COUNCIL REGULATION (EEC) No 3816/92

of 28 December 1992

providing for, in the fruit and vegetables sector, the abolition of the compensation mechanism in trade between Spain and the other Member States and allied measures

THE COUNCIL OF THE EUROPEAN COMMUNITIES,

Having regard to the Treaty establishing the European Economic Community,

Having regard to the Act of Accession of Spain and Portugal, and in particular Article 89 (2) thereof,

Having regard to the proposal from the Commission,

Having regard to the opinion of the European Parliament⁽¹⁾,

Whereas the achievement of the internal market on 1 January 1993 makes it desirable to remove all barriers to trade, not only between the Member States of the Community as constituted on 31 December 1985 but also, as far as possible, between those Member States and the new Member States;

Whereas protection of the markets of the Member States of the Community as constituted on 31 December 1985 can be ensured by maintaining the supplementary trade mechanism for the most sensitive Spanish products; whereas adjustment of the most vulnerable structures of these Member States may be given a boost by the setting up of specific action programmes; whereas the compensation mechanisms for fruit and vegetables instituted by Articles 152 (1) of the Act of Accession, application and monitoring of which would, moreover, be very difficult once the Community no longer has internal frontiers, should therefore be discontinued;

Whereas experience shows that no effective use has been made of the measures to protect the Spanish market provided for by Article 152 (3) of the Act of Accession;

Whereas the applicability of the above measures should therefore be terminated and, for reasons of clarity, Council Regulation (EEC) No 3709/89 of 4 December 1989 laying down general rules for implementing the Act of Accession of Spain and Portugal as regards the compensation mechanism on imports of fruit and vegetables originating in Spain⁽²⁾ should therefore be repealed;

Whereas the large-scale integration of the Spanish market into the Community market which will thus be brought about makes it appropriate to apply to Spain the common level of institutional prices,

HAS ADOPTED THIS REGULATION:

Article 1

The mechanism instituted by Article 152 (1) of the Act of Accession of Spain and Portugal and the provisions of Articles 152 (3) shall no longer be applicable.

Article 2

1. The Community shall contribute to the financing of an action programme presented and accomplished respectively by the French, Italian and Greek authorities over a three-year period, the object of which is, for the fresh fruit and vegetables sector, the restructuring of the fruit
