), Malta (9) and Morocco (10) have been concluded; whereas these Protocols provided for the progressive reduction, subject to reference quantities laid down within a set timetable, of the customs duties applicable to certain agricultural products originating in those countries and covered by the respective Agreements;

Whereas, under the respective Agreements, when the rate of customs duty applied to imports into the Community of Ten of an agricultural product subject to a reference quantity is lower than that applying in respect of Spain, Portugal or both of these Member States, the process of dismantling begins once duty on imports of that product from Spain and Portugal falls below that applied to imports of the product in question from the other countries; whereas, for this reason, the Annex to this Regulation lists only products in respect of which tariff dismantling begins or continues in 1991;

Whereas, in order to enable the competent authorities within the Commission to establish an annual trade balance sheet for each of the agricultural products concerned and, if necessary, to put into application the arrangement provided for in Article 3 (1) of Regulation (EEC) No 451/89 of the products are subject to a statistical surveillance;

(1) OJ No L 52, 24. 2. 1989, p. 7.

Whereas imports of the products in question are charged against the reference quantities at Community level within pre-established timetables, as and when the products are entered with the customs authorities for free circulation; whereas, therefore, it is appropriate to establish reference quantities for those products listed in the Annex,

HAS ADOPTED THIS REGULATION:

#### Article 1

1. Imports into the Community in 1991 of certain agricultural products originating in Cyprus, Yugoslavia, Egypt, Jordan, Israel, Tunisia, Syria, Malta and Morocco shall be subject to reference quantities within the established timetables and to a statistical surveillance.

The description of the products referred to in the first subparagraph, their serial numbers, their CN codes, Taric codes and the quantities and timetable applying to the reference quantities are given in the table in the Annex.

2. Amounts shall be charged by Member States against the reference quantities as and when products are entered with customs authorities for free circulation, accompanied by a movement certificate conforming to the rules laid down in the Protocol concerning the definition of the concept of originating products annexed to each cooperation Agreement between the European Economic Community, on one hand, and the countries referred to in the first subparagraph of paragraph 1, on the other.

Where the movement certificate is produced at a later date, the amount shall be charged against the corresponding reference quantity at the date of acceptance of the declaration of release for free circulation.

The extent to which the reference quantities are used up shall be determined at Community level on the basis of the imports charged against them in the manner defined in the first subparagraph, as communicated to the Statistical Office of the European Communities pursuant to Regulation (EEC) No 2658/87 (11) and (EEC) No 1736/75 (12).
