CHAPTER 4

Provisions concerning transport costs

Article 164

In applying Article 32 (1) (e) and 33 (a) of the Code:

- (a) where goods are carried by the same mode of transport to a point beyond the place of introduction into the customs territory of the Community, transport costs shall be assessed in proportion to the distance covered outside and inside the customs territory of the Community, unless evidence is produced to the customs authorities to show the costs that would have been incurred under a general compulsory schedule of freight rates for the carriage of the goods to the place of introduction into the customs territory of the Community;
- (b) where goods are invoiced at a uniform free domicile price which corresponds to the price at the place of introduction, transport costs within the Community shall not be deducted from that price. However, such deduction shall be allowed if evidence is produced to the customs authorities that the free-frontier price would be lower than the uniform free domicile price;
- (c) where transport is free or provided by the buyer, transport costs to the place of introduction, calculated in accordance with the schedule of freight rates normally applied for the same modes of transport, shall be included in the customs value.
